No. 1 Hams..... **12c**  
No. 1 Lean Bacon..... **17 1/2c**  
No. 1 Bacon Pork..... **15 1/2c**

## Try HAYDEN'S First Howe Ventilator

Largest Base Burner in the world. It is a third larger than the largest of any other make. It is made in six parts so that one man can handle it. It has the heating power of a furnace and will heat an eight room house up and down stairs and keep it warm day and night with half the coal a furnace will take. It will take thirty per cent less coal to heat the same amount of room than any other Base Burner will take. It is distinctly in a class by itself. The immense size is not the feature of the stove. The feature of the stove is the way it distributes heat over the house and the amount of heat it produces with the amount of coal it takes. What a Base Burner will do is what the people are interested in. What the Howe Ventilator does is what is making it so popular.  
Mrs. Charlton, 2517 Parker says: "The Howe does all you claim for it."  
Mrs. Holmstedt, 4324 L Street, South Omaha, says: "Our house is warm every morning and that up and down stairs. You exaggerate nothing in your claim for the stove."  
We cut the price for cash or sell on small monthly payments.

# THE STOETZEL STOVE CO.

714 South Sixteenth Street

## Take a Tumble

Our prices have, and we'd like you to take a tumble to the fact that just now we are holding the greatest half-price sale on jewelry, silverware and cut glass ever seen in Omaha. Just look at these prices:
