ENVOY FEARS FOR FAMILY

Estrada's Representative at Washington Has Heard Nothing from Wife.

FATHER IS NOW IN PRISON

Insurgent Leader is Preparing to Move Either on Greytown or Managua—No Proposition for Peace.

WASHINGTON, Jan. 3.—Dr. Salvador Castriello, Estrada's representative to this government, has grave fears that Zelaya's followers have reorganized themselves upon his family for the revolution activities in Washington.

Castriello's father has been imprisoned by Zelaya and he also fears for his wife and children. He has not heard from his people in more than two weeks. Cablegrams from him to Consul Caldera asking after his relatives have brought no reply.

The State department will probably be asked to inquire.

The wife of former President Zelaya remains in Managua, according to a dispatch to the State department from Vice Consul Caldera. Although no reason is obtainable for her so doing, the fact that she has not joined her husband has given rise to some suspicion of intrigue respecting Zelaya and it is more than probable her movements will be carefully observed.

Other telegrams from Vice Consul Caldera state that General Toledo has been appointed commander-in-chief of the San Juan river division of the Madrid forces and that General Bustos has been reappointed commander-in-chief of the Jerez division and that he will proceed to the front at once.

It is understood Madrid has not appointed any one to discuss the subject of peace with Estrada, other than as stated above. For several days no information has been received from Nicaragua regarding the situation there. Estrada is presumably pushing his propositions for an early advance either on Greytown or Managua.

Dr. Holler in Hospital.
CHICAGO, Jan. 3.—Dr. B. F. Holler, the Seattle wrestler, is in a serious condition at a hospital here with blood poisoning. He underwent an operation today. Dr. Holler had been suffering with boils for a week, but paid little attention to them until today. He kept on wrestling until he found the boils were becoming infected.

To Enjoy

the full confidence of the Well-Informed of the World and the Commendation of the most eminent physicians it was essential that the component parts of Syrup of Figs and Elixir of Senna should be known to and approved by them; therefore, the California Fig Syrup Co. publishes a full statement with every package. The perfect purity and uniformity of product, which they demand in a laxative remedy of an ethical character, are assured by the Company's original method of manufacture known to the Company only.

The figs of California are used in the production of Syrup of Figs and Elixir of Senna to promote the pleasant taste, but the medicinal principles are obtained from plants known to act most beneficially. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

Czar Marches in Face of Storm

Monarch Follows the Hears of His Grand Uncle from Depot to Fortress.

ST. PETERSBURG, Jan. 3.—In the face of a rain and snowstorm today Emperor Nicholas followed on foot the body of his grand uncle, Grand Duke Michael Nikolaievich, as it was borne from the railway station a distance of three miles to the fortress of St. Peter and Paul. The route of march was lined on either side by a wall of troops which insured the emperor's safety from the terrorists, but the greater danger from the elements he made no attempt to avoid. When he arrived at the cathedral within the fortress the emperor and others of the royalty who accompanied him were drenched to the skin. Fear was expressed that his majesty might suffer an attack of pneumonia as a consequence of his exposure and the requiem mass was delayed for an hour to permit of a complete change of clothing.

Interment will be made in the new mausoleum of the Romanoffs within the fortress on Wednesday.

MAGNETS AT WHITE HOUSE

(Continued from First Page.)

clared that the court would soon become nothing more than a second commission. They preferred to take appeals direct from the commission to the federal courts. The recommendations for a court will remain in the message.

The railroad presidents objected most seriously to the proposed restrictions upon the issuance of stocks, bonds and short-term notes. President Taft will recommend that no such securities shall be issued in the future without the approval of the Interstate Commerce commission, based upon a finding that the issues are for purposes authorized by law and for a price not less than par for stock and not less than the reasonable market value for bonds.

To End "Speculative" Construction.
The railroads claim this restriction will seriously interfere with their borrowing ability. The amendments are designed to prevent overissues of stocks and bonds and the custom known as "watering." It is accepted, it is said, the amendment also would put an end to what is known as "speculative construction."

