—in the baking

that is where Calumet Baking Powder proves its superiority; its wonderful raising power; its never-failing ability to produce the most delicious baking—and its economy. In the baking—that is the only way you can successfully test it and compare it with the high price kinds. You cannot discredit these statements until you have tried

CALUMET

the only high grade baking powder selling at a moderate cost. \$1,000.00 is offered to anyone finding the least trace of impurity, in the baking, caused by Calumet. Ask your Grocer—and insist that you get Calumet.

Received Highest Award World's Pure Food Exposition, Chicago, 1907.

BRIEF CITY NEWS

Have Root Print It.—Edholm, Jeweler. R. F. Swoboda—Certified Accountant. Lighting Fixtures, Burgess-Granden Co. Minehart, Photographers, 15th & Farnam. Strictly home-made pies, Iler Grand Cafe Burns' Celebration, January 25. Chamber's academy.

1850—National Life Insurance Co.—1910 Charles E. Ayl, General Agent, Omaha.

"Try Us First." For Fuel—Nebraska Fuel Co., 1414 Farnam St. Both Phones.

Equitable Life Policies. eight drafts at maturity. H. D. Neely, manager, Omaha.

Keep Your Money And Valuables in the American Safe Deposit Vaults in the Des building. \$1 rents a box.

Every Dollar Piled with the Nebraska Savings and Loan Ass'n. helps to earn another 30 per cent per annum credited semi-annually. 133 Bond & Trade.

C. C. Chase Talks of Old Money.—Clement C. Chase addressed the Omaha Real Estate exchange Wednesday noon on the subject of ancient money. Mr. Chase told of the origin of money and traced its changes down to the present time.

Pastor-Vierling Elects Old Officers.—The Paston & Vierling Iron Works re-elected its officers and directors at its twenty-fourth annual meeting. The officers are W. A. Paston, president; C. J. Vierling, vice president; Louis Vierling, secretary and treasurer; A. J. Vierling, vice president and manager.

Kimball to Build New Garage.—Plans have been prepared by R. R. Kimball for a new garage for R. B. Kimball, to be built on the south side of Farnam street, across the street from the present garage. Several additions have been made to the present garage since it was first built, but it is still said to be too small to handle the increasing business.

Injured Girl May Recover.—The condition of Mabel Nelson, 7 years old, daughter of Chris Nelson, 219 South Twenty-fifth street, who was hurt in a coasting accident Tuesday evening, is but little changed. In the opinion of Dr. Alfred O. Peterson, attendant physician, she has good prospects for recovery.

Hand Aligned to Be Impossible.—Mrs. Effie H. Antpach Clark is suing for a divorce in district court, charging her husband, Albert E. Clark, with non-support. Mrs. Clark married him here in 1907 and went to Baltimore to live, returning to Omaha when unable, she says, to live longer with him. Clark is a traveling salesman, with a salary of \$30 a month.

Decision Ready in Creighton Case.—A decision in the Creighton will case in district court will be handed down soon by Judge Redick, Troup and Estelle. The judge has reached a unanimous verdict and the opinion has been written by Judge Redick. The suit is over the salary of 1909, all or part of which is held by Creighton's will for a working trust. The sixteen heirs of Creighton are the real antagonists of the trust.

Lazero's Jewell's Funeral at Mother's Home.—A very large attendance of friends was present at the funeral of the

late Lawrence Jewell, which was held from the home of his mother, Mrs. Pinta Jewell, 2911 Lake street. The floral offerings were many and handsome, showing the estimation in which the young man and his family are held by the people of this country. Besides his brother, James G. Jewell of Omaha, the Chicago brother, Leonard Jewell, was present, with two sisters from Billings, Mont., and Parsons, Kan. Rev. Mr. Dyett of the African Methodist Episcopal church officiated and interment was at Forest Lawn.

Joseph W. Folk on Conscience

Ex-Governor of Missouri Opens Lecture Course at First Methodist Church.

"The Era of Conscience," was the subject of the lecture of former Governor Joseph W. Folk of Missouri given as the first of the series of the winter lecture course given under the auspices of the First Methodist Episcopal church at that church Tuesday evening before a well filled house.

