being an embellisher of funds, amounting to \$150 in Sioux City, which had been raised by popular subscription for paying the funeral expenses of a fellow laborer of an ice company, Tom Jones, who lives on Inland near Eighteenth street, was arrested here yesterday on information that has been received from Sioux City. He will be held for the Sioux City officers. Jones was employed as a driver of an ice wagon in Sioux City during the summer and it was during this time that he is alleged to have run away with the money. Sneak Thieves Are Busy—Several cases of sneak thieves have been reported, at police headquarters, adjoining houses in one instance being plundered at about the same time, both during the absence of members of the family. The residence of Charles Sears, 1430 South Sixteenth street, was first entered according to reports received at the station, ransacked and about \$3 stolen. Next door, at 1432, the home of Mrs. Foster was entered and about \$25 in money stolen. It was also reported at headquarters that sneak thieves had entered the Parkside hotel at Florence, entered several rooms and stolen watches, shirts and clothing.

SCHOOL AND COLLEGE WORK

Summing Up of the Week's Activities in Educational Institutions.

PROGRESS ALONG ALL LINES

Suggestions for Improvements in Health and Industrial Training and Criticisms of Existing Methods.

Prof. A. A. Reed inspected the high schools at Pawnee City, Tecumseh and several places in southeastern Nebraska last week and reports good interest and good work. Assistant Inspector Voss has just returned from a two weeks' tour of high school inspection along the line of the Northwestern railway, visiting Hooper, Scribner, Beemer, Battle Creek, Alnsworth, Ashland, Ewing, Oskaloa, Meadow Grove and Pilger. Prof. Voss speaks in the highest praise of the work done in all of these schools. Dean Charles Fordyce of the teachers' college is in great demand as a lecturer. November 18 he addressed the Kearney County Teachers' association at Minden on "The Fountain of Immortal Youth." Sunday afternoon, November 14, he addressed a men's mass meeting at Omaha, taking for his subject "The Responsibility of Father and Son." Sunday afternoon, November 14, he addressed a boys' mass meeting at Omaha, speaking on "The Golden Hours of Youth." Monday, November 22, he will lecture before the pupils of the Council Bluffs High school and of the evening of the same date will address the brotherhood of the Presbyterian church there. At Denver on December 4 he will give an illustrated lecture on "Fidelity," and on December 6 he will also lecture in Denver on "The Forces that Determine Destiny."

Fehlman of Fairbury, Joseph Goldstein of Dawson, Martha Ghiner of Madison, Edison Pettit of Peru, Ira Crook of Salem, I. B. Barnes of Peru, W. H. Blackstone of Pilger, Belle Bolejack of Humboldt, Neva M. Best of Homer, Carrie C. Hansen of Homer, Winifred Perkins of Mullen, Mabel Gustafson of Ainsworth, C. J. Skinner of Peru. The Normalte publishing company has held a cartoon contest to get cartoons for the Normalite, the school publication. I. B. Barnes won first prize. Mr. Barnes is a prominent student and a well known foot ball player in the normal.

The normal library has received a gift of a very rare and valuable volume of a history of Great Britain, which was published in 1824. It is the most valuable addition of its kind ever made to the library and is invaluable to the history department.

The Greek Parliamentary Law club at a recent meeting elected the following officers: President, Winifred Perkins of Mullen; vice president, Mabel Gustafson of Ainsworth; secretary, Harry Johnson of Oakland; treasurer, Joy E. Morgan of Upland; sergeant-at-arms, George E. Campbell of Oseola.

The sophomore class at its last meeting elected the following officers: President, F. H. Hurst; vice president, Archie Dorsey; secretary, Eugenia O'Mara; treasurer, George Blackstone; Normalite reporter, Edna Sharp.

The training class at a recent meeting elected officers as follows: President, Louise Seeliger; vice president, Edna Sage; secretary, Ruth Ferrell; treasurer, Ruby Becker.

The biological seminar met Monday evening and listened to a lecture by Prof. H. B. Duncanson on the subject, "Recent Successes Attained in Projecting Living Matter on the Canvas by Means of the Stereopticon." The talk was elaborately and finely illustrated and was one of the best of its kind ever given at the normal.

