

THE OMAHA DAILY BEE

FOUNDED BY EDWARD ROSEWATER.

VICTOR ROSEWATER, EDITOR.

Entered at Omaha postoffice as second class matter.

TERMS OF SUBSCRIPTION. Daily Bee (without Sunday), per week, \$1.00. Daily Bee and Sunday, per week, \$1.50. Delivered by carrier.

Address all complaints of irregularities in delivery to City Circulation Department.

Omaha-The Bee Building. South Omaha—Twenty-fourth and N. Council Bluffs—32nd Street.

Communications relating to news and editorial matter should be addressed: Omaha Bee, Editorial Department.

Remit by draft, express or postal order payable to The Bee Publishing Company.

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss. George B. Tzschuck, Publisher.

Table with 2 columns: Date and Circulation figures. Rows include weekly, monthly, and quarterly averages.

Subscribed in my presence and sworn to before me this 25th day of September, 1909.

Subscribers leaving the city temporarily should have The Bee mailed to them.

You can lead Ben Tillman to the table, but you can't make him pay.

If they really want that brass tube brought back why not let Walter Wellman fetch it?

Boston society news that dogs' maids are all the rage at the Hub indicates a sort of rabid affair.

A growing city never has its streets free from building material blockades.

That mountain with a marble beard said to have been discovered up north is doubtless the one that Peary would like to hand to Cook.

The inclination manifested by the Oklahoma state banks to get back into the national fold looks as though their love for the guaranty deposit system were growing cold.

If Ig Dunn should refuse to apologize and the supreme court should disbar the only member of the city law department who ever does any real work, what would the city do?

It is not too early to make a holiday resolution to set aside a little fund for red cross stamps to embellish the Christmas packages and at the same time to help the anti-tuberculosis fund.

With their welcome attested by both Governor Shallenberger and Mayor "Jim," our Women's Christian Temperance union guests may rest assured that they are really in the hands of their friends.

By flying his airship at a speed of eighty miles an hour in the teeth of a gale Latham has demonstrated that man's eventual mastery of the air is certain.

The kaiser's offer to be godfather to the eighth child of any family, rich or poor, with a governmental cash allowance where needed, is all right as far as it goes, but where is the fairy godmother for the preceding seven?

Did you note in the published statement of contributions to the nonpartisan democratic campaign a hand-out of \$100 from one of the captains of the corporation lobby at Lincoln last winter? That's nonpartisan reform for you.

Two members of the Douglas county delegation of the late democratic legislature are running for office on the local ticket to be voted this fall.

The enthusiasm of the Italians over the czar's visit shows that no matter how great a reputation a man may have as a tyrant at home he can always acquire honor in other countries.

The death of Senator Johnson of North Dakota leaves a vacancy which will be filled temporarily through appointment by Governor Burke.

As much as Governor Burke is a democrat it goes without saying that this will transfer one vote in the senate from the republican to the democratic side.

The transfer, however, will be only temporary. The legislature of North Dakota is republican and will, in all probability, continue to be republican when the place is finally and definitely filled.

National Vitality.

In the popular conception of the conservation of natural resources it has been easy to overlook the fact that national vitality is the greatest thing to which we could possibly apply our endeavors.

The thoughtful reply will be that no one gets sick on purpose, and there will be a ready skepticism again the assertion that sickness is so largely preventable.

These are the three great sources of pollution of the human body, and it would seem as though, when confronted by the evidence collated by Prof. Fisher, every American would appoint himself a committee of one to set about insuring safeguards in these three particulars.

The progress of medical men, of health boards and of similar agencies for the conservation of national vitality is necessarily slow, but we are assured that with united effort the gains that now require a century or more could be obtained in a generation.

The inclination manifested by the Oklahoma state banks to get back into the national fold looks as though their love for the guaranty deposit system were growing cold.

If Ig Dunn should refuse to apologize and the supreme court should disbar the only member of the city law department who ever does any real work, what would the city do?

It is not too early to make a holiday resolution to set aside a little fund for red cross stamps to embellish the Christmas packages and at the same time to help the anti-tuberculosis fund.

The enthusiasm of the Italians over the czar's visit shows that no matter how great a reputation a man may have as a tyrant at home he can always acquire honor in other countries.

