THERE IS NO CURE FOR PARALYSIS

That's What the Doctors Said in Their Convention
THOSE DOCTORS WERE WRONG

United Doctors Say Nothing, But Go On Curing Patients.
A great flurry was caused among the doctors about a year ago when mention was made of several cases of paralysis that had been cured by the United Doctors who have their Omaha Institute on the 1d floor of the Neville block, corner 14th and Harvard.

Dear Doctors:
As one good turn deserves another, I am certainly willing to reciprocate and write to thank you for what you have done for me. About three years ago I had a stroke of paralysis affecting my left side and have been treated by the best physicians in Omaha and elsewhere without any satisfactory results.

My business previous to my paralysis was a collector and solicitor, but I have not worked much the last year, but feel now that I am able to get around as good as ever, and judging from the present improvements, expect a complete recovery.