The department of expression has just had a splendid picture, named "Windstreaks," placed on the walls of one of its rooms. This picture is said by art critics to be one of the best marine scenes ever painted and has been placed in a number of colleges.

Mrs. Daisy D. Nettleton, head of the department of expression in the normal, has been offered a position in the Columbia College of Oratory. Columbia is considered the greatest college of expression in the country.

KEARNEY NORMAL NEWS NOTES
School Sends League Delegation. Y. W. C. A. Convention. On Wednesday afternoon the young women who attended the state convention of the Young Women's Christian association at Hastings, November 12 to 14, gave a most interesting and enthusiastic report. The association is proud of the fact that Miss Alma Hoic of the department of German presided at the Hastings convention.

Anthony Easterling, a former student at the normal called at the school Thursday. Mr. Easterling has just returned from Seattle, where he was employed by the managers of the Alaska-Yukon exposition.

The German club held a very interesting meeting on Wednesday evening. Miss Cook read a story and Mr. Doyke gave a very entertaining account of his recent trip to the Pacific coast and through picturesque Colorado. The club had a party on Saturday evening, November 20, at the home of Miss Host.

Miss Florence Parmelee, state secretary of the Young Women's Christian association, was a visitor at the normal, Friday and Saturday, meeting with the various clubs of the association Friday afternoon and evening.

Chancellor Samuel Avery of the University of Nebraska is expected to visit the normal Tuesday and Wednesday, November 23 and 24. The chancellor will address the faculty at his monthly meeting at the home of President Thomas on Tuesday evening. Wednesday morning he will speak at the chapel.

John E. Gunckel, president of the Normal school in company with the Board of Education on its inspection tour last Thursday.

Miss Sara L. Garrett, registrar, gave an interesting talk to the young women's culture club at the dormitory last Thursday evening. The club meets once a week under the direction of Mrs. Brintley, preceptor. Their meetings are always interesting.

Mr. and Mrs. John Saunders of the board department were made happy Friday by the arrival of a son and heir.

The foot ball game between the Baptist college at Grand Island and the normal was played on Saturday on account of the heavy snowfall. It will be played after Thanksgiving.

The normal will have its usual Thanksgiving vacation.

MANUAL TRAINING CRITICISED.
Teachers Pronounce System in Chicago Schools Useless. Manual training and industrial education, as taught in the public schools of Chicago at present, have no definite aim, and there is nothing to show for them when a child has completed his course, according to principals of several Chicago schools, who

This Shows How Big is Nebraska

Witness from Sioux County Gets More Mileage Than One from Northern Indiana.

The greatness of the territorial area of Nebraska was recently illustrated in the office of the United States marshal at Omaha in awarding mileage to a witness summoned from Sioux county before the federal grand jury in Northern Indiana was summoned in the same case. The Nebraska witness was awarded twenty-two miles more mileage than the Indiana man, although both of them were granted mileage over the most direct routes to their homes. The government does not allow mileage by roundabout ways. It must be direct and by the shortest traveled routes. The Indiana distance was 802 miles and the Sioux county distance 524 miles.

GOVERNOR SHAFROTH IS WON BY MAIZE MERMAID

Colorado's Chief Executive Makes an Additional Appropriation and Will Come Himself.

Governor John F. Shafroth, "Honorary John," has surrounded his heart and soul interest in the National Corn association, and has approved an additional appropriation, said to amount to \$500, and has appointed a special commission to boost Colorado at the Corn exposition, which will continue a permanent organization. The governor has invited the board to visit the state on his visit in Omaha.

George H. Stevenson, assistant secretary of the National Corn association, has just returned from Denver, where he was in consultation with the governor. W. H. Olin of Colorado, vice president of the Colorado department, and Fred P. Johnson, nephew of Senator "Tom" Patterson, were also present at the conference.

Governor Shafroth at first hesitated to increase the allowance for the Colorado exhibit and to appoint the commission to expound irrigation and boost the state in Omaha. Late in the afternoon, however, he announced by telephone that he would appoint the following committee to represent the state: Former Governor Alva Adams of Pueblo, C. B. Dodge of Denver and John Brisbane Walker of Morrison.

