

PITY FOR BABE SAVES FATHER

Court Sends Faithless Husband to Jail Instead of Penitentiary.

GIVES INCISIVE REBUKE FIRST

Judge Sutton Severely Scores the Man Who Deserted Child-Wife in Her Hour of Supreme Need.

The hearts of a myriad deserted wives would have beaten a little faster had they heard Judge Sutton in district court rebuke Edna Hunt, about to be sentenced for wife abandonment.

No more impressive words have been spoken from the bench of the district court of Douglas county in years than fell from the lips of Judge Sutton, who spoke not in heat, but with gravity.

"You let your wife, Hunt," said the court, "go to the poor farm to have her baby, your son, born there. You let her go down in her travel into the valley of the shadow while you slept at your mother's home in a comfortable bed. You let this helpless innocent—your own child—have for life the stigma and disgrace of having been born in a poor house.

Parole When Wife Says So

"I am sending you to the county jail for four months. I stand ready at any time to parole you when your wife comes to me and thoroughly convinces me that you are ready to support her and the baby. But she will have to convince me that you are fit to earn it. I would parole you tomorrow if she would do this. I hope you will go to jail feeling true contrition for your offense and with a firm desire to atone.

"But should you not feel this way and should you at the end of your punishment be again brought before this bar for a second sentence for this offense, I shall send you to the penitentiary for the full limit of the law."

"The prisoner is remanded to the custody of the sheriff."

Hunt began by leading the girl, only 15 years of age, astray, and then marrying her under compulsion. He took her to live at the home of his mother and after a little time went to Chicago. The day after he left, Mrs. Hunt, the mother-in-law of the girl, who had never liked the child wife, turned her out of the house. The girl went back to the home of her parents, who are pitifully poor, and when it came time for her to risk her life she had to go to the county hospital.

Back came Hunt from Chicago, and when the girl had been out of the hospital only two weeks, he and his mother met her on the street the poor little woman bearing her baby in her arms. Hunt passed by his child and the woman who had borne it without a glance.

Changes His Name to Fit the Times

Man at Night School Adopts "Green" for Long Cognomen, Saying "All is Hurry" in Unita State.

Miss Adams, principal of the night school at the Cornhusk building, has become impressed with the quickness of perception of some of her pupils who cannot yet express themselves freely in the English language. One night recently she had occasion to ask a grown man his name.

"Green," was the response. "Why, your name cannot be Green. Spell it, please."

"The man did so, with a view to make it into English letters, and the result was a long cognomen, with about twice as many letters as Green.

"You must keep your own name," advised the principal. "Men do not change their names in this country. That is the sacred prerogative of women."

"Too long, too long," insisted the man. "In this Unita Stat it is hurry, hurry—all is quick, like Green."

LOST REGISTERED LETTERS FOUND IN QUEER PLACE

Missed from a Mangled Mail Bag, They Are Recovered from Car Trucks.

It does not always follow that the disappearance of registered mail packages indicates a robbery of the mail. This was demonstrated on the Overland Limited train No. 2 Friday when a package of five registered letters from Schuyler disappeared between that point and Omaha.

The recovery of the lost package was as strange as its disappearance. The Schuyler pouch is picked up from a crane by means of a pouch catcher as the train passes. This pouch catcher is attached to the mail car and hooks onto the pouch suspended from the crane as the train passes. In this particular instance the pouch catcher did not make a good catch and the pouches fell under the wheels of the train and was cut in two. The mail was scattered along the track for a considerable distance, but the five registered letters, which were in a packet, could not be found when the other mail was picked up. The impression at once prevailed that the registered package had been found, and kept by some one and it was reported as lost.

Postoffice Inspector L. A. Thompson was started out to investigate. His first visit was to Council Bluffs to make inquiries of the postal clerks on the car, and scarcely had he reached there when he received word that the registered package had been found by the car cleaner resting snugly on the trucks under the dining car, where it had been blown or thrown when the mail pouch was flung under the wheels at Schuyler.

The package was not injured in the slightest.

OFFICERS OF LUTHER LEAGUE

John Helgren is Elected President at Meeting Held at Salem Church.

The Omaha district of the Luther league is holding a two days' session at the Swedish Lutheran Salem church, 3219 South Twenty-third street. About fifty delegates are present from Omaha, South Omaha, Oakland and Florence. At the business session the following officers were chosen: President, John Helgren; secretary, F. R. Miller; treasurer, Sidney Gottneld. The twentieth anniversary of the league will be celebrated tonight at the church. O. J. Johnson, president of Wabash college is in attendance at the convention.