"The fight is one that will go on and never die," said Governor Folk, "and it will not only go on here, but everywhere. It is the battle of privilege against right and justice; men against dol and mortals against graft. What is now most needed is the patriotism of common day life.

"The good, decent people are in the majority in this country, and I believe that 90 per cent of them are honest, except when controlled by selfishness. But the majority is too apathetic, while the minority of error is always active and alert. The grafters stand by those who stand by them. It is harder to serve the people than to serve the grafters. If the good people would stand by those that strive to serve them honestly good government and the elimination of corruption and graft would soon follow. We do not need more honest men, but we do need more aggressively honest men, men who are not afraid.

"The great trust and combination look with abhorrence upon the minor violator of the law, but can see no crime or violation of law in illegal combinations for the restraint of trade or the accumulation of colossal fortunes.

"Any law looks blue to a man who wants to violate it. The reputation of a state cannot be injured by the exposure of the corruption of its officials. The injury is not in the exposure but in permitting the wrongdoing. Publicity is the best remedy for graft and corruption."

In conclusion the speaker bitterly arraigned the trusts, the criminal rich, the criminal poor. "Every trust," said he, "is a holding company, which is but a device for evading the law. It should be made as much a crime, that of plundering the people, as to plunder the individual. Did our forefathers fight to relieve us from the tyranny of George III. They should be subjects of the tyranny of gold."

BOARD PICKS PATROLMEN GRANTS DRUGGISTS' PERMITS

Five New Men Will Report for Duty, Making Eighty-Seven In City.

The board of Fire and Police commissioners met last night and selected five new patrolmen from a list of thirty-four applicants. The new patrolmen are: B. A. Thorpe, Andrew Kelley, John Schweiger, Joseph R. Hunter and J. J. Wright. These men are appointed on probation and were instructed last night to report to Chief Donahue this morning at 10 o'clock. They will go on duty in uniform on the February 1.

"This make eighty-seven patrolmen," said Chief Donahue last night. "We ought to have a great many more, but this is all we can have at present because additional funds are not available."

The board granted a retail liquor license to E. H. Doetsch, 24 North Thirteenth street.

Druggist permits to sell liquor were granted.

Thirty liquor dealers received their licenses last night. All others who have not secured their papers are requested by the board to come next Tuesday night and get their credentials.

John R. Hunter was fined \$5 for being twenty minutes late for duty as a policeman.

Thomas Reidy was granted a pension of \$40 per month. He suffered the loss of a leg from being frozen while on duty as a policeman.

W. T. Deveraux withdrew his application for a pension and asked for fifteen days leave, absence without pay because of ill health.

TRAIN CUTS HEAD FROM BODY

Emmel Elassel, a Laborer, Suffers Horrible Death in Railroad Yards at Gibson.

Emmel Elassel, a laborer employed by the Burlington was decapitated yesterday afternoon at 4:15 by being run over by an engine in the railroad yards at Gibson.

Emmel Elassel was walking along the tracks when the engine, which was running backward, ran him down. His head was severed from his body and the body was horribly mangled. The engine was No. 3523, in charge of Engineer Clarkson and Fireman Charles Nelson. The switchman working with the crew was E. M. Lang.

Coroner Crosby took charge of the body and will investigate the accident at an inquest. Emmel Elassel lived at Fourth and Haskell streets.

Some Things You Want to Know

World's Greatest Index.

Without any fanfare of publicity or other ostentation that would attract the attention of the general public, there is being carried to successful culmination the greatest indexing work of the ages. This great index is the International Catalogue of Scientific Literature, starting with the beginning of the present century. Each year there is published seventeen volumes, in which are catalogued every contribution to scientific knowledge made in every country of the world. Twelve thousand pages are required to list these according to authors and subjects.