The railroad presidents objected further to the proposed amendment giving to shippers the right of selecting a through route for their goods and to giving the Interstate Commerce commission the right to initiate complaints and hold up new ratings and classifications by a railroad until sufficient cause shall be shown for the new rates.

It was said that no bill has been prepared by the administration to carry out the president's ideas as to a federal incorporation law. He will leave the working out of this measure to congress.

He will, however, recommend that the law be a voluntary one. The terms upon which charters are to be allowed and licenses granted will have to be included in the law, but it is believed that no law can empower the executive branch of the government to revoke either a charter or a license and that such revocation can only come through the courts for cause.

Murder Suspect is Bound Over

George Wilson, Charged with Killing Ainsworth Man, Waives Examination—Woman Also Held.

AINSWORTH, Neb., Jan. 3.—(Special Telegram)—George Wilson, charged with the murder of Jacob Davis, a prominent resident of this city, Monday night, December 27, appeared this morning before Judge Potter of the county court for preliminary hearing. He waived examination and was held to the district court without bail and is now in county jail.

Helen Leads, who is believed to be an important witness for the state, was held in sum of \$500, and, in default of same, was given into custody of the sheriff. Jacob Davis was shot and his head lacerated with a hatchet, while on the way home from his place of business. Robbery was evidently the motive, as about \$200 was taken from his person. The chain of circumstantial evidence against Wilson is very strong.

Do Gruff Made Judge.

DES MOINES, Ia., Jan. 3.—Governor Carroll today appointed County Attorney Lawrence De Gruff to the vacancy on the district court bench of Polk county to succeed Jesse A. Miller, who resigned a week ago to enter private law practice. Judge De Gruff was formerly a state agent.

December Makes Two New Records

Colest and Wettest Ever Recorded by the Local Weather Bureau.

December, 1909, fixed up two new records for the local weather bureau. The month was the coldest ever experienced here, with a mean temperature of 18, which is eleven and one-tenth degrees lower than the mean for thirty-nine years. The precipitation recorded for the month was two and thirty-three hundredths inches, as against an average of less than an inch for the month for thirty-nine years. The nearest to the temperature record was approached in 1878, when the mean was 17, and the heaviest previous precipitation was in 1877, when two and four-tenths hundredths inches fell. Aside from the fact that the month was dark and cold and stormy, the weather man sees nothing to report.

To South Pole in Dirigibles

Russian Officials Buy Balloons to Equip Unique Expedition to Antartic.

PARIS, Jan. 3.—Messrs. Mathiessen and Voltschok, officers of the Russian army, today purchased two dirigible balloons with capacities of 1,400 and 1,200 cubic meters, with which they will undertake an expedition to the South pole. The explorers plan to convey the apparatus by ship as far south as the ice will permit and thence proceed in the balloons southward. They will keep in touch with their ship, their base of supplies, by means of a wireless outfit.

CONSUMERS TO ORGANIZE

Plan to Get Million Families to Refuse to Buy Commodities Unduly Manipulated.

WASHINGTON, Jan. 2.—More than two score members of congress and their wives met today to discuss the proposed National Anti-Trust League, through the agency of which it is hoped to prevent the inflation of high prices of food on the American public.

CALL MONEY BREAKS RECORD

Touches Highest Rate in More Than Year in New York.

NEW YORK, Jan. 3.—Call money touched its highest rate in more than a year on the Stock exchange today and caused some unsettlement in the tone of the securities market. Opening loans were made at 8 per cent and by the noon hour had advanced to 7. Before 1 o'clock 5 per cent was bid, with small offerings. The scarcity of money was ascribed to year-end readjustments, which have tied up large amounts of cash.

A Little Bee Want Ad now and then will supply your wants for 1910.

AUTOMATIC SEEKS ENTRANCE

Business Men of Des Moines Asked Opinion of System.

