

I. C. A. A. U. S. GROWING FAST

Now Influences Sixty-Four Leading Colleges.

FOURTH ANNUAL MEET TUESDAY

Organization Has Control of a Student Population of Considerably More Than Eighty-Eight Thousand.

NEW YORK, Dec. 25.—The Intercollegiate Athletic Association of the United States, to give in full the impressive title of that organization which by the way has just been joined by Harvard, will meet next Tuesday in this city to consider problems of college athletics.

Curiously enough it is an association of college athletes which controls and prescribes the rules of college football.

Those colleges which are members of the association—and they number now something more than sixty—are not bound to subscribe to any legislation enacted by the Intercollegiate Athletic Association of the United States.

In 1906, as many as twenty colleges were great enemies of the American college game of football, much as there has been this season.

The death of Harold Moore, a backfield player of Union college in a game against New York university in this city, and the action of Columbia in abolishing the game made New York the center of the storm.

The meeting in December, 1905, started out with a hurrah to destroy the American college game.

The fusion with the old rules committee was made and the changes that for so long were called new football were made.

The first annual meeting of the organization in 1905 was not promising.

The big colleges and hung aloof, and there was a sprinkling in the membership of the smaller institutions which made the roll long, but not significant.

The Cornell list includes Holy Cross, a new game for the Ithacans, and Dartmouth appears on the schedule for the first time in some years.

April 25—Georgetown at Washington. April 26—Cornell at Ithaca. April 27—Yale at Cambridge.

April 28—Harvard at Cambridge. May 1—Holy Cross at Worcester. May 2—Yale at Cambridge.

May 3—Princeton at Princeton. May 4—Bates at Cambridge. May 5—Yale at Cambridge.

May 6—Princeton at New York. (Play-off in case of tie.) May 7—Brown at Providence.

May 8—Andover at Andover. May 9—Exeter at Cambridge. May 10—Wesleyan at Cambridge.

May 11—Dartmouth at Cambridge. May 12—Brown at Cambridge. May 13—Yale at Cambridge.

May 14—Yale at Boston or New York. (Play-off in case of tie.) The Cornell list includes Holy Cross, a new game for the Ithacans, and Dartmouth appears on the schedule for the first time in some years.

April 6—Bucknell at Ithaca. April 13—Niagara at Ithaca. April 14—Cornell at Ithaca.

April 15—Holy Cross at Worcester. April 20—Columbia at Ithaca. April 21—Cornell at Ithaca.

April 22—Amherst at Ithaca. May 4—Williams at Ithaca. May 12—Dartmouth at Hanover.

May 13—Amherst at Amherst. May 14—Williams at Elmstowntown. May 15—Oberlin at Ithaca.

May 16—Pennsylvania at Philadelphia. May 17—Wesleyan at Cambridge. May 18—Michigan at Ithaca.

May 19—Pennsylvania at Ithaca. May 20—Pennsylvania at Philadelphia. May 21—Yale at New Haven.

May 22—Yale at Ithaca. Nothing daunted, Captain Pierce and his men kept together and worked steadily away. Literature of all sorts was sent out.

Colleges Now Members. It is interesting to note that the struggle of the I. C. A. A. U. S. has been a struggle for the preservation of the game.

RULE REVISION IN SIGHT

Foot Ball Must Undergo Some Change to Meet Popular Demand.

GAME TO RESEMBLE RUGBY

It is Probable that No Sweeping Revisions Will Be Made, Such as Were Necessary Four Years Ago.

NEW YORK, Dec. 25.—At this time the fate of college football hangs in the balance of uncertainty and until after the committee's meeting, called for December 26, nothing definite can be known as to the extent of rule revision that must inevitably be enacted.

If some articles have their way in the matter of the game of 1910 will more nearly resemble English Rugby than the present American college game.

These men appear to agree, and rightly, that it is not the open game that is to blame for the injuries that have occurred, but merely the rough edges of some of the open game rules.

Consequently the real burden of amending and at the same time protecting the sport falls upon the shoulders of the men who will make the rules for next season.

These men appear to agree, and rightly, that it is not the open game that is to blame for the injuries that have occurred, but merely the rough edges of some of the open game rules.

Consequently the real burden of amending and at the same time protecting the sport falls upon the shoulders of the men who will make the rules for next season.

FRED WELSH CRITICIZES BOXING

Says He Thinks the Game Has Gone Backward in England.

QUEER HAPPY VALLEY DERBY

Making of the Most Curious Race Meet in the World.

AMATEUR SPORT AT HONGKONG Plenty of Fun for Very Little Outlay—Classes of Animals Raced and Strange Methods of Handicapping.

Almost every country in the world where the sport of horse racing has taken root has a race named after the big English classic, America, France, Austria, Russia, Australia, New Zealand and India have their Derbies, but the most curious of all is that held yearly at Hongkong, on what is known as the Happy Valley course.

The course proper is a mile circuit of grass and a smooth as a billiard table. On the inside of this is a specially prepared track of sand and cinders used only for training purposes.

STAKES FOR BRIGHTON RACES

Some Old Stakes Are Renewed and New Ones Added.

