OMAHA, Jan. 14, 1910.

Them traders were bearish at the start on lower inverpous cables and heavy receipts. Holders piayed for a decline and soud the long stuff early and caused a break front the opening values.

Corn was topheavy and trauers were selling long corn freely at the opening. Clearing long corn freely at the opening. Clearing weather was predicted and a heavy run of receipts were bearish features.

Wheat was soft and eased off under heavy seling by longs, who began realising. Cables were lower and receipts were lower and receipts were hours with the demand a trifle slower.

Corn weakened and the crowd sold heavily on the break, sending values off about to before the decline was checked. Cash corn was steady and sold readily, especially the better grades which brought higher prices.

Primary wheat receipts were \$25,000 bushels and shipments of 125,000 bushels.

Primary corn receipts were \$25,000 bushels and shipments of 125,000 bushels.

Wethers realised \$5.90, and ewes sold at \$5.90.

The market thus far this week has been rather disappointing as a whole to shippers. Trade on most days has been rather slow and duit, and the inquiry from packers anything but active. Heavy yearlings and medium grades of sheep suffered declines of 256000 during the first two days, with the best grade of killing lambs and eves quotably weak. Stock of the latter description received a severe drubbing. Wednesday afternoon, however, and quotations were leveled to shout the same basis. With this morning's strength current quotations on all classes of killers are just about 203000 lower than the close of last week, the poorer kinds suffering the greater decline.

Cotton Market.

Cotton is Still Slumping.

NEW ORLEANS, Jan. 14.—The slump in the cotton future markets at New York and New Orleans again carried prices down \$2.50 a bale below the high levels of the day. At New Orleans the March options dropped 53 points, going to 14.31c, and the May option went from 15.10c to 14.50c.

NEW YORK, Jan. 14.—COTTON—The market opened weak at an advance of 17 points on January, but generally 8 to 18 points lower, with the active months seling into new low ground for the season and showing a net loss of from 13 to 19 points during the first few minutes. Trading was sensationally active, and after over-night selling orders had been executed, the market railled several points on Liverpeol buying, covering and support from spot interests. The market during the middie of the morning was nervous and irregular, within a point or two of last night's finals.

NEW YORK, Jan. 14.—COFFEE—Market for coffee futures opened steady at unchanged prices, which was about in line with the European cables, but weakened under European selling a renewal of scattered local liquidation, which seemed to come from Wall street and cotton exchange houses and which may have been caused by the weakness of stocks and cotton, rather than by anything in the coffee situation itself. Offerings were not particularly heavy, but the market lacked any aggressive support and while the close was steady, last prices were 5 to 19 points lower. Sales were reported of 14,500 bags, including January at 8,70c; March at 8,724 8,85c; May at 6,896; July at 6,85c, and September at 6,9967,00c.