A Bloody Afterlife.
Is lung hemorrhage. Stop it, and cure weak lungs, coughs and colds with Dr. King's New Discovery. 50c and \$1.00. For sale by Beaton Drug Co.

ECHOES OF THE ANTE-ROOM
Captain Andy Trainor Relates His Capture and Escape During the Civil War.

A largely attended and interesting meeting of Grant post No. 110 was held at the hall of the post last night. Captain Andy Trainor related his capture and escape during the civil war, and his subsequent career as a soldier. He told of the award of two medals of honor that had been bestowed on him by congress for services rendered the government in his capacity as a soldier, and of which he was justly proud.

Ladies of the Grand Army.
Department President Mrs. Clara Lyons went to Lincoln Friday to make the annual inspection of the Lincoln circle. Garland circle No. 11 will entertain its members at a social gathering, with high party and refreshments Friday evening. The annual election of officers of this circle will take place Friday evening, December 10.

Woodmen of the World.
Twenty-four camps will take part in the big Woodmen gathering under the auspices of Benson camp No. 23 Saturday afternoon and evening at the Normal.

Order of Scottish Clans.
Clan Gordon No. 21 enjoyed a good meeting Tuesday evening with a high attendance. Arrangements were completed for the formal celebration of St. Andrew's festival, November 30, at the Normal. Officers were elected for the meeting on December 7.

Fraternal Order of America.
Banner lodge No. 11 will entertain its members and friends with a dance Thursday evening at the Normal.

Odd Fellows.
Benson lodge No. 21 will confer the second degree on one candidate of its own tomorrow evening, and also on one from the lodge at Bennington.

Omaha lodge No. 2 had four candidates for the first degree Friday evening. The meeting on that occasion was in the nature of a celebration of the fifty-fourth anniversary of the granting of its charter. The charter was granted by the sovereign grand lodge November 19, 1855, and is thus the oldest charter of a lodge having a continuous existence of any fraternal organization in Nebraska.

The first charter was granted by the state of Nebraska to the Normal lodge No. 2, which was organized in 1858. That lodge was in existence over two years at that time. The charter was granted to William Ellison, most worthy grand sire, and the charter members were Alfred D. Jones, A. B. Bishop, Taylor G. Goodwill, H. B. Johnson and George Armstrong.

State lodge No. 10 will have a candidate for the third degree tomorrow evening and refreshments will be served.

Danneberg lodge No. 218 will have two candidates for the third degree next Friday.

Benson lodge No. 21 will have its initiatory degree Tuesday evening.

The regular meeting last night and the Golden Rule degree was conferred.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to INSIST upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath.

For the cure of woman's peculiar weaknesses and derangements, giving rise to frequent headache, backache, dragging-down pain or distress and kindred symptoms of frequent Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Favorite Prescription." The dishonest dealer sometimes insists that he knows what the proffered substitute is made of, but you don't and it is decidedly for your interest that you should know what you are taking into your stomach and system expecting it to act as a curative. To him its only a difference of profit. Therefore, insist on having Dr. Pierce's Favorite Prescription.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages cloth-bound. Address Dr. Pierce as above

baths and toilets and the seating arrangements with reference to the size of the pupils. In addition to these general inspections, all children entering school must be individually examined three times during the first year. The first examination must take place with the beginning of the school year and be completed by the end of September. This examination is for the purpose of establishing that they are fit for school work and can do the work without injury either to their mental or physical well-being. The second of these examinations is made between the new year and Easter. This calls for a thorough physical examination, each child being required to strip. In each such examination the parents of the child are invited to be present at the examination. The third examination is made during the summer holidays, and the eyes and ears are the special points upon which it is made.

SANGERFEST IS ORGANIZING

German Singers are Getting Their Chorus Together for Big Festival Next Summer. The Omaha Sangerfest association is already actively engaged in organizing the mass choruses which will render the musical program for the big reception concert of the National Sangerfest to be held in Omaha on July 20 to 24 of next year. These choruses will be under the leadership of Prof. T. Rud Reese, experienced conductor and choirmaster, who recently arrived here to take up his residence. A male chorus has begun its work and the more difficult task of organizing the women's and mixed choruses is under way. The National Sangerfest will be the greatest musical event ever held in this part of the west.