CIRCULARS SENT TO THEM

Coal Shortage in Iowa Resulting from Confiscation of Coal in Transit by the Railroads.

(From a Staff Correspondent.)

DES MOINES, Ia., Jan. 3.—(Special Telegram)—The business men of Des Moines are surprised today to receive a circular letter opening the way for a new phase of the telephone fight. The circulars were on the Des Moines Automatic Telephone Company stationery and a stamped envelope was enclosed addressed to a postoffice box number. The business men were asked whether or not they would give support to an automatic telephone system and gave some information how such a system works and the advantages thereof. As a matter of fact the circulars were sent out by representatives of a big company engaged in building large plants for the automatic in various cities and it indicates an intent to reopen the telephone war. The Bell interests recently bought control of the mutual system, but the two have not as yet been consolidated.

Coal Shortage.
There is much complaint in the state over coal shortage and today the railroad commission received complaint of the railroads' confiscating coal consigned to shippers in small towns. If the cold weather continues it is regarded as certain that there will be great distress in northwestern Iowa.

Candidate Against Carroll

The Iowa progressive dinner Saturday night is taken by the politicians to mean that within a short time there will be a candidate in the field for governor in opposition to the present incumbent. Just who this candidate will be seems to be very uncertain. There was some desire that H. W. Byers enter the race but as he has decided to run for congress this eliminates him. A number favor Lieutenant Governor George W. Clarke, but he prefers to continue as lieutenant governor one more term and then make the race for governor, if at all. He has not, however, definitely stated that he would not be a candidate if his friends insist. The majority prefer Governor Warren Garret. There is sentiment to the effect that he is fairly entitled to it the last time and that it was an accident that he lost out also that he is as much entitled to another term as the present incumbent. The basis of the contest is that while Governor Carroll always made some pretense of being with the progressives he has in fact turned out to be a conservative. He has active as a progressive and in fact has shown himself to be a conservative. The most serious matter, however, is that in general his administration has been distinguished by a lack of force and character.

Starts County Campaign.

S. B. Allen, prominent lawyer of the city, has announced himself a candidate for mayor at the city primary in the spring. He was a candidate at the previous primary and was defeated by Mayor Mathis, who probably will not be a candidate again. Allen was one of a committee of lawyers that drafted the bill for the commission plan. The primaries will be held in March and there will be a hard fight to secure an entire new city council.

Debatd Temperance Question.

New Year's day was distinguished at Cedar Rapids by a remarkable debate on the question of reestablishment of a prohibitory amendment, the debate indicated in four state senators who took part in the contest in the state senate last year. These were Gilliland, Moon, Proudfoot and Van Lew, it is planned that other similar discussions be held in the state and the temperance forces are more active than they have been for years.

Rabbit Hunt Proved Failure.

A ridiculous fiasco resulted from the rabbit hunt arranged by the pastor of Wesley Methodist Episcopal church, of which church Governor Carroll is a member. He announced a rabbit hunt with clubs and dogs and immediately there was an outcry against the cruelty of the method and an effort to prevent it as in violation of the game laws. The hunt was held but the hunters did not get a whack at a single rabbit.

"WHAT WE WANT IS OFFICES." DECLARES TAMMANY LEADER

Organization Finds Little Comfort in Gaynor's Verbal Boquet to Murphy.

NEW YORK, Jan. 3.—Chill comfort was found by Tammany hall and diverse political organizations today in the appointments which Mayor Gaynor has made to his municipal family, and there were wranglings on the city hall which indicated that the horde of place-seekers may expect little if their claims for office depend only on political backing.

Of nine appointments made yesterday, but one went to a Tammany man, Rhineland Waldo, selected as fire commissioner. Mayor Gaynor, in making known part of his state list, used a kind of words for Leader Murphy which caused one district leader to remark:

"We don't want any verbal bouquets. What we want is offices."

Herman Ridder, editor of the Staats-Zeitung, today declined the tender of the office of park commissioner. Mayor Gaynor came early to work and as he entered the city hall was much puzzled where to find his office.