The death of Senator Johnson of North Dakota leaves a vacancy which will be filled temporarily through appointment by Governor Burke.

As much as Governor Burke is a democrat it goes without saying that this will transfer one vote in the senate from the republican to the democratic side.

In the gallant style of the southland now entertaining the president, pay a sincere and graceful tribute to her who must view his tour from a distance and who patiently awaits his return.

The wife at home, busy with her normal cares, is never so occupied but her heart is with the absent.

The sea captain in one of Mark Twain's stories in his "Idle Notes of a Rambling Excursion" has well depicted the need for solitude, not for the mariner on the deep, but for his helpmate on shore.

Thinking constantly of his wife, praying steadfastly for his safe home-coming, mayhap bearing him children in his absence and he not yet to be hearten her.

Another measure of the current thought for making real men of the boys. All through the country the manual training idea has grown, and in its promulgation the educators have made this the keynote of their advice to the youthful students.

It is the native desire of most boys to do things, to accomplish results that show. The normal boy does not believe a thing worth while unless he sees the practical demonstration of his vision.

All who have followed the career of manual training students, whether they have gone into a trade or into the professions of engineering or electricity, or ultimately engaged in some other calling where the tools handled are mental instead of physical, are enthusiastic for the spread of the manual training gospel.

The anti-clerical in Spain will hail with approval the declaration of the new cabinet that religious orders engaged in industries are to be subjected to the operations of the common law.

Strangers who see Omaha for the first time regard it as almost incredible that our city began its career only fifty-five years ago and has been able to show such a substantial growth in that relatively short period of time.

Omaha's original prosperity grew from the fact that it was the gateway to the overland trail.

Its second era of expansion came with the completion of the Union Pacific railroad, opening up continuous steam transportation from the Atlantic to the Pacific, with Omaha as the mid-continent transfer point.

The third climb came coincident with what was known as the boom days of the later '80s, which subsided with the subsequent drouth years and the panic of 1893.

Omaha's present upward movement began with the Transmississippi exposition of 1898, and has continued steadily with such a momentum that did not permit it to stop even for the financial disturbance of 1907.

Omaha is climbing right along on the ladder of population, wealth, material prosperity, culture and civic righteousness. In every direction which makes for a city of self-sustaining and contented people sharing in the good things of life, Omaha challenges comparison and invites attention to the promising conditions that point to still better things for the future.

Since the days when the instantaneous photograph first showed an incredulous world the grotesque motion of the race horse in flight, and established the fact that there could not be such a thing as exactly a dead heat, the camera has accomplished such wonders that we have almost ceased to marvel. The nickel show has made us indifferent to what a very few years ago was one of the wonders of the age, the moving picture.

A judge of the supreme court ought to have a scrupulous regard for the sanctity of an oath. What do you think of a man who, although an uncompromising democrat all his life, would subscribe to a sworn declaration that he affiliates with the populist party in order to get populist votes by false pretenses?

"Unmarred by a touch of remorse." This comment by Diaz on Taft is as happy and as deserved a compliment as could possibly be applied to the president. A man's record is usually written in his face, and it is a great thing to be able to show to the world a countenance stamped with a high consciousness of duty done, with no occasion for compunction.

Governor Shallenberger has gone out of his way to say that he would rather meet the women of the Women's Christian Temperance union than the president of the United States.

Those who believe a Central American revolution has no far-reaching influence will please note that because of the Nicaraguan affair the diplomats from the zone of revolutionary activities were compelled to stay in Washington and forego a fine banquet arranged for them in St. Louis.

ten-millionth of a second. The most rapid movement of nature or the swiftest article of man can thus be recorded for the purpose of close scientific study.

Prof. Kranz's mechanism works so speedily that, allowing for the working of shutter and the shifting of film, 5,000 separate and distinct pictures of a moving object can be taken in a single second.

This miraculously delicate instrument is bound to be of great service in the prosecution of scientific study of natural phenomena. The observer intent on a surgical operation or a military problem now may have an invaluable aid to dissect the mysteries hitherto hidden.

A world cautious of its defects should be grateful that the University of Chicago exists to wake it to its errors. A professor of that institution now shows us a terrible historic blunder when he spouts the old standby, "The Burial of Sir John Moore."

