Bee Want Acs are Business Booster

# Picture of Health After Whooping Cough

Mr. A. B. Tilabaugh, of Chesterton, Ind., says his liitle daughter's lungs were left very weak after a severe attack of whooping cough. For years they tried various remedies without good results; finally, when the case seemed almost hopeless they tried Duffy's Pure Malt Whiskey with marvelous success.

Mr. Tillapaugh writes: "My little daughter, who is now 7 years old, at the age of 7 months had a severe attack of whooping cough, which left her lungs in a very weakened condition. She grew worse in spite of all we could do. Different doctors prescribed for her, but without effect. We dragged along this way for nearly six years, almost helpless but not conquered.

"A friend advised Duffy's Malt Whiskey and I procured a bottle. That was about five mouths ago. The first dose seemed to help her, and she is now at school and I think about cured. Thank God, my little girl is now the picture of health." The little sufferers from whooping

cough, messles and the other diseases incident to childhood often become physical wrecks from the severity of the attacks and yield to other diseases vastly more fatal. Want of nutrition

from impaired digestion is usually the cause, but the kidneys, the lungs and air passages may be affected, and this too often leads to serious complications. What the little sufferers need, as in the case of Mr. Tillapaugh's daughter, is a remedy that will prove a food and a medicine at the same time. Duffy's Pure Malt Whiskey is this remedy in perfection. It excites the proper digestion and assimilation of the food by its influence upon the salivary glands of the mouth and the gastric glands of the stomach; without requiring digestion, it is burned or oxidized within the body, and, like other foods, produces heat and energy. By its tonic and soothing influence upon the physical and mental forces it calms nervous irritability and gives tone and vigor to the body.

as a tonic and stimulant is one of the greatest strength-givers known to science. It aids in destroying disease and by its building and healing properties assists in restoring tissues in a gradual, healthy, natural manner. It is a wonderful remedy in the treatment and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, maiaria, lowfever, stomach troubles and all wasting, weakened conditions, if taken in time.

If in need of advice, write Medical Department, Duffy Malt Whiskey Company, Rochester, New York, stating your case fully. Our doctor will send you advice free, together with a handsome Illustrated medical booklet, containing some of the many thousands of gratifying letters received from men and women is all walks of life both old and young, who have been cured and benefited by the use of this great medicine. It is sold by druggists, grocers and dealers or direct \$1.00 per large bottle