Wabash Gives Omaha Long End of Train Service

Accedes to Requests for Starting and Stopping Here Instead of Council Bluffs.

Accedes to Requests for Starting and Stopping Here Instead of Council Bluffs

After several months' negotiation the Commercial club has convinced the Wabash railroad that it was to its interest to run two of its trains to and from Omaha which have been stopping and starting from Council Bluffs. Train No. 1, stopping at Council Bluffs at 11:15 p. m., will henceforth after cross the river to Omaha, arriving at the same hour, making up the extra twenty minutes time required in the run from Shenandoah. Train No. 12 has been leaving Council Bluffs each morning at 8 o'clock, and after Sunday it will leave Omaha daily at 7:45 a. m. These changes will be of great convenience to the traveling public and will help people living along the line to reach Omaha and to get out. Hereafter passengers with Omaha as their destination were forced either to use the street cars from Council Bluffs or to remain there all night, and those desiring to take the morning train also had to use the street cars to Council Bluffs.

The matter was first brought to the attention of the Omaha Commercial club by the Commercial club of Shenandoah, and afterwards taken up by other commercial bodies along the line. They have been working on the proposition for several months until this week W. C. Maxwell, general traffic manager of the Wabash, has notified the clubs that after Sunday the trains will arrive and start from Omaha.

Says Maidens Ought Not Teach

Prof. Earl Barnes Throws Bomb Into Meeting, Declaring Single Women Unfit for Schools.

Prof. Earl Barnes, a man with national reputation in the field of child study, addressed the teachers of Nebraska at their convention in Lincoln this week. Some of his statements and conclusions have created a rumbling among the women teachers, many of them being Omahans, that is threatening to grow into an explosion of protest, or at least a hurricane of argument.

Shame to Miss Such a Chance

Young German Just Over Laments Jumping When Injured Driver Claims Damages of \$100.

Fritz Bodenheimer, 18 years of age, just over from his vacation in finding life in bustling Omaha fraught with much that is to his old world mind peculiar.

About the first day in the city he took a ride on a delivery wagon serving the Hillier liquor house, of which his uncle, Henry Hillier, is the head. A street car crashed into the wagon at Forty-fifth and Grand streets and the lad leaped for his life. The driver struck to his seat and was thrown out and dragged, injuring his arm. "I'll make the company pay for this," he spluttered when at last he was dragged from under the car.

"How much?" eagerly inquired Fritz. "Oh, I guess I'm hurt about \$100 worth," replied the driver, nursing his sprained wrist. "Ach, for why did I jump off?" exclaimed Fritz. "That is lots of money."

FOUR NEW Y. M. C. A. CLASSES

Social Service, Religious Exercises, Social Teachings of Jesus and Capital vs. Industrialism.

The Young Men's Christian association announces the organization of four classes for the season. All of these classes have a bearing on educational Christianity in various phases.

Miss Ida V. Johns, general secretary of the Associated Charities, will conduct the course for the training of social workers. This course comprises ten lectures given on Monday evenings at 7:45 o'clock, opening November 8.

The need of a better educational policy for the church and more religious motive for education is the purpose of the course in "The Principles of Religious Education," taught by L. T. Crossman. This course opens on Friday evening, November 11.

Rev. R. E. McBride will conduct a class for men only on the social teachings of Jesus. This class meets on Tuesday evenings at 8:45 o'clock, holding the first session on November 9.

Prof. D. E. Jenkins will lead a class in the study of the relation between Christianity and industrialism. This course is also open only to men. It meets for the first time on the evening of Thursday, November 11, at 7 o'clock.

GRAB HOOKS RETURN LADEN

Dempsy's Men Bring in Many Men and Women of Questionable Callings.

Sergeant Dempsy, acting head of the detective department, started his men on a wholesale raid Saturday morning and the result was that before noon upwards of thirty men and women of immoral character had been picked up.

It is the purpose of the sergeant to arrest all the men and women who have been engaged in petty and more serious thieving, and all will be arraigned in police court Monday morning. Most of those taken in the raid were colored, amongst the first twenty-six there being but three whites.

The raid was brought about largely by the arrest of Mattie Butler, a colored woman, charged with relieving a man of \$20 in bills in her apartments Thursday night. Mattie was discharged by Police Judge Crawford Saturday morning, because of insufficient evidence, but Sergeant Dempsy is of the opinion there has been too much of this class of work going on and he proposed to put a stop to it if possible.