At all events, the subject (deposit guaranty) is an experiment, and anything that will bring in a decision from our highest court will be helpful.

The idea of furnishing a guarantee for bank deposits is one of those crude, half-baked, ill-digested notions in which the populist west is so prolific.

The head of the Packers' association says there can be no cheaper meats unless the raising of cattle shall increase greatly.

The United States patent office pays its running expenses and has a surplus over. As there is no patent on its methods other governmental offices and departments might use them to good advantage.

This, while directed at the statute of a single state will, if sustained, be equally operative against the statutes of all the states which have adopted the same principle in their legislation.

The failure of the Columbia bank in Oklahoma City, with \$300,000 deposits and \$1,200,000 in the bank and \$3,000 in the state guaranty fund to pay the depositors, promised to give the new system a severe trial in Oklahoma.

In Kansas the guaranty law was adopted and at the present time most of the banks in the state are joined in an action now proceeding in the United States court to enjoin the enforcement of the guaranties.

For centuries Asia and Europe had an account with America on which most of the business was done. Our religions, our theories, our aesthetic and literary ideas and artists, our social models were all imported.

Deposit Guaranty

Some Comment on Nebraska's Latest Disappeared Law and the Ruling of the Court

Be Patient, Governor. Springfield (Mass.) Republican.

Governor Shallenberger's late protest against the federal court decision annulling the Nebraska guaranty bank deposit law does not alter the legal situation, but it reveals the exasperation of Mr. Bryan's followers.

Two judges of the federal court in Nebraska have declared the deposit guaranty law of the state unconstitutional because it deprives citizens of property, without due process of law, by forcing banking corporations to contribute to an indemnity fund for losses for which they are in no way responsible.

At all events, the subject (deposit guaranty) is an experiment, and anything that will bring in a decision from our highest court will be helpful.

The idea of furnishing a guarantee for bank deposits is one of those crude, half-baked, ill-digested notions in which the populist west is so prolific.

PERSONAL NOTES.

In the opinion of the Washington Star the fact that Governor Judson Harmon of Ohio once wrote a poem does not necessarily disqualify him for the White House.

John Quincy Adams dropped into poetry; so did Abraham Lincoln.

Mrs. Dewey C. Bailey, president of the Denver Woman's club, has been honored by the State Woman's club of Colorado for the nomination for congress in the first district. Mrs. Bailey is the wife of the United States marshal of Colorado.

In Donald Johnson, a Centerville (Wis.) lad, born with one arm, Paderewski, the celebrated pianist, believes he has found a genius who will become world-famous. The lad will soon leave for New York and Switzerland, where he will be educated musically at the expense of Paderewski.

Louis Nicolovian, 77 years old, and for fifty-two years cashier and office manager for a New York firm, has been pensioned. In more than half a century he has been away from the office only 14 days, and he told his associates that he disliked to see Sunday come because it interrupted his work.

A New Yorker who subscribed for a \$5.00 deluxe edition of Theodore Roosevelt's complete works, is now in the courts contending that they are not worth the price, and demanding some sort of satisfaction. So far the only satisfaction he has had is a remark from Judge Truxax that a man who would pay that price even for Mr. Roosevelt's works must be an incompetent.

It may be stated, not simply as a prediction, but with a degree of authority, that one step in the reorganization of the government forces in control of interstate commerce will be the establishment of a railroad rate court for the adjudication of causes arising out of rate and traffic disputes.

MEETING OF THE PRESIDENT.

Significance of the Clash of the Hands on the Rio Grande.

The long journey undertaken by President Diaz to the northern border for the purpose of meeting President Taft has had some results which cannot but be considered highly beneficial, because promotive of a patriotic and national spirit among the great crowds who turned out to greet the chief executive.

In Donald Johnson, a Centerville (Wis.) lad, born with one arm, Paderewski, the celebrated pianist, believes he has found a genius who will become world-famous. The lad will soon leave for New York and Switzerland, where he will be educated musically at the expense of Paderewski.

Louis Nicolovian, 77 years old, and for fifty-two years cashier and office manager for a New York firm, has been pensioned. In more than half a century he has been away from the office only 14 days, and he told his associates that he disliked to see Sunday come because it interrupted his work.
