Daring French Aviator Circles Eiffel's Tower
Count De Lambert Makes Remarkable Flight at Height of Thousand Feet Above Paris.
PARIS, Oct. 18.—Count de Lambert, the French aviator, just before dark tonight accomplished the most remarkable and daring feat yet credited to heavier-than-air machines. Starting from the aerodrome at Juvisy, he flew to Paris, a distance of about thirteen miles, after manufacturing over the city at an average height of 80 feet, he ascended in gradually diminishing circles and passed several hundred feet above the Eiffel tower. He then returned to Juvisy.
Thousands who watched from the streets of Paris could barely credit their senses when they saw the aeroplane, a tiny object gliding swiftly far above the tower, and the sensation created here by this performance was more profound than when Santos Dumont circled the structure in his dirigible balloon in 1900.
Count de Lambert was given a tremendous ovation on his return to Juvisy. Orville Wright, who was there with his sister, rushed forward and wrung the hands of the aviator as he alighted, pale, but radiant. He was led to the pavilion where his health was drunk, the crowd meantime cheering lustily and crying, "Long live Count de Lambert," "Long live Russia," "De Lambert being of Russian extraction.
The Count held up his hand and shouted: "Cry long live the United States, for it is to her that I owe this success."

GOTHAM CAMPAIGN GETS HOT
Heart and Bannard Hire Automobiles and Deliver Rapid-Fire Speeches.
EDITOR ASSAILS JUDGE GAYNOR
Fate Tammany Machine and Woodruff Put in Same Category—Bannard Believes in the Soft Answer.
NEW YORK, Oct. 18.—William H. Hearst, independent nominee for mayor of New York and Otto T. Bannard, the republican nominee, both of whom are heading the fusion ticket, dashed through Harlem tonight and delivered a series of rapid-fire speeches in support of their candidacies. Hearst spoke at four places and Bannard spoke three. Both candidates held meetings place to another in automobiles.
As has been his wont, Bannard confined himself to business issues and was brief. Hearst spoke at length and continued his denunciation of William J. Gaynor, the democratic nominee, although he found time to refer to Bannard as a machine candidate.
"I have got into this fight to defeat both Gaynor and his Tammany machine and Bannard and his Woodruff machine," he said, "and I do not want Mr. Bannard to forget, in the heat and excitement of the campaign, that he is just as much of a machine candidate as Judge Gaynor. He may not be the candidate of the same machine, but he is the candidate of the same kind of a machine, and I for one cannot see the difference in blackness between the Tammany kettles and the Woodruff pot."
In the rest of his speech, Hearst defended himself against the thrust by Judge Gaynor that he was endorsed by Tammany when he ran for governor against Hughes.
"Grover Cleveland," he said, "was a consistent foe of Tammany hall, yet he was governor of the state on a democratic ticket. I am just as much of a New York state as much as a foe of Tammany hall as I had run for mayor a foe of Tammany hall the year before."
Hearst's attack on Bannard tonight gives the campaign a new angle, for heretofore both have maintained what might be called a "clean record" in that both are attempting to defeat Tammany. Bannard has at all times refrained from criticizing Hearst. In his speeches tonight the republican nominee said:
"I am a candidate for mayor because a good many people think the City hall needs a business head, an a business man with ten years' legal training and some knowledge of how city bonds should be sold. The issue is Tammany graft and waste."
Confirmation of Princess Victoria
Daughter of Kaiser Takes Vows at Church of Peace at Potsdam—Royal Catch.
BERLIN, Oct. 18.—Princess Victoria Louise, daughter of the German emperor and empress, was confirmed today in the Church of Peace at Potsdam. The ceremony, which marks the separation of childhood from womanhood, was conducted by Dr. Dryander, the favorite court preacher. The princess was dressed in white and was led to the altar by the emperor and empress and other members of the imperial household.
The princess, who was born September 18, 1892, is a pleasant faced girl and described by foreigners who have talked with her as amiable.
She is regarded as competent to make one of the best matches in Europe and it is thought likely that she will be married soon, probably to a member of a minor royal family of the German empire.