SPEAKER FROM SOUTH AFRICA

Neon Meeting of Y. M. C. A. at the Burwood to Be Addressed by Rev. Ernest Titcomb.

Rev. Ernest Titcomb of Johannesburg, South Africa, is to address the noon meetings of the Young Men's Christian association at the Burwood next week. Rev. Mr. Titcomb has interesting stories to tell of life in South Africa. He saw both sides of the British-Boer war, first inside the Boers' lines in the Transvaal and later as a chaplain of English troops under General French and General Gordon.

More recently Rev. Titcomb has been actively engaged in work in Johannesburg, the metropolis of the mining district and a center of wealth. His charge there has become an evangelistic center. Rev. Titcomb will address the meetings at the Burwood daily, beginning Tuesday and concluding on the following Monday, from 12:15 to 12:30 o'clock. The meeting on Sunday, November 14, will be held in the gymnasium of the Young Men's Christian association at 3:30 p. m.

LEGISLATURE OF BUSINESS

Commercial Clubs of Large Cities to Send Representatives.

OMAHA IS WILLING TO JOIN

Secretaries of Commercial Clubs in Movement Along Same Line to Meet at Cincinnati on November 18.

The Association of Commerce of Chicago is fathering a movement for a national association of commercial clubs, to be represented by executive officers. A meeting has been called for Chicago for November 12, when Boston, Chicago, Detroit, Indianapolis, Kansas City, Omaha, Louisville, Memphis, Minneapolis, Pittsburg, St. Paul and St. Louis will be represented. The first meeting will be in the nature of a preliminary conference to interchange ideas and the work of the national association will be along broad lines, such as reclamation, conurbation and banking. Only cities of 150,000 population and over will be represented.

Edgar Allen, chairman of the executive committee of the Omaha Commercial club, has written that Omaha is in favor of the movement.

An association of the commercial secretaries of the cities of the central states is to be formed at a meeting which has been called for Cincinnati November 15-17. For some time the commercial clubs have felt the need of such an association, similar to those of the east and south, and a call has been issued by the commercial clubs of Chicago, Cleveland, Indianapolis, Louisville and Omaha. A meeting will be held once a year.

Many cities are working along about the same lines and this association hopes to lessen the work of all by saving different clubs from fighting out something which has already been fought and won by another club in the same territory. The membership is limited to cities of over 75,000 population. J. M. Guild, commissioner of the Omaha Commercial club, has been asked to read a paper on "Commercial Organizations and Legislation."

TO CHEAPEN STEAM COAL

Governor Burke of North Dakota Says it Can Be Done.

WILL BRING CARLOAD TO OMAHA

Demonstrations of the Merit of Dakota Fuel for Manufacturing and Use on Railroads to Be Made Here in December.

Steam coal will soon be cheaper in Omaha, according to Governor John Burke of North Dakota, who has engaged rooms at the Paxton for December 14, 15, 16 and 17, during which time he will preside over the deliberations of the Missouri River congress for three days and speak at the National Corn exposition December 17.

To show business men of Omaha, Kansas City and Sioux City that they are paying too much for their coal North Dakota will send a carload of lignite coal to Omaha with which to heat the Auditorium and to give practical demonstrations. They wish to show that the lignite coal of North Dakota is a steam producer and that it is equal to bituminous coal.

This coal costs 20 cents a ton at the mines and the river men claim it can be brought to Omaha for less than \$1 a ton on boats. The cost of steam coal in Omaha at the present time is \$1 a ton.

The North Dakota delegation is anxious to demonstrate the better efficiency of this coal to business men, as it is said they have \$4,000 square miles of this lignite coal running in veins from a few inches to forty-five feet. This will be demonstrated at both the Missouri congress and the National Corn exposition.

Governor Burke expects that North Dakota will send a large delegation to the Missouri River congress, as the movement never had stronger support than at the present time. Eighteen boats are now plying the Missouri in North Dakota, and from Bemarek to Williston and Fort Benton. They have pulled the grain crops of 1909 from central North Dakota to Washburn and Bemarek by boat at a large profit. The boats are from 400 to 600 tons capacity.

The Northern Pacific company recently made experiments in running a heavy train from Bemarek to Jamestown, a distance of 106 miles, using the Pyryja coal. The trip was made at a coal cost of 18.25. A similar trip was made with Pennsylvania bituminous coal and it cost \$32.50.

The Northwestern is also experimenting in Wyoming with lignite coal, having engines especially rebuilt for this work, and the saving in fuel is reported as being very large, when everything is considered. The Northwestern requires about seventy-five cars of coal a day for its northwest line, and if this great consumption can be done away with to any considerable extent by the use of lignite coal, it will relieve the situation considerably in the matter of congested tracks.

