City to Receive Half Milt Tax

County Treasurer Has No Right to Hold Out a Collection Fee.

(From a Staff Correspondent.)
 DES MOINES, Ia., Oct. 27.—(Special Telegram.)—In a case of Sioux City against Woodbury county the supreme court today reversed the case in favor of Sioux City, holding that the city is entitled to the full one-half of the milt tax collected by the county. County Treasurer Magoun held out three-fourths of 1 percent as his compensation for collecting the money. The city brought suit against the county and Magoun, the district court sustained a motion releasing Magoun. The supreme court reversed the case, holding that the city is entitled to the full amount and that it must be collected from Magoun, as he got the money, and not from the county.

The following officers were elected by the State Health Officers association this morning: President, D. A. J. Sweney of Des Moines; vice president, Dr. Fred Albert of Mason City; secretary-treasurer, Dr. W. E. Carhart of Marion. Prominent women from all over Iowa gathered in the Young Women's Christian association rooms this afternoon for the opening of the equal suffrage convention. Beyond the welcoming addresses by various interested parties, nothing was done today. Dr. Anna Shaw, the national president, arrives Friday and arrangements are making to give her a rousing welcome. The strength of President John P. White of the state miners is being tested in the convention here today. Warm discussion was conducted when White was accused of bringing witnesses favoring his side to the convention from Centerville. He charged that the Centerville local had voted the expense money for witnesses for Baker, and thought he had a right to get witnesses for his side. White, in a report, charged that the action of the national president, Tom Lewis, in sending national organizers here without the knowledge of the state authorities was stirring up most of the trouble. He claimed the national officers were trying to split the state.

SHARPE CONTROLS TRACTION

Asserted He Has Enough Stock and Proxies to Oust McDonald.

CONTEST HAS BEEN SPIRITED

Preparations Being Made for a Large Industrial Exhibit at the Forth Coming State Teachers' Association Meeting.

(From a Staff Correspondent.)
 LINCOLN, Neb., Oct. 27.—(Special Telegram.)—It is reported here on seemingly the best of authority that W. E. Sharpe has won his fight for control of the Lincoln Traction company. John McDonald has been president and the controlling factor. Some time ago it was rumored that Sharpe aspired to be president and to direct the affairs of the company, and ever since there has been a spirited contest to secure stock and proxies for the election, which is to be held November 16. Those on the inside now assert that Sharpe has won. There has been considerable feeling engendered in the controversy. If Judge Jacob Fawcett had never been a blacksmith he never would have received a letter he got this morning. From this he has concluded one of his best investments was the work he did at the forge many years ago. The letter was from L. A. Williams, sheriff for six years of Sherman county, a candidate for re-election. Following is an excerpt from it: "I knew you at St. Rosa, Wis., when you were running a blacksmith shop. You have probably forgotten me, but you did blacksmith work for me there. I am an admirer of you." As Mr. Williams is still an admirer of Judge Fawcett he is now the letter as proof that he was a good blacksmith.

The Kendall-Smith company of Lincoln has filed a complaint against the Burlington railroad, with the state railway commission because it has seen fit to change its switching rate of \$5 a car from Woodlawn to 2 cents per 100 pounds. This company has a machinery manufacturing at Woodlawn, and for thirty-three years it says in its complaint the Burlington gave it a switching rate of \$5 a car. But recently it changed this rate to 2 cents per 100 pounds, and this rate is too high. The company under its implied agreement with the railroad invested \$4,000 in its plant at Woodlawn, and it cannot do a profitable business, it alleges, under the higher freight rate.

It is against the law for a telephone supply house to give as a premium to those local telephone companies who buy their supplies from it with coupons good for so much toward the long distance telephone. C. M. Bartlett of the Fairbury Telephone company sent the State Railway commission a proposition from the Swedish American Supply company at Chicago, offering these coupons to the Fairbury firm. The commission held this would permit of discrimination and, therefore, could not be permitted in Nebraska. The State Teachers' association, which will hold its City Auditorium, from November 2 to 6, inclusive, Mr. Bishop, during his four years as deputy state superintendent, made a national reputation along this line, organizing, as he did, for the boys and girls of the entire state classes in agriculture and domestic science. Mr. Bishop, in speaking of the exhibit, says that it will consist of manual training, domestic science, agriculture and industrial geography.

