### Marshall May Be Out for President

Senator Dewey Suggests Reason Indiana Governor Wants Change in Inauguration Day.

WASHINGTON, Dec. 18.—Governor Marshall of Indiana was launched informally today as a candidate for the presidential nomination in 1912. His name was brought forward in a hearing before the senate committee on privileges and elections on a resolution proposing a change in the day of inauguration of president from March 4 to the last Thursday in April.

President McFarland of the District of Columbia commission was reading from messages of governors of states advocating the proposed change. Speaking of the inclement weather of March 4 (last Governor Marshall's letter said: "Perhaps that condition was not entirely an unkind evil, for it may have inspired some timid soul not to be a candidate for the presidency.")

Commenting on the expression, Mr. McFarland said that nevertheless Governor Marshall was in favor of it.

"And also a candidate," interpolated Senator Dewey.

"He is not a timid soul," hurriedly interjected Senator Fletcher.

### Move to Help Panama Bonds

Secretary MacVeagh Eliminates City, State and Railroad Securities from Accepted List.

WASHINGTON, Dec. 18.—Ostensibly for the purpose of strengthening the price of Panama 2 per cent bonds, which for some time have been hovering around par, Secretary MacVeagh today issued an order eliminating state, city and railroad bonds from the list of securities which may be accepted for the deposits of public moneys in national bank depositories.

There are now held by the government \$10,021,500 of these classes of bonds as security for such deposits and the expectation of the treasury officials is that they will be promptly replaced by other bonds, as it is not the intention of the treasury to reduce the amount of money in national bank depositories.

The theory is by this change the Panama bonds will be more attractive to the banks as investments and that in turn will find their way into the treasury as security for deposits.

Des Moines Superintendent of Police Puts Quiet on Practice Becoming Common.

(From a Staff Correspondent.)

DES MOINES, Dec. 18.—(Special Telegram.)—The superintendent of police has put a "lid" on raffling boxes of candy in the drug stores, a practice that has become common and about which there has been much complaint. He has decreed that after Monday all the raffles shall be closed out and no more will be allowed, as he holds they are a violation of lottery laws of the state.

The state army board today fixed the rentals to be paid by the state for the various armories in use by the guard companies of the state, and the total amount for each year is over \$20,000. The last legislature raised the amount which could be paid for armory rents and this gives the companies a large fund for the purpose.

The continued cold is unusual for the first twenty days of December, and particularly in the continuance of the snow on the ground, there being little or no thawing weather.
