ON THE LAST EXCURSION TO CALIFORNIA 19 WENT, 19 BOUGHT

On the last excursion on December 2, there were 19 parties from central lows who want to look over the lands we are selling in the San Joaquin valley. California, and every one bought a piece of this land for themselves, also some for their friends. This should surely be evidence enough that the land as are offering for sale in this famous valley is as we represent it to be and as our Early Fruit Land Booklet describes the land and the country in general.

Our next excursion will leave Omaha on January 6 and we would like to have anyone wanting a 19 or 20-aere tract in our district to go with us on that date. The price we are seiling this land for is

\$75 AN ACRE TERMS ONE-TENTH CASH, AND BALANCE \$10 A MONTH

ON EACH 10-ACRE TRACT This land is all level, well located, close to town, railroad, markets and school. It is not located in a district where you are compelled to wait for a railroad to come in to market your products. This valley is surrounded on three sides by mountain ranges, which protects it from the frost and makes it so you can grow something the year around. Others are asking \$150 an acre for the same land that we are selling for \$75 an acre. The only reason that we can sell at that price is that we still have option on about 200 acres. After this is sold the price will be much higher

OUT DOORS EVERY DAY You can see people working in their fields, plowing, planting and picking oranges, lemons and grape-fruit. You have no idea how cheaply you can live in California and how pleasant it is there all the year around, until you have gone to

HASTINGS & HEYDEN

1614 HARNEY STREET.

OMAHA, NEB.

OLD MEXICO, AMERICAN COLONY

The Atascador londs consist of 197.00 acres of the finest agricultural land in the world. This tract is a strictly American colony with American schools, American churches and American newspapers.

This tract is near Tampico, one of the finest harbors on the guif coast. They grow two crops of corn each year. An ideal climate. No freezing nor frost; he extreme heat in the summer. Corn, fiber, oranges and lemons are a great success in this locality. An ideal stock country, cattle grow and fatten the year round on the native grasses. Being near the coast, this tract has an abundant rainfall. Soil is black, rich loam.

Wonderful possibilities for money making. Corn makes from 25 to 50 bushels to the acre and finds a ready market at \$1.00 per bushel in gold. Fiber, two years after planting, yields a profit of \$75.00 to \$150.00 per acre net. Vegetables fresh every from N. 24th St. Price, only \$1,500; \$300 month in the year. Oranges, lemons and grapefruit are very profitable crops. Mexically, balance, \$17 per month.

This land is being sold at \$12.60 per acre, in 50-acre tracts—\$2.00 per acre cash, balance on easy terms. Hundreds of Nebraska and Iowa farmers have purchased land, and a part of them are now living on the Atascador Tract.

Call or write for literature, giving a full description of this wonderful country, and for a list of names of Nebraska and Iowa parties who have purchased some of these lands.

An excursion party will leave Omaha with us on January 4th to visit this tract.

Arrange to go with us and see this country and its products for yourself. Railroad fare for the round trip from Omaha to Tampico, Mexico, and return, is only \$41.75.
