About Buying a Watch

Don't buy a watch from a catalogue of a mail order house-you will be disappointed if you do. Go to a jeweler; for his own reputation, if nothing else, he will see that the watch you buy has been put in thorough order, properly oiled, regulated, and is running right. Everyone knows that Waltham Watches are as accurate timekeepers as it is possible to make, and yet there are a hundred accidents that may happen to a perfect watch after it leaves our factory. A good watchmaker knows how to remedy such things, and you may be sure he will do it before he takes your money.