King Alfonso Scores Premier in Ferrer Case
Spanish Ruler is Now Enraged Because He Did Not Have Chance to Pardon Professor.
PARIS, Oct. 18.—A special from Madrid says King Alfonso has had a violent quarrel with the premier because of the latter's failure to give his majesty an opportunity to exercise the royal prerogative of pardon in the case of Ferrer. The dispatch says the unpleasant interview followed when the king learned of the temper that had been raised abroad by Ferrer's death.
MADRID, Oct. 18.—The fall of Premier Maura is anticipated if former Premier Moret announces in the Chamber of Deputies today, as an article in the Diario Universal intimates that he will do, that the liberal party must be newly-constituted. The Diario Universal makes a sensational attack on the government headed, "Not one hour longer."

Cashier Shoots Himself; Woman Expires at Sight
Officer of Wrecked Bank at Mineral Point, Wis., Ends Life at Grave of His Mother.
MINERAL POINT, Wis., Oct. 18.—F. E. Hanson, cashier of the wrecked Bank of Mineral Point, shot and killed himself at 10 o'clock last night. Hanson's body was removed to the home of his mother. At sight of the body Mrs. Gray dropped dead. Since the failure of the bank Hanson has been working night and day and has been very despondent.
Mr. Hanson was a brother-in-law of Phil Allen, vice president of the bank, for the alleged misuse of whose funds Allen was arrested last Friday. The bank, regarded as one of the strongest in southwest Wisconsin, was closed a week ago after an investigation of the books by Bank Examiner Goodhart. An attempt was made to keep the institution on its feet by the sale of mining property in which Allen was interested, but the deal fell through.
It was alleged the bank had been looted of \$200,000 by means of notes forged by Allen. Allen's chief aid in running the bank was Hanson. The former became seriously ill when the bank was closed, and Hanson devoted every minute of his time in assisting Examiner Goodhart in straightening out the bank books.
When Receiver Schofield took charge last Thursday rumors which could not be confirmed had it that the loss to depositors would run greatly over \$200,000 and that more arrests were to be expected. Hanson took his own life while kneeling over the grave of his mother in the little cemetery here. He was first noticed to be missing at 8 o'clock last evening. No alarm was expressed until later in the evening, when inquiry at the bank, and various other places failed to reveal his whereabouts.
A searching party was finally organized with the result that the body of the banker was found on the grave of his mother. He was 56 years of age and leaves two grown daughters.

Cook's Records Said to Be Found
Prof. Fay of Tufts College Said to Have Climbed Mount McKinley—Corroborates Cook.
NEW HAVEN, Oct. 18.—It is said here that Dr. William H. Carmalt, professor of the principles and practice of surgery at Yale, had just received a personal letter from Prof. C. B. Fay of Tufts college saying that he had climbed Mount McKinley last summer and that he had found on top of the mountain the records and data left there by Dr. Cook.
Dr. Carmalt refused tonight to give out the letter of the Tufts professor, on the ground that it was personal. He refused to say that the letter was from Prof. Fay, but affirmed the report that he had received a letter from an authority on mountain climbing in which the writer had made the assertion that he had reached the top of Mount McKinley and found there Cook's records.
Dr. Carmalt further said that he had brought to the attention of the American Geographical society.
"The letter is a personal one to me," said Dr. Carmalt, "and I should prefer that whatever comes out about it should come out through the American Geographical society."

WOMAN OFFERS MILLION DOLLARS FOR SUFFRAGE
Lady Frances Cook Wants to Make President Taft a Second Lincoln Before the World.
NEW YORK, Oct. 18.—Lady Frances Cook, better known in this country as Tennessee Claflin, who arrived here today by the White Star liner Celtic, says she is ready to spend \$1,000,000, all her fortune, to win votes for women. She will place the money, she says, with New York bankers.
"I am going right to President Taft," Lady Cook declared, "to see if I cannot get him to do what Lincoln did, but by peaceable means. I shall call the president's attention to the fourteenth amendment of the constitution. The constitution says that only white, male persons and convicts may not vote, and I want to know if that bars women.

