York Paper Pounces on Rossevelt Story and Says Things.

With Joy too deep for words to picture, the New York World pounces on the incldent of Carl Akeley killing a leopard bare-handed, related by Theodore Rooseveli in the second installment of "African Game Trails," declares the story is almost thirty years old, and pulls the "deadly parailel" on the first page. The original story, bearing a London date and printed in the Warld on November 15, 1886, reads:

Prof. D. G. Elliot, the leader of the

a naturatist. While the explorer's caravan of sixty-

eight men, all armed with Sniders and Wir chesters, and ninety-eight camels, was journeying through Somaliland, C. A. Akeley, head of the taxidermist department, was furiously attacked by a wounded leopard. He was nearly torn to pieces. He bears fourteen wounds on his right arm and hand as mementos of the struggle. He escaped through remarkable presence of mind and coolness in literally suffocating the beast by kneeling on its lungs. Chamberlain's Cough Remedy is pleasant

to take. Children like it. Leading Financier Injured.

When the blood becomes overcharged with uric acid it continually grows weaker, more acrid, and poorer in nourishing qualities. The nerves. muscles and joints, instead of receiving their necessary nutriment from the circulation are gradually filled with the sharp uratic impurity with which the circulation is loaded, and the pains and aches of Rheumatism are the natural result. No amount of rubbing, or the application of external medicines can have any direct and curative effect on the blood; the most to be expected from such treatment is temporary relief from the pains and aches. There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid impurity. S.S.S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the uratic matter and strengthening and enriching the blood, cares Rheumatism in every form. S.S.S. changes the sour, noid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, cools the feverish fiesh, gently removes the cause and drives Rheumatism from the system. S.S.S. reaches inherited cases as well as those which have been acquired, and good results are always experienced from its use. Special book on Rheumatism containing many valuable suggestions for rheumatic sufferers and any medial advice free to all who write.