BAUMS AND KENNEDYS STILL WRANGLE OVER OPTION

Lot at Southwest Corner Sixteenth and Jackson Cause of Litigation in District Court.

The abandonment by the Woodmen of the southwest corner of Sixteenth and Jackson has caused no cessation of legal hostilities between the Baums and Kennedys over the southeast corner at the same intersection.

Mrs. Anna M. Kennedy, T. Francis Kennedy, James A. C. Kennedy, Marie P. Kennedy and Edward M. Kennedy have filed an amended answer in district court to the J. E. and David A. Baum petition to have enforced an option agreement entered into respecting the sale of the lot.

The answer sets up that "the plaintiffs are asserting some right to obtain a conveyance of the premises, but defendants deny that any such right exists, and deny that plaintiffs have ever availed themselves of the option agreement or tendered a performance thereof, within the time or in the manner provided in said agreement."

Cities Spend Money for Play

Play Ground Association Shows General Interest in Movement Throughout United States.

NEW YORK, Jan. 3.—The year book of the Playground Association of America, which has just been brought out in this city, will show that out of 914 cities and towns in the United States having a population of 1,000 and over, 236 municipalities are maintaining supervised playgrounds.

The actual number of playgrounds that were being operated in 267 of these cities during 1909 was 1,355. About fifty-six per cent of these supervised places for the play of children are located in the area of greatest density of population, in the North Atlantic states, where the need for playgrounds has not only emphasized itself strongly upon the social mind, but has been met to a large extent by the actual establishment of playgrounds. The number of cities in the North Atlantic states maintaining playgrounds is 149, and the number of playgrounds established in 123 of them is 873. Massachusetts particularly has led in the playground movement, as in so many other movements for progress and social betterment.

In about forty-nine per cent of the cities operating public playgrounds the management is wholly in the hands of the city itself, which is working through a board of education, its park department, or other municipal bureau—or by combining the activities of the two or more departments. In fifteen cities of the United States the mayors have appointed special committees, wholly or partially, in city departments for the administration of playgrounds. Playgrounds are no longer left to the philanthropist; the cities themselves have awakened to their responsibilities and are including the children in their plans.

In fifty-five of the larger cities local playground associations have been established, and many of the smaller towns have organized playground committees that will shortly be converted into permanent organizations. Of great assistance have been the churches, women's clubs, Young Men's Christian associations, Associated Cities, clubs and public-spirited men and women everywhere.

An index of the interest of the movement is afforded by a survey of the figures representing the yearly expenditures for sites, equipment and the maintenance of playgrounds. In many cases specific information on this subject is not available, but 154 cities have sent in reports stating definitely what it costs them to operate their playgrounds. The total amount expended during the year by these 154 cities is \$1,333,114. In eighteen per cent of the cities the amount of money set apart for playgrounds was appropriated entirely by the municipality while in twenty-three per cent the city combined with private organizations in the support of the playgrounds.

One of the most important results of the study and thought that has been devoted to the recreation problem is the general recognition that the play leader, rather than elaborate equipment, is the essential factor in the playground. Get the right man or woman to lead boys and girls in their play, and all other things will follow. Two hundred and fifty-nine cities in the United States reported that they are employing 3,764 such leaders in their playgrounds.

AUSTRIAN KILLED IN FIGHT

Dan Koeer Killed at Colfax, Ia., by Milo Savay During Duel.

COLFAX, Ia., Jan. 3.—(Special Telegram)—Two Austrian miners at Severs on Sunday afternoon after imbibing freely of intoxicants got into an altercation, which resulted in the murder of Dan Koeer, aged about 40 years, who was shot through the heart by Milo Savay, 22 years old. After killing his companion Savay tried to escape, but was intercepted at the Frank Jones farm and held until he was identified by Mr. Gunn of Severs, who brought him to Colfax, where Sheriff Ruesch of Newton took him in charge and confined him in the county jail.

