TWOCITIES AFTER CORNSHOW Father Schell

Cincinnati and Toledo Write to Commercial Club to Know How.

OMAHA NOT AFRAID OF LOSING IT

Gate City in Center of Corn Belt and Can Bent the Swamptowns of Ohio Without Much Trouble.

Cincinnati and Taledo are both after the National Corn exposition and want to have the honor of holding it next year. Aroused by the great success of the Omaha show and the advantages which accrue to a city in having it held, both these Quie cities Commercial club of Omaha to find out how ment place of holding the shew is decided and they have been referred to President Funk of the National Corn ex-

Omaha business men are not much afraid map for corn raisers. Omaha business men Dinshelm, Elsass, Germany. have also done the right thing by the show and last year spent their money without

tint to make the show a success. Delegations are being organized all over the country to attend the Corn exposition. The Chicago Board of Frade has arranged to come in two special cars and has wired the Corn show directors to that effect.

General Passenger Traffic Manager Kniskern of the Northwestern has been most active in getting up several organica tions to attend, the show. Other railroad men have been prominent in working up a crowd to attend the show. Kansas City has arranged for two special cars of grain men and St. Joseph will send one. Louis is also working up a large delegation to attend the show.

GETS THE WRONG SUIT CASE

Woman and Man Accidentally Take Fach Other's Valise of Clothing.

At police headquarters is a suit case full

of man's apparel, the owner of which the police are anxious to locate. Miss Ethel Schnelldacher, 3107 Miami street, returned to Omaha Monday afternoon from a visit out of town. Boarding a Dodge car at Union station, she left her vuit case standing on the rear platform. When she came to look for it at Tenth

and Dodge streets it had disappeared. Miss Schnelldacher notified the police and on the car later they found a suit case full of man's clothes.

PERSONAL PARAGRAPHS

Harry E. Moores, who goes to Chicago o enter the jobbing business, has sold is steamship transportation in Omaha to V. E. Bock of the Milwaultee passenger ffice, who will conduct it in connection ith his other work.

Goes to Rome to Appeal His Case

ary to the Omaha and Winnebago Indians, sailed Tuesday from New York for Rome. where he will take an appeal to the Congregation of the Propaganda in the matter of his difficulty in Oregon with Archbishop Christie. His sailing is announced in a letter' to H. H. Clalborne, deputy in the office of Robert Smith, clerk of district

Rev. Mr. Schell was instrumental in the discovery of the Oregon land frauds for from these two cities have written to the greement with his elerical superior and are not much except at befogging juries, indicted and convicted. He got into disaleft Oregon to come to Omaha, where he became a missionary to the Omahas and Winnebagoes. Here his course was not altogether a peaceful one, for he came under the displeasure of Bishop Scannell and his missionary labors ended. For sometime, of losing the show, for it is acknowledged he writes, he has been in poor health, but that Omaha is in the center of the corn now feeling better, has started for Europe helt and the most accessible city on the to appeal. His European address will be

A heating challenge

The old Winter King is always bluffing and vanquishing some luckless house-owner who still depends on the fickle protection of old-fashioned heating. There is but one way to always get Winter down and counted out, and that is by issuing the scarlet challenge of good heat with

Put one of our heating outfits into your building now (before on nature the cold lays its icy hold), then you

can enjoy the thousand shrieking voices of the north wind as you listen from the vantage ground of your cozily, healthfully, cleanly warmed home, office, or workshop.

ADVANTAGE 10: Burning coal liberates certain gases which burn readily and make intense heat-if they are permitted to "take fire." The chambers (and the flues opening out of these spaces) are so arranged in IDEAL Boilers that they bring in the exact amount of air required for completely burning these gases as fast as freed from the coal. There can be no "undigested" coal-every ounce of fuel is made to yield its utmost heat-none of its heat-

making power is wasted up the chimney.

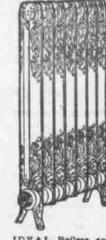

38-in, AMERICAN Radiators, costing the owner \$145, were used to Hot-Water heat this cottage.

Don't delay investigating this well-paying permanent investment with its marked fuel, labor, and repair savings, besides the greater comfort, health protection, cleanliness, safety, and durability. Prices are now most favorable.

> Write to-day for free valuable book, telling how to save heating dollars and the way to save buildings from emptiness and decay.
