his wife."

Overcoats at \$20

How can we offer you more in Clothing than our competitors for the same money?

Because we are manufacturing retailers and our retail stores are the direct outlets for our wholesale merchandise. They are conducted for your convenience and to pay, not a retail profit, but a wholesale profit only. The Ordinary Retailer has to add his percentage to the wholesale cost for his retail profit. We don't.

Why does our merchandies lead in style?

Because our retail stores are all in the larger cities where style is absolutely demanded. The great majority of our competitors - the wholesalers-sell their clothing in small country towns where style and fit are not always considered so essential

Why do we know we make the best \$20.00 Overcoats in this country?

Because all of our garments are made under one roof, in our own factory and by the same hands; we sell more Overcoats at \$40.00 than we do at \$20.00. The workmanship is the same on both, and the difference is a matter of fabrics.

And yet we guarantee all our fabrics. Do your Christmas shopping NOW.