HARMON FOR INCOME TAX

Ohio Governor Asks Legislature to Ratify Amendment to National Constitution.

COLUMBUS, O., Jan. 3.—In a message to the Ohio legislature which convened today Governor Harmon recommended the ratification of the proposed income tax amendment to the constitution, saying: "While incomes are a subject of taxation which should ordinarily be left to the states and be resorted to by the national government only in cases of emergency, experience during the civil war teaches that the power of congress to tax incomes, as proposed, should not be left in doubt."

Clears Your Head Instantly

Sample FREE
Apply a bit of Catarrh Remedy to the inflamed surface of the nose and throat. It will clear your head and throat in a few hours—cure all forms of catarrh.

Ask Your Druggist

Railroad Traffic Delayed by Storms

Many Bridges and Long Stretches of Track are Washed Out in Utah and Nevada.

SALT LAKE CITY, Utah, Jan. 3.—Railroad traffic is seriously delayed by storms. Because of washouts in the southern part of Utah and of Nevada it is probable that no through trains will run over the San Pedro, Los Angeles & Salt Lake road for thirty days.

One thousand feet of track and two bridges are out near Minto at the mouth of Sawmill canyon. The greatest damage appears to be west of Callente, Nev. All wires between that place and Los Angeles are down.

All through passengers are being transferred at Ogden to the Southern Pacific. On the northern division of the Oregon Short Line trains were blocked by snow today. It is hoped to clear the track during the night.

Three Cities Short on Gas.

TOPEKA, Kan., Jan. 3.—Three cities using natural gas are confronted with another shortage of fuel tonight, as the pumping plant at Selpio was blown up today. The Selpio station was used to give added pressure. The pipe line has not been tested, it is said. This will insure a small supply of gas to all the cities, but the pressure will be weak, according to the gas company officials.

Oklahoma Fare Case.

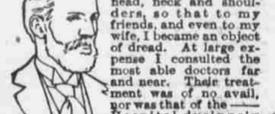

ST. LOUIS, Jan. 3.—Arguments were begun today before United States Circuit Judge Hook in the injunction suit brought by the railroads in Oklahoma to prevent the enforcement of the 2-cent fare and a maximum rate and a maximum freight rate law. The constitutionality of the act creating the corporation commission of Oklahoma is one of the principal points at issue.

TERRIBLE SKIN HUMOR 25 YEARS

Business Man Suffered Agony—Head, Neck and Shoulders Covered—Became an Object of Dread—Consulted Most Able Doctors and Hospital but Got No Relief.

SURPRISINGLY QUICK CURE BY CUTICURA

"Cuticura did wonders for me. For twenty-five years I suffered agony from a terrible humer which had been completely covering my head, neck and shoulders, so that to my wife, I became an object of dread. At large expense I consulted the most able doctors far and near. Their treatment was of no avail, nor was the Hospital during six months' efforts. I suffered on and concluded that I had reached the end of the grave. Then I heard of some one who had been cured by Cuticura Remedies and thought that a trial could do no harm. In a surprisingly short time I was completely cured. S. F. Keyes, 147 Congress St., Boston, Mass., Oct. 12, 1909."

"I am very grateful for Cuticura as my daughter had been suffering for eleven months with awful great boils on her body. We tried everything which one could mention but nothing was any good. The boils made her very weak and ill and she had to leave her place. After using one tablet of Cuticura Soap, one box of Cuticura Ointment and one bottle of Cuticura Resolvent she got quite well and has not had the boils since. I should have written to you before but have been waiting to see if she had any sign of any coming back. My daughter is eighteen years old. Write to me at 115 Hillside Rd., Ash Commn, nr. Aldershot, Hants, England, June 29, 1909."

CURED BOILS

With Cuticura when Everything Else had Failed.

"Now for a bunch of broken New Year's resolutions. The man who swore off smoking will swear on again the moment he gets back to work. JOHN W. HUNST DUSTER, G. Cigar."
