Professional Operators Believe that Financial Powers Have Ordered Period of Quietude—Bonds are Irregular.

NEW YORK, Nov. 9.—Dealings in stocks diminished significantly today as the accompaniment of continued high rates for call loans in the money market.

There was no evidence of the heavily continued operations for the purpose of churning the market into activity, which has been a feature of stock market dealings for many weeks.

It is the contention of the professional operators that a period of quietude is being ordered by the financial powers.

The continued demand for foreign exchange here kept alive the supposition that additional gold shipments would be announced in view of the slender portions of the bank surplus reserve which are being used.