To have one consolidated index of all the doings of mankind in the field of science, is to possess one of the most valuable aids to human endeavor. And that is what the International Catalogue is aimed to be. It aims not only to cite the title and the author of every scientific book and paper, but briefly to supply an analytical digest of the subject-matter of each. This is accomplished in a most ingenious way. Letters are made to represent headings and figures are used to determine at once what subjects are treated in each contribution cited.

This great publication, growing at a rate that will make 1,700 volumes by the end of the present century, is not in existence as a money-making enterprise. In fact, there is no provision whatever for the use of any surplus that might accrue from its publication and sale. It is purely a permanent establishment of world co-operation. It has no other aim than to support itself and become invaluable to the race. It has commanded the cooperation of nearly every civilized government, and is the product of the leading scientific minds of the globe.

The task of its preparation is divided into three sections. First comes the gathering of the material. This is done by each nation which supports the enterprise. The work is known as the regional bureau. The Smithsonian Institution has charge of the bureau for this country. Nearly every scientific publication in the United States is sent to the Smithsonian, and everything that comes there is indexed. Then reports are made to the central bureau there, following prescribed rules, and proceeds to consolidate all of the contributions into one. This is a great labor, and largely accounts for the delay in the appearance of the volumes of the finished index. As there are hundreds of thousands of entries to be classified properly, and a great deal of careful editing to be done, the wonder is that the printed volumes are not even more tardy in their appearance. Furthermore, some of the regional bureaus are inclined to be slow in getting up their indexes, which seriously delays the central bureau in its work.

The third task is the printing. To publish seventeen volumes a year, containing 12,000 pages of matter where accuracy is the first essential, is a task worthy of the best printers. It is slow and tedious work. Made up so much of symbols, in which one sign is not a guide to the one that follows, the printer and proof-reader must be given attention. When the work is published the price is \$5 per set. Unfortunately the scientists who are ever adding to the world's wealth seldom accumulate much money for themselves, and many of them find the price prohibitive. The sponsors of the catalogue have been anxious to lower the price, but they have not succeeded in doing so up to this time. However, they are still hoping and praying that some philanthropic person will endow the work, so that the catalogue may be more widely distributed and hence of more general use.

The catalogue has been running since 1907. The regional bureaus are provided

for by governmental appropriation. Some of the nations, among them our own, are inclined to be generous when providing for their bureaus. To conduct the work properly, the Smithsonian authorities estimate that they should have an appropriation of \$10,000 a year. Yet congress, readily giving a \$50,000 appropriation to make Shallow Bottom creek navigable, makes a very face when it gives only \$5,000 to the support of the United States regional bureau. But for our own work, patriotic scientists America would be unable to make a creditable showing.

The failure of the project through improper financial support would be further reaching than the catalogue itself. The eyes of the bibliographic world are upon the Smithsonian Institution. Failures here are heartened to undertake similar catalogues. Historians are yearning for a world catalogue of history. Literary authorities desire an international catalogue of literature, and social scientists are eager to possess a catalogue digest of all the uplift literature in existence.

HEALTH WINS GIRL BEAUTY

Is Beauty Only Skin Deep? "Yes! But the Source Is Not," Says This Fair Omaha Maiden.

Pretty Miss and Health Expert Have Ideas on Pulchritude.

HER SECRET OF LOVELINESS

How Miss Gladys Andrews, Omaha Young Woman, Proved New Health Theories and Gained Much Charm.

Is beauty really only skin deep? Here is an Omaha girl and an eastern health expert who have some decided opinions on this subject.

The health expert says that any woman may be beautiful if her food digests and she doesn't stay in bed too late of mornings—in other words, if she will exercise a little.

The Omaha girl nods her dainty head in confirmation of what the health sharp says, and declares: "Once I didn't think so, but now I know it's true."

Miss Gladys Andrews lives at 718 South Twenty-ninth street. She is bronze-haired, blue-eyed and has a complexion that would rival—well, to meet man, it seems it would rival the softness of midsummer dawn and make envious a blooming red rose.