PAPAL BLESSING ON MISSION

Pope's Benediction Will Close Passionate Missionaries' Meeting at Sacred Heart Sunday.

The mission at the Sacred Heart church conducted by two Passionist missionaries is being nightly attended by large audiences and there are rarely vacant seats in the church. Rev. Indore Dwyer, C. P., and Rev. Adalbert Clemens, C. P., are in charge of the mission, and both are earnest and convincing speakers. The last has been the women's week of the mission, and it comes to a close Sunday afternoon at 3, when the papal blessing will be given.

Sunday night at 7:45 the men's mission begins, with a special sermon. A sermon of address will be given every night in the week thereafter.

WONDERFUL LITTLE LIVES

New Book Published by Miss Julia Schwartz, One of Omaha's Authoresses.

Another clever book has recently come from the pen of Miss Julia Schwartz of Omaha. "Wonderful Little Lives" is its title and like several that have preceded it, it is written for children and deals with animal life. This time Miss Schwartz has chosen the insects, their habits and their lives affording the subject for the collection of ten short stories that make up the volume.

Some of Miss Schwartz's previous books have sold through several editions and her animal stories have been placed in many schools as supplementary reading. The stories of her new volume are charmingly and faithfully told and have met with recognition from book reviewers that promises success equal to those that have preceded them.

REV. PAUL TALBOT MOVES

"Golfing Parson," Well Known in Omaha, Goes from Kansas to Missouri Church.

Rev. Paul Talbot, rector of the Episcopal church at Hutchinson, well known in Omaha, has resigned to take a church in Missouri. His charge at Hutchinson will be filled by Rev. Clarence S. Sargent, for eight years pastor of the Plymouth Congregational church at Wichita, Kan., who has left that seat to take up the work of the Anglican church.

Rev. Paul Talbot gained a large acquaintance in Omaha through his participation in the golf tournaments here. He took part in the Transmississippi tourney in Omaha. His playing gained for him the friendly appellation of "the golfing parson."

HOW I TOOK MY WRINKLES OUT

After Facial Massage, Creams and Beauty Doctors Had Failed.

BY HARRIET META.

Trouble, worry and ill-health brought me deep lines and wrinkles. I realized that they not only greatly marred my appearance and made me look much older, but that they would greatly interfere with my success, because a woman's success, either socially or financially, depends very largely on her appearance. The homeliest woman, with deep lines and furrows in her face, must fight an unequal battle with her younger and better looking sister.

I therefore bought various brands of cold cream and used them, and managed my face with most constant regularity, hoping to regain my former appearance. But the wrinkles simply would not go. On the contrary, they seemed to get deeper. Next I went to a beauty specialist, who told me she could easily rid me of my wrinkles. I paid my money and took the treatment. Sometimes I thought they got less, but after spending all the money I could afford for such treatment I found I still had my wrinkles. So I gave up in despair and concluded I must carry them to my grave. One day a friend of mine who was versed in chemistry made a suggestion, and this gave me a new idea. I immediately went to work making experiments and studying everything I could get hold of on the subject. After several long months of almost numberless trials and discouragements I finally discovered a process which produced most astonishing results on my wrinkles in a single night. I was delighted beyond expression. I tried my treatment again, and, lo! behold my wrinkles were practically gone. A third treatment—three nights in all—and I had no wrinkles and my face was as smooth as ever. I next offered my treatment to some of my immediate friends, who used it with surprising results, and I have now decided to offer it to the public. Miss Gladys Desmond of Pittsburg, Pa., writes that it made her wrinkles disappear in one night.

Mrs. M. W. Graves, of Bridgeport, Conn., states: "There is not a wrinkle left on my face. I am 31 years of age. I consider your treatment a godsend to womankind." Mrs. James Bars, of Centerville, S. D., writes: "The change is so great that it seems more a work of magic."

I will send full particulars to anyone who is interested absolutely free of charge. Use no cream, facial massage, face steaming or so-called skin foods. There is nothing to inject and nothing to injure the skin. It is an entirely new discovery of my own and so simple that you can use it without the knowledge of your most intimate friends. You apply the treatment at night and go to bed in the morning, lo! the wonderful transformation. People often write me: "It sounds too good to be true." Well, the test will tell. If interested in my discovery please address Harriet Meta, Suite 185 B, Syracuse, N. Y., and I will send you full particulars.