YOUNGSTERS WIN AT BILLIARDS

Five Recruits Now Occupy the Center of the Stage.

NEW YORK, Dec. 25.—The lot more doing this season in billiards than has been known for years, and before this class the game may be one of the greatest shaking up in recent history.

The other day Albert Cutler posted his 2500 forfeit and challenged the winner of the Calvin Demaree-Harry Cline match for the 13.2 balkline world's championship, which will be played in Orchestra hall, Chicago, February 1, 2 and 3.

The stakes are in a great measure a revival of the old fixtures of Brighton Beach and the only difference is in the values.

These have been cut materially, as the sixteen stakes have a gross value of \$32,000. Ever since the close of the season of 1919 earlier than it was begun in 1909 has been the circuit there will be a double return for an early start.

COLLEGE SCHEDULES ARE OUT

Harvard and Cornell Each Show Some Changes in Games Played.

BOXING HELPS FOOT BALL

Hobbs Increased His Usefulness on Gridiron by Boxing.

NEW HAVEN, Dec. 25.—According to a statement made by "Boss" King, Yale boxing instructor in the Yale gym, the great improvement in the playing of Hobbs, the big Yale tackle on the football team this season, was due principally to the amount of time he put in boxing.

Hobbs came in the boxing room early in the season," said King, "and he weighed 225 pounds, stripped. He looked big and clumsy, but I never saw a man work as faithfully or as hard as he did. He boxed every day and did a lot of work over down to 190 pounds. Boxing worked wonders for Hobbs, and it will do as much for any one."

"Did you notice the way in which Captain Coy put out his hand in a scrimmage on the field? He put them out just like a trained boxer, and he has boxed since he was a little boy. He did not box here with me. But he boxed when he was at the Hotchkiss school at Lakeville and with my predecessor, 'Billy' Dole. The old Yale boxing teacher used to make the rounds of certain 'prep' schools and give lessons, and when he struck Hotchkiss, he always put the gloves on with 'Teddy' Coy. The latter on the football field has all the movements of a boxer."

"Another boxer on the team is 'Ham' Andrus, the big guard. Coy, Hobbs, Andrus and Kilpatrick, all boxers, appear in Walter Camp's roll of honor. Wrestling is another great help to the football men, as witness 'Dutch' Goebel, of our team, and 'Pau' Withington of Harvard. Goebel is the heavyweight champion here and Withington is the champion at Cambridge."

NEW YORK, Dec. 25.—The Universities of Kansas and Missouri are planning to erect an athletic stadium together and committees from the colleges are looking over sites in Kansas City which will be convenient to both institutions.

The promoter of the company which intends to erect the structure at the Harvard stadium at Soldiers' field speaks concerning the proposition, as follows: "My plan is to make the price of stock low enough to be purchased by any member of the alumni of both institutions. We will probably incorporate for \$2,000,000 within a few days, and a preliminary report has been made by the joint committee."

"I have had a talk with J. C. Nichols of Kansas university and R. B. Caldwell of Missouri university, heads of their respective committees. They both submitted propositions to the effect that the universities erect a certain amount of stock yearly until the stadium passes entirely into their control. They said, however, that this matter had already been presented indirectly to the student bodies and that it did not meet with universal favor. My plan is to form a regular stock company, receiving a certain percent of the gate receipts at each event in exchange for the use of the stadium."

"I am informed that the Young Men's Christian association expects to subscribe the stadium occasionally for its events and also use it for a practice ground for its teams. Perhaps in summer it might be rented to some college team or even to outdoor sports."

NEW YORK, Dec. 25.—Bob Armstrong, the big and clever clobber heavyweight, will in all probability be engaged by Jim Jeffries to assist him in his training for his coming heavyweight championship fight with Jack Johnson.

Armstrong is one of the best men in the business when it comes to training a man for a fight, and the fact that he was Johnson's sparring partner when the latter trained for his battle with Al Kaufman is one reason why Jeff is anxious to have him in his camp.

MYSTERY OF CHEWING GUM True Inwardness of the Dope that Works a Million Jaws. George C. Fletcher of New York, in speaking of the mystery of chewing gum, said that out of the millions of persons who use chewing gum there are few who know how it is manufactured, and really do not know what they are masticating. "As a matter of fact," continued Mr. Fletcher, "chewing gum is nothing more than chicle, mixed with sugar and flavoring to give it the pleasing taste. This chicle is the gum of a tree, which grows plentifully in Mexico and Central America. In recent years it has been cultivated on a large scale in Yucatan, where one company owns several millions of acres of the trees. The chicle tree is similar to the India rubber tree, and the gum was first shipped to America by men who believed they had discovered a permanent substitute for rubber. The chicle was found to be insoluble, and therefore could not take the place of the rubber gum. To this day there has not been an acid, spirit, alkali, or other found that will dissolve the gum. As a consequence, large shipments of the gum lay unsold and unsalable on the pier docks at Brooklyn. "The gum is reddish and has a sort of a rubber look about it. The fact that the gum could be used for chewing purposes was discovered through an accident, one of the men who examined it picking a small piece in his mouth. He was surprised at its consistency, and he invented chewing gum."—Washington Post.