She attributes her entire good health and beauty to the practice of the new health theories of the Cooper "stomach man," the eastern expert who has made all Omaha talk about him as a result of his extraordinary success and unusual ideas. Miss Andrews said:

"Three months ago my complexion was wan and raw. There were dark rings under my eyes in the mornings, the eyeballs were dull and lusterless and my hair turned a sort of yellow. I was dry and itched all over. I was tired and half sick all of the time and couldn't seem to get up ambition for anything. There were times when I would have fainted and other times when I would become so nervous I could not sleep or eat. I would be constipated for weeks at a time and suffered agonies from headache."

"I thought myself a nervous wreck, and as I had tried many remedies and doctors without relief, I had come to think my case was hopeless. One day I read in the paper about a girl friend of mine who had been cured by the Cooper 'stomach man.' I called to see her and she advised me to try his treatment. In spite of what she said I really had no faith that he could help me, but I went to see him anyway. He put me on his regular course of treatment and told me to eat about the way I had been cured by the Cooper 'stomach man.' My rapid recovery was positively astonishing. The first week I felt better, and within a month I was entirely well again. The color came back into my face, my hair stopped falling out, my eyes were bright and the dark circles disappeared and all of my friends who had not seen my improvement hardly knew me. I can never thank Mr. Cooper enough for the benefit I received from his medicine."

The "stomach man" was seen at his headquarters in the drug department of the Brandeis stores. He said: "Nothing pleases me better than to hear what Miss Andrews says. Beauty is simply the outward expression of a radiant good health. Racing red blood makes glowing cheeks, bright eyes, clear skin, quick wit, vim and vigor and grace of motion. Any woman or girl who can get her stomach to working properly and will pay even ordinary attention to the laws of health can be beautiful, graceful and happy."

"The food we eat is the fuel that keeps this wonderful human machine going. A good digestion means a good complexion every time. But no one can feel well or look well if the stomach is out of order. The poorly fed skin turns sallow, the eyes are dull, there is a headache and a worn-out, listless feeling. Pimples break out and some women try to cover them up with paints and powders and lotions. This is all wrong. It is the stomach trouble that is the underlying cause of all the outward ugliness. If people would only stop to think about this there would be more beautiful women and girls in Omaha."

Dr. Conley May Depart from City

Pastor of First Baptist Says Call to Fresno, Cal., is Receiving Favorable Consideration.

Rev. J. W. Conley, pastor of the First Baptist church, is likely to leave Omaha, accepting a call to the pulpit of the First Baptist church at Fresno, Cal.

"The call is receiving my favorable consideration," said Mr. Conley. "The city of Fresno is a rapidly growing one and the field for work inviting."

Mr. Conley has been pastor of the First Baptist church here for eight years. He has been living at 1135 Park avenue.

CLOSE BIG POWER CONTRACTS

Electric Light and Power Company Will Sell Current to Cudahy and City National Building.

The contract department of the Omaha Electric Light and Power company has closed two important deals for power and light, one in Omaha and the other in South Omaha.

Some time ago the Cudahy Packing company announced that it intended to build a new power house to supply power and light. It was later announced that the power plant would not be built at once, although the company would build a new office building and hog house this spring.

A contract has been entered into between the Cudahy Packing company and the Omaha Electric Light and Power company whereby the latter is to furnish, beginning February 1, 1910, of the 1,000-horse power the company uses.

The other contract is with the City National Bank Building company to furnish all the light and power needed on the new sixteen-story bank building. This will require electricity for 5,000 lamps and 300-horse power for elevators.

Nobody is Too Old to learn that the sure way to cure a cough or cold is with Dr. King's New Discovery. 50c and \$1.00. For sale by Beaton Drug Co.

FOUR THOUSAND CIGARS GONE

One Hundred and Thirty Dollars Worth Stolen from Warehouse in Night.

Four thousand five hundred twenty-five cigars, valued at \$130, were stolen Tuesday night from the warehouse of Wm. & Mosher, 1718 Douglas street. The thieves broke a door lock and thereby effected their entrance.

Your Hair is Worth It

Afraid to use hair preparations? Don't know exactly what to do? Then why not consult your doctor? Isn't your hair worth it? Ask him if he endorses Ayer's Hair Vigor for falling hair.
