Governor Shallenberger Will Order Investigation of Charges.

FELIX NEWTON THE ACCUSER

Asserts Money Advanced Out of Cash Funds to Employ Was Not Paid Back—Joker in the Anti-Pass Law.

(From a Staff Correspondent.) LINCOLN, Nov. 5.—(Special.)—Felix Newton, disposed bookkeeper at the Lincoln asylum, has brought to the state house and the executive office stories of cruelty practiced on himself by Superintendent Woodard and tales of deals which so impressed Governor Shallenberger that he has announced that he would ask the state to investigate thoroughly the institution.

Newton pointed out in the office of the state auditor a voucher dated August 18, 1909, made out to Gust Larson for "rebuilding firebox in boiler, fourteen hours at 50 cents per hour, \$7.00."

Another record dug up by Newton showed that Edna Porter had secured an advance of \$5 from Superintendent Woodard on her February wages and that Dr. Woodard was reimbursed by the state, and that the state paid to her the \$15 for the full month's work.

No Record of Disbursement. There is no record at the state house to show whether the cash fund had been reimbursed by Dr. Woodard, though Newton says he kept that cash fund account and that the book is open for entry to show that the fund was replenished.

The warrant which was issued to Larson, Newton said he gave to Dr. Woodard. But it has not made its appearance at the auditor's office, so there is no record to show who cashed it.

Newton said he refused to permit Superintendent Woodard to file the receipts given him by Larson and from that time on he says he had trouble. He said he called the attention of the superintendent to the extra charge of 50 cents, but that Dr. Woodard had nothing to say about it.

Dr. Woodard took my mattress away from me and for several nights I was forced to sleep on iron springs. When I appealed to him to treat me right he promised to get me a mattress when he bought a large number. He said he could not buy just one mattress. A few days later, however, he bought one mattress for the use of his brother-in-law, Mr. Tracey. All this time my mattress was lying under the table in the sewing room, where it had been kicked.

Dr. Woodard was asked about the charges made by Newton and he replied that he knew nothing of the details of the book-keeping and he did not recall the items mentioned to him. He said if there was anything wrong with the books it was certainly a case of the bookkeeper fixing them wrong. He courted an investigation of the charges.

Book Companies Keep Busy with State Teachers

Members of Association Leave Lincoln Convinced Ring is Directing Deliberations.

(From a Staff Correspondent.) LINCOLN, Nov. 5.—(Special.)—The State Teachers' association ended its annual meeting here tonight with an address by Booker T. Washington. The speaker talked on the subject, "Solving the Negro Problem in the Black Belt of the South."

One of the most interesting entertainments given the teachers was the reception at the executive mansion this afternoon by Governor and Mrs. Shallenberger, at which nearly all of the visitors were present. The mansion was tastefully decorated, the decorations following the color schemes of the different rooms. In front

HALF MINUTE STORE TALK

"I'm all tangled up on this suit question," said a man the other day, "every store in town claims to have the best clothes. And there is a whole lot more truth than poetry in his remark. Pick up any Omaha paper, almost any day and you'll see that whatever can be said about the best clothes is being said about the worst. It is little wonder this man was bewildered. Pa Rourke Has Real Phenomenon

Signs Sindelar, the Giant Wonder of Stanton, Who Walloped Omaha.

Two fouls and a stolen base. That is the sum total John Goding claims the Rourke barnstormers were able to get of L. J. Sindelar, the giant pitcher of the Stanton team on the recent visit of the Rourkes to that burg.

So glowing were the reports the Rourkes brought back to Pa of the prowess of this youth that no time was lost by Pa in trying to secure him for next year, and his name is now attached to an Omaha contract.

Sindelar is the talk of the Smoke House. Now that he has signed up, the Corn Cob League will have something to talk about all winter.

Orrie Shannon, catcher for the Minneapolis team, who accompanied the Rourkes on the trip, says he is the best pitcher he ever saw.

The official record of the game played by Omaha at Stanton shows that the Rourkes made two little singles off his delivery. Goding says that is all a mistake and that all that was made amounted to two fouls and a stolen base.

Goding says he is six feet four and bigger all around than Rube Waddell, and is a right-hander with a world of speed and knows the game, and the wonder of all is that he has not been grabbed up before.

IOWA AND DRAKE ON TODAY

Teams are Evenly Matched for Game at Des Moines.

DES MOINES, Nov. 5.—(Special.)—Iowa and Drake will line up this afternoon in the first championship game in this city bearing the name of Iowa and Drake titles. The Hawkeyes put out of the Missouri valley race by Missouri last Saturday will endeavor to stay in the Iowa state championship struggle by a victory today. Also the Iowans figure that a victory over Drake will mean much in the final comparison if the Blue and White successfully defeats Missouri on November 12.

The teams are evenly matched. Iowa outweighs the team coached by John L. Griffith (he is no relation of the Iowa coach, John G. Griffith), but the Drake eleven makes up for the lack of beef by superior experience and reputed fighting spirit. Drake won last year on Iowa field, 13 to 6, and the Hawkeyes, with a far different team, are out for revenge today. The lineup:

JOKER IN ANTI-PASS LAW OF MINNESOTA

It Has Been Discovered that One Must Use a Pass to Be Culpable.

LINCOLN, Neb., Nov. 5.—(Special.)—It has just been discovered that by a clever stunt of the litigious character the anti-pass law has been rendered practically worthless. In amending the law to make it more liberal regarding employees of the roads, a joker was run in which provides that in securing a conviction it must be proven that the party accused accepted and used a pass. In the old law of 1907 conviction could be secured by proving the acceptance "or" use of the pass.

While the Railway Commission holds it is easy to prove the acceptance of the pass, to prove its use would be more difficult. Because of that joker three cases have been dismissed by the county attorney of Valley county.
