of Bright's Disease.

NEW YORK, Nov. 15.—Dan A. Stewart, one of the best known sporting men in the country, died at his home here today of Bright's disease and heart failure. Born fifty-two years ago in Vermont, he made his name in the west. While in Dalias, Tex., he sought to secure permission for the Corbett-Fitzsimmons fight and carried his arrangement so far that Gyvernor Cubertson called a special seasion of the icg islature to prohibit prize fighting in the state. Later he secured permission from the Nevada legislature to hold fights in that state, and as a result of his efforts the battle was finally brought about in Carson City on March 17, 187.

HOT SPRINGS, Ark, Nov. 14.—It is said that the death of Dan A. Stewart will prove a death blow to racing here. He and "Blind John" Conden of Cheighower of the grant owned the Oakiawn race track, and he has been the principal backer of the effort to repeal the anti-racing law in this state.

"Omaha sportsmen made a great move when they seined Carter lake and took out the carp and buffalo," said W. J. O'Brien, fish commissioner, who was at the Merchants Monday. "Those carp are bad to have around, as they live off the spawn of the game fish and thus keep back their increase about as fast as we can plant them. It gives us encouragement to do something for the people of Omaha when they show a desire at all times to do the right thing."

College Abandons Foot Ball. BALTIMORE, Nov. 15.—Action was taken by the faculty of Loyola college today cancelling the remainder of the games scheduled for the foot ball team this year. The action was the result of an accident in the game Saturday between the Georgetown college and the University of Virginia teams, when one of the players of the latter team was killed.

There is but one way to cure an old sore or chronic ulcer, and that is to remove the cause that produces and keeps it open. No matter where located, any sore that remains until it becomes chronic does so because of inpure blood; the circulation constantly discharges its polluted matter into the place and it is impossible for nature to heat the zore. S. S. S. heats sores and ulcers by purifying the blood. It removes every trace of taint or impurity from the circulation, and thus completely does away with the cause. No local application reaches below the infected flesh at the spot. and for this reason can have no curative effect on a sore or ulcer; whill such treatment is being used alone, the germs and impurities are constantly increasing in the blood and the sore is bound to grow worse. When S.S.S. has cleaned the blood and enriched and purified the circulation the place begins to take on a more healthy appearance, the different symptoms show improvement, the flesh around the ulcer gets firm, new skin and tissues are formed, and aided by pure, rich blood, nature provides a perfect and lasting cure. Under the tonic and blood-purifying effects of S.S.S., the system is built up, and those whose health has been impaired by the drand worry of an old sore will be greatly penefited by its uso.
