ing on the Bulge Checks the Advance and Further Selling Causes Sharp Break.

Wheat was active and strong at the opening on higher Liverpool cables. Shorts were nervous, but profit-taking on the bulge checked advance and further selling caused a sharp break, especially in the December option. Resting orders stopped the decline and a firmer tone was evident laker in the day.

Corn receipts, while still light, are sufficient for the pressent demand and a better movement is expected with colder weather conditions.

Wheat was steady and firm at the start, but broke sharply on heavy selling and offerings by longs. Cash wheat was slow eals at the lower than Wednesday. Local Market Also Rises on Favorable Reports Affecting Industrial and Railroad Companies-Bonds Are Strong.

NEW YORK, Nov. 25.—The opportunity for contemplation afforded by the Thanke-giving holiday seemed to have resulted in an almost entire disappearance of apprehension over the Standard Oil decision, which has been an unsettling influence in the stock market throughout the present week. Prices of Americans had been lifted smartly in the London market in the interval and New York accepted the altered appraisement at the outset and added something to the gains in the course of the day's transactions.

Renewed weakness in New York Central made one interruption in the advance. Pennsylvania showed some sympathy as being similarly situated in the prospect of addition to share capital. Importance is attached to this kind of manifestation, owing to the large new capital requirements that are to be met shortly. The estimates of the week's currency movement show a decided reflux of funds from the interior to New York, with the from the interior to New York, with the waning of the crop movement, which is one of the first signs of relaxation of the money market. The demands of the subtreasury and the shipments of gold to South America have to be reckoned with in computing the net effect on bank reserves, which promises for that reason to be small. The strong exhibit made by the Bank of England was a reassuring factor in the market, although the retention of the official discount rate is read as an expression of continued distrust of the political outlook as shaped by the budget controversy. Other buyers. CATTLE-While there were ningty-six cars of cattle reported in this morning, twenty-six of them were direct to packers and not offered for sale. In other words, there were only about seventy cars of cattle on the market, which was hardly enough to make a good test of values. Good fat steers, both rangers and cornfeds, were in very fair demand and sold very freely at prices that were strong to life higher. Common and trashy grades were a little slow, the same as they have been every day of late.

Cows and heifers moved off quite freely at about steady prices with Wednesday. Totals ...... 2,944 4,373 5,601

HOGS—No one on the selling alde could ask for a better hog market than prevailed this morning. Although receipts were liberal the demand was so good that offerings changed hands with a fair amount of rapidity at prices that were a good is higher. Buyers in fact claimed that taking quality into consideration it was more than is higher. A large proportion of the hogs sold at \$5.0928.5, with the best heavy hogs up as high as \$8.0 Light and light mixed hogs sold from \$8.00 down, depending upon the weight and quality. Among the offerings were quite a number of high mixed loads running from heavy hogs down to very light pigs flogs of this description.

1774 while selling very high as compared with eastern markets, pevertheless tend to bring down the average.

Today's advance carries the market to the highest point touched since September.

SHEEP-Receipts of sheep

SHEEP-Receipts of sheep were very moderate this morning, only twenty-eight cars being reported in. Of this number about one-half was from the range and the other half from the feed lots. To put it another way, about one-half of the arrivals consisted of killers and the remainder of feeders. Packers appeared to be quite anxious for
