deeply interested in education.

Significant Fact

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration? Is it not a significant fact too that

### **Dr. Pierce's Favorite Prescription**

Is the only medicine sold through druggists, for woman's peculiar weaknesses and ills, the makers of which are not afraid to print its every ingredient on its outside wrapper? Is this not worthy of your consideration if you are a poor sick invalid woman?

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

A booklet of ingredients, with numerous authorative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

It's foolish-often dangerous to accept a substitute of unknown composition in place of this time-tried medicine of known composition. Don't do it. Insist on getting what you ask for.

M. Penny, president of the Peru Normal started there, which, if it spreads, as it is

likely to, will give the state in the near future a generation of educated farmers. The superintendent of education in the sixteen townships of Wright county, with its 140 rural schools, is having elementary agriculture taught in almost all the grades. The average age of graduation from the eighth grade is 13% years, when the pupil is eligible to enter any high school or academy without examination, and he also possesses a good working knowledge of agriculture. There are a good many things that he must know when he reaches that stage of acquisition. He must be able to give a comprehensive statement of the origin and history of corn, explain in how many ways it may be used as a table food. understand the character of solls and the effect upon them of moisture or the lack

of it, tell why clover should be rotated with the crop and understand something about fertilizars. He must also he acguainted with the different kinds and breeds of stock and a good many other things of like character. This, to be sure, is elementary, but so is

everything else that the boy or girl learns up to that point, and it all serves as the foundation for larger building. It, how-

ever, helps to elevate the industry in the estimation of the rising generation. Lectures are given in the various subjects, and at the first one the boys and girls were somewhat astoniahed when the demonstrating professor introduced a horse on the platform where white-gowned maidens had just been sitting, and proceeded to 90 many women suffer.

their future husbands go furthest."
The Wingate trophy has been given to the Public Schools' Athletic league, in New York City, by Rodman Wanamuker, to be a perpetual prize for the school attaining the best standing in athletics each year. It is named for General George W. Wingate, the founder of the league and well known for his sturdy citizenship.
A notable event in the estucational world last week was the laying of the corfferstone of a new dormitory for the William Smith College for Women, at Geneva, N. Y. The stone was laid by Mr. Smith himself, who is over 59, and Mrs. Elizabeth Miller, for whom the dormitory is to be named, was also present at the exercises. She is a daughter, it will be remembered, of Gerrit Smith, and is now 37.

Smith, and is now 57. Nearly 11,000 school children in Chicago can attend but half a day owing to crowded conditions in the school buildings. There are fifty classes held in basements, with an enrollment of 2,500 pupils. This, too, al-though twelve new school buildings were opened in September and sixty-three port-able rooms built of corrugated sheet iron are used for recitation rooms. Even the renting of buildings to accommodate 2,400 other children has proved insufficient. Miss Amy F. Ching, who was entered at other children has proved insufficient. Miss Amy F. Ching, who was entered at Wellesley college this fall, is a woman with a mission. She is a self-made girl, her Chinese parents dying in Honolulu while she was still a child. She earned hor course in the normal school and was grad-mated with honors. She tanghi two years, and with the money earned took a course in Oahu college, graduating this summor. She will specialize at Wellesley in Katin, mathematics and English. When she grad-uates she expects to return to China and teach her sisters.

OMAHA PEOPLE IN WRECK Several Are Seviously Jostled on the

Canuon Byll Shot Out of St. Louis.

Several Omaha people were subjected to a evere shock in the wreck of the Cannon Ball, Wabash passenger train No. 1 near Witten, Mo., at 4:40 o'clock Saturday mornng. Mrs. Catherine A. Furay, mother of Frank Furay, Douglas county treasurer, ceturning from a visit in St. Louis, was nearly thrown from her berth in the Pull nan when it left the track. Mrs. Furay was in a wreck on the Wabash on the same ourney five years ago and both times has scaped injury.

Ed B. Dailey, son of Deputy City Clerk Dalley, was a passenger in the Pullman. Mrs. H. C. Shields, wife of H. C. Shields district passenger agent for the Wabash was also in the car. C. R. Field of the Carpenter Paper company was a passenge the same train.

Extra Conductor McCall was the only erson on the train injured. He sustained broken arm when he was thrown from his seat. The mail car alone remained on the track and several of the coaches were GRAND ISLAND, NEBRASKA verturned.