ROCKEFELLER DOES NOT ESCAPE ENTIRELY
Circuit Court of Appeals Alters Opinion of Judge McPherson Given at Kansas City.
ST. LOUIS, Oct. 18.—The United States circuit court of appeals today handed down a decision in a case in which Frank Rockefeller of New York sought to have cancelled or returned to him notes aggregating \$2,000 held by the National Bank of Commerce of Kansas City. A note for \$3,125 was ordered cancelled, but the other papers, aggregating \$2,500, the court declared, should not be returned to Mr. Rockefeller.
Judge Smith McPherson, in the circuit court at Kansas City, had given a decision entirely in favor of Mr. Rockefeller. Judge Adams' decision today sustained the lower court only in respect to the largest note.
The transactions grew out of the failure in 1883 of the Sagel-Standers Live Stock company of Kansas City, of which Rogers Mr. Rockefeller was a stockholder.

Dirigibles Now Made in Sections
Result of Accident to Republique Will Be New Method of Balloon Construction.
PARIS, Oct. 18.—As a result of the accident to the French dirigible balloon Republique, in which four officers were killed, the War Department has decided to introduce a system of several gas-tight compartments in future military balloons somewhat like the water-tight divisions of a vessel, to insure a gradual descent if one compartment is pierced, and to equip the dirigibles with wooden propellers.
The Republique fell from a height of 500 feet on September 25, when the axle of the right propeller snapped, permitting a blade to pierce the envelope, releasing the gas.

Company Must Pay PERKINS LIFE POLICY
United States Supreme Court Refuses to Take Up Famous Case from Kansas.
WASHINGTON, Oct. 18.—Without explaining reasons the United States supreme court today denied the petition for a writ of certiorari in the case of the Mutual Life Insurance company of New York against William E. Hason and others, trustees of the estate of the late Eugene H. Perkins of Kansas, involving a policy of \$100,000 on the life of Mr. Perkins.
The proceeding was a technical one, and was begun by the company to have the contract with Mr. Perkins cancelled on the ground it was obtained by fraud. After procuring the policy Mr. Perkins fell off the top of his house, and the insurance company contended that before falling he had administered to himself a dose of poison with suicidal intent, but with the object of having it appear that his death had been caused by accident, so arranged his body that it would fall.
There was a long controversy as to whether there had been no intention, but one was at last ordered by the courts, and it is stated in the bill that the contentions of the company were verified.
The case, as presented to the court, involved the question as to whether the proceedings, which were begun in equity, was technically correct. The circuit court of appeals for the eighth circuit held that it was insufficient to entitle the company to release. On account of that finding the company sought to have the supreme court take the case in hand, but today's decision was adverse to that prayer.

DELaware & HUDSON MUST PAY RENTAL
Big Judgment Rendered in New York Under Old Lease Affirmed at Washington.
WASHINGTON, Oct. 18.—The petition of the Delaware & Hudson Railroad company to bring to the supreme court of the United States the case of the Albany & Susquehanna Railroad company against the Delaware company was denied today by the supreme court of the United States.
As presented to the court the case involved a judgment for \$1,107,000 against the United States circuit court of appeals of the Albany & Susquehanna road under a lease made in 1870 and was regarded as one of great importance.
The verdict was returned by the United States circuit court for the southern district of New York and was affirmed by the United States circuit court of appeals for the second circuit. The action of the supreme court had the effect of sustaining the verdict of the two lower courts.

Investigation of Death of William I. Buchanan Does Not Establish This Theory.
LONDON, Oct. 18.—An inquest into the death of William Buchanan, the American diplomat, whose body was found in Park Lane late Saturday night, will be held Wednesday.
The official papers and personal property found in the rooms occupied by Mr. Buchanan at Claridge's hotel have been turned over to the American embassy. Investigation thus far has failed to throw light on the movements of the diplomat during the few hours preceding his death. Friends who had seen him during the day say he appeared to be then in the best of health and spirits. He left his hotel just before the dinner hour on Saturday, but where or with whom he dined or how he spent the evening has not been learned. There was no evidence of assault or robbery, and it is supposed death was due to heart trouble or an apoplectic stroke.
Mr. Buchanan was formerly American minister to Panama and later a special commissioner from the United States to Venezuela. At the time of his death he was under appointment by his government as agent of the United States for the future ratification of the Hague of a matter still pending with Venezuela.
An autopsy was held this afternoon, following which it was officially announced that Mr. Buchanan had died of heart failure.