If you desire a clear complexion take Foley's Ointment for constipation and other troubles, as it will stimulate the organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. Sold by all druggists.

UNIVERSITY OF WISCONSIN. Statistics of Enrollment from the New Directory.

That 2,465 students are now in attendance at the University of Wisconsin, exclusive of those who have just entered the dairy course, is shown by the new university directory now in the hands of the faculty. The enrollment over the number enrolled at the same time last year. The real gain this year is over 380, or more than 18 per cent, because last year 114 academic students in music were included in the list who are now excluded entirely from the school of music by the higher standard of admission.

The largest gain in numbers is in the college of letters and science, which has grown from 1,538 to 2,159, an increase of 221, or over 15 per cent. This gain is due to rapid expansion of attendance in the college of letters and science than for a number of years, as the average rate of increase has been about 10 per cent.

The college of agriculture again shows a big growth this year, 225 students being registered in the regular courses as against 238 last year, which is a gain of 104, or just 50 per cent. Of the 225 students in the college of agriculture, 22 are graduates, 203 are in the regular course, and 88 in the two-year middle course. Just 100 freshmen enrolled in the four-year course in agriculture.

In the college of medicine 24 students are enrolled, an increase of 19 over last year, or 40 per cent. Of these 19 are registered for second year work and 31 for first year. The course in pharmacy has 37 students this year, the same number as last.

The program for the first Wisconsin conference on criminal law, called at the instance of the extension division of the University of Wisconsin and a committee on organization for November 30 and 27, at the university, has just been announced. The subjects for discussion will be the basis of criminal law, as directed against the administration of criminal justice, and the possibilities of improving it.

Several hundred citizens of the state will take part in the discussion, including the judges of the supreme court, circuit judges, prosecuting attorneys, heads of state penal institutions, as well as the probation officers, lawyers, social workers, alienists, physicians, clergymen and educators.

HEALTH IN THE SCHOOLS. Move for Medical Inspection and Supervision. The United States Public Health and Marine Hospital service, which in reality is the Federal Board of Health, is conducting a campaign of medical inspection and supervision of schools. It is acting merely in an advisory capacity, for it has no authority to compel states or municipalities to adopt and enforce inspection regulations. Only this week it has called the attention of state officials throughout the country to a report by George Nicholas left, consul at Nuremberg, showing what advancement there has been in the German empire in medical inspection of the public schools. It is pointed out that the city of Nuremberg, with a population of 20,000, employs fifteen school physicians who have the medical supervision of about 42,000 school children, distributed throughout the city in about seventy school buildings and subdivided into about 85 classes. According to the medical report for last year each school physician had under his supervision an average of fifty-five classes with 2,746 pupils. These figures do not include the kindergarten and the kindergartens, which also come under the control of the school physicians and which for the year increased the total by 3,505 children.

The pay of school physicians in Nuremberg averages about \$120 a year, averaging about \$120. The average annual expenditure of the city for this purpose is thus about \$250,000. The pay is regulated by the number of classes inspected, \$7.14 being allowed for each infant class inspected and \$14.50 for higher classes.

The duties of school physicians in Nuremberg are set forth in great detail in the order providing therefor. They must visit the school buildings in their district three times each year at approximately stated periods, and investigate all the matters of heating, lighting and ventilation, cleanliness, arrangements of gymnastics,

"She Uses Lenox Soap" THAT IS PRETTY GOOD EVIDENCE of a woman's qualifications as a housekeeper.

IT SHOWS that she knows values—that she gets the worth of her money.

FOR IT IS A FACT that Lenox Soap is the best of cheap laundry soaps, the cheapest of good laundry soaps.

BUT IT IS NOT SO CHEAP as to be unsatisfactory, nor yet so high-priced as to be beyond the reach of the woman who has to make every penny count.

It is cheap AND good, good AND cheap. Lenox Soap—Just fits the hand