Superintendent Bishop has sent out to all of the schools of the state a special circular regarding the regulations and rules, and also the different classes of material to be exhibited. Already a great number of schools have signified their intention of making an exhibit.

Nebraska is about to get another railroad, running from Beloit, Kan., to Kearney. C. Hildreth, a banker of Franklin county, has written to the secretary of state that the road has come to the Nebraska line and that the surveyors will shortly be at work in this state. Mr. Hildreth asked that copies of the corporation laws be sent to him.

The attorney general will go to Omaha November 3 to cross-examine witnesses in the injunction suit brought by the railroad of Nebraska to knock out the railroad legislation enacted by the legislature of 1907. Mr. Thompson is working hard to be a position to put in all of his own evidence at this session.

The Western Union Telegraph company has appeared to the supreme court case wherein it was fined in the Lancaster county court for failing to file its report with the State Railway commission and for changing a rate without first securing permission from the commission. The company alleges that the law does not place it under the jurisdiction of the commission.

In a wreck on the Burlington road near Plattsmouth, Neb., Oct. 27.—(Special Telegram.)—L. F. Carver, a special agent for the Missouri Pacific Railway company, who was recently transferred from Kansas City to Omaha, brought to this city Tuesday morning Louis Robertson from Union, and he is now confined in the county jail. Robertson arrived in Union about 3 o'clock in the morning and proceeded to break open a Missouri Pacific car, and finding some fine shoes proceeded to appropriate them. The prisoner is an ex-convict, having been recently released from the state penitentiary in Lincoln for having been convicted of having committed a similar offense against the law in Lincoln.

Boy Dragged to Death by Cow.
 SEWARD, Neb., Oct. 27.—(Special Telegram.)—Marvin Hatch, aged 8 years, son of Edward Hatch, was dragged to death by a cow here this evening. The boy, who was leading the animal, from the pasture, had wrapped the rope around his waist. She became frightened and ran for two blocks before she could be stopped. The boy was badly bruised and injured internally. He died within a few minutes.

Hastings Lets Sewer Contract.
 HASTINGS, Neb., Oct. 27.—(Special Telegram.)—H. C. Gardner of Lincoln has been given a contract by the council for laying 1,200 feet of sewer here for \$1,200. His proposal was \$30 less than the next lowest. Eight contractors from Grand Island, Omaha and Lincoln entered the competition.

Business Change at York.
 YORK, Neb., Oct. 27.—(Special Telegram.)—Mr. Lee Sturdevant, proprietor of the Star grocery, has sold his stock to E. B. Lloyd, groceryman now occupying a room on the south side of the square, who will move into the room now occupied by Mr. Sturdevant.

Eleventh and X streets shortly after 3 o'clock Wednesday morning, six box cars were thrown into the ditch and a six-wheeler engine was so badly broken to pieces that it had to be taken to the Havelock shops. The engine telescoped two of the box cars and tossed the others off the track.

The accident occurred on account of a confusion of the right-of-way orders which were given to the switchman. He gave the main track to the switching crew at the same time that the stock freight was leaving. The stock freight was going slowly, but the cars which were thrown onto the main track by the switching crew were moving at a high rate of speed. Engineer Holmes, who was in charge of the freight engine, kept his post and narrowly escaped injury when the locomotive and the engine came together.

The sparks from the engine set fire to one of the box cars which it had telescoped, but the blaze was put out before serious damage was done.

The state bank of Oakland has been organized with a capital stock of \$5,000. The incorporators are: George W. Minier, president; K. S. Foxworth, vice president; William E. Minier, cashier.

The state railway commission is having a lot of trouble getting the Lincoln Traction company to make its report under the law, which was due August 1. In view of the litigation now pending against the company there is considerable interest in the coming report. For about a week the commission has been promised the report but for some reason the officials of the company have delayed. The commission may have to take some drastic steps to get the information which it is waiting for.

Most remarkable Values in Boys' Better Suits

The prices we quote are not uncommon about town, but the suits we show at these prices are decidedly so. They possess an individuality that one seldom expects in boys' clothes. They are tailored as carefully as any men's clothes. They are cut from the finest fabrics obtainable. They are so different, so far superior and so much more attractive than what you'll see generally that you'll readily agree with us that each price represents a positive saving of \$1.50 to \$2.50 when compared to the suits shown elsewhere. Anyway, see them—You're welcome.
