JUDGMENTS

It is a common belief that a judge is a man who sits on a bench and listens to the arguments of lawyers and then decides what is right and what is wrong. But in fact, a judge is a man who sits on a bench and listens to the arguments of lawyers and then decides what is right and what is wrong.

MICHIGAN IS TURNING BACK

Corrective Faculty Team Work Was the Main Factor in the Cross-Country Victory—Rugby Team in Cross Field.

Those who look to it falls to review the intercollegiate cross-country race in the east and west. It is a common belief that a judge is a man who sits on a bench and listens to the arguments of lawyers and then decides what is right and what is wrong.

This year there is no second game near applying this year, but almost ever before. Cornell's winning total of 22 points was the lowest that the team could have made.

Yet such an assertion in no way detracts from the brilliant work of Captain Young and his team. Their victory was the result of hard, consistent effort of unselfish team work and of confidence in each other and in their coach.

When Young was even further back, but it wasn't because the winner of the 1908 race couldn't have been better placed. It was because he was coaching along the other Cornellians, Brown and Fleming, who ran sixth and eighth at the end.

Whether he could have beaten T. Berna and Tappan is of course a question, but it is certain he gave himself no chance to do it, by hanging back and coaching the other along, running rather for his team than for himself.

COLUMBIA'S OPEN AIR GYM

Classes on South Field for All Students Instead of Indoors.

WANTS ADEQUATE PLAYGROUND

First Trial of the Outdoor Work Regarded as Successful, but a Great Difficulty is the Lack of Supervisors.

The outdoor work which the Columbia gymnasium classes did on South Field for the first time last week was regarded as successful. It is not more than a quarter of the room in that enclosure which is needed and furthermore that there should be more men employed qualified to help out the inexperienced exercisers.

It is reported from the Pacific coast that a combined Rugby team from Oxford and Cambridge may make a trip very soon to California to meet the teams there. The California Rugby union has the affair in hand now and is attempting to make arrangements to bring about such a meeting.

For instance, the work required an hour from each man twice a week. Although the season for dressing and getting into the gymnasium over to the field and some time for leaving it afterward the students got in about forty minutes or perhaps forty-five minutes.

The classes were large and divided into groups. At one and the same time the field had on it small squads putting the shot, hurdling, broad jumping, sprinting and throwing the discus, for instance.

At a meeting held this week the University of Iowa board in control of athletics approved the action taken at Des Moines. Through local sentiment among the students favors the training table the stand must necessarily be against it, for such is the decree of the Big Eight.

Board of Control Approves Action Taken by Conference—Gloomy Outlook at Iowa City.
