More than five months have elapsed since a republican congress enacted, and a republican president approved the Payne-Aldrich tariff law. Nearly four months have elapsed since the president, who was the acknoledged political head of the republican party, gave his unqualified endorsement to that enactment. And yet today the dissensions within the party growing out of this enactment as a claimed promise of the party pledge to revise the tariff, have reached the point where the president has found it necessary to negotiate with those republicans who have come to be known as insurgents, to Induce them to enter a republican caucus and to assure them of fair treatment if they will do so. This is indicative of serious dissatisfaction within the republican ranks, dissatisfaction which threatens the supremacy of the party.

Ever since last September I have been trying to get Senator Burkett to publicly state the reasons which induced him to

He also, on behalf of the Custer club, and as a director of that organiza tion, handed each member a key to the club rooms, coupled with an invitation to make it their headquarters during their term of office. Chairman Morris thanked the editor and club on behalf of the board, and, murmuring something about "coals of fire," gracefully accepted the invitation.

(From a Staff Correspondent.) DES MOINES, Ia., Jan. 15 .- (Special Pelegram.)-The annual meeting of the lowa State Travelingmen's association was held here today, attended by 500 travelingmen. The most important action taken was in relation to erecting an office building in Des Moines, An effort had been made by Des Moines business men to induce the company to erest the building to cost \$150,000, but the association turned it down five to one. It was decided that where a member is killed while riding in a passenger coach, his heirs wil receive \$10,000.

Gas Company Reduces Price.

GRAND ISLAND, Neb., Jan. 15 .- (Spesial.)-With the price of everything else having a distinctly upward tendency, and with no general agitation of any sort for lower rates, and but few individual complaints, the Grand Island Gas company, of which H. G. Leavitt is president and the principal owner, performed the somewhat surprising stunt today of making a general reduction on the price of gas for illuminating purposes. The reduction is one of about 6 per cent on the whole. Smalle consumers, heretofore paying \$2 per 1,000 will now get it for \$1.90, the next scale being a reduction from \$1.90 to \$1.70 and the next from \$1.70 to \$1.50. An appropria tion of \$10,000 was also made for extension of the mains to meet the needs of the rapid growth of the city and to increase the capacity of the plant.

The complaining witness, Miss Lora Neff, is at the Geneva Industrial school. Word comes to Tecumseh that the school has been quarantined for scarlet fever and Miss Neff cannot leave the institution at this time. When the case is tried it will be before Judge J. B. Nebraska Poultry Show. HASTINGS, Neb., Jan. 15 - (Special.)-The 2,500 or more birds on exhibition in the State Poultry show here next week will represent one of Nebraska's most extensive and profitable industries and one that has been growing in the value of products at the rate of nearly \$1,000,000 year. The exposition will be the twentyfifth annual event of its kind under the direction of the state association, and as it will be the first one ever held in this section many entries are expected from persons who have not heretofore placed their birds in the competitive lists.
