Mr. Taylor intended to stay over to the meeting tonight, but later decided to leave the city at 6 o'clock.

Mr. Taylor is strictly opposed to calling an extra session

"We had ample opportunity and a good and we did not do it, so I see no reason why the legislature should be called in extra session for that purpose. I have received no word from the governor regarding the extra session, and I hardly believe that he is seriously considering this move. I can not see any good that would come of such action on his part."

Senator Ollis of Valley county joined with Mr. Taylor in being opposed to the "There is no use for an extra session

that I can see," said Senator Ollis. As soon as the Lincoln insurgents get off the stage it will be occupied by the \$2.200.

W. J. TAYLOR MAY TRY LUCK democrats. A meeting or a banquet is to be called for an early date in January and at that banquet something will be do ing other than fixing slates, for the lead-Custer County Democratic Member ers are going to have a hard time doing the fixing.

From the most reliable sources here it is learned that if Mr. Hitchcock expects to get the support of the Bryan brigade for senator he will be disappointed. There seems not the least doubt that T. S. Allen manager for the presidential candidate, will be found looking after the interests of W. H. Thompson of Grand Island, while if he keeps out of the race himself, Mr. Metcalfe may favor the candidacy of the Omaha editor, though there is much doubt about this. The only words that have passed between them, so far as general for of Custer county, the man who in the knowledge is concerned, is that Metcaife legislature last winter dehorned Senator suggested to Hitchcock to wait awhile be-

It is also of general knowledge here that who has been in Idneoin several days at- Mr. Thompson and Governor Shallenberger tending the meeting of organized agricul- will get together and join forces providing the governor can be kept out of the race for the senate. The talk that Dahlman and Thompson will make a tieup is generally discredited here. Thompson and Shallenberger have had more tieupe probably than any two men in Nebraska, and according to the friends of both each has come in for his share of the double cross or someone else got the double cross, but

Berge can be counted on to oppose it dum law last winter," said Mr. Taylor, for he has suffered the pangs of misplaced confidence in his dealings with friends of these two-when he was defeated for the democratic nomination for governor by Shallenberger three years ago.

Locally Lancaster democrats are tiring of the Bryan brand. From various parts of the county come the reports that they are fixing to insurge. So when the big meeting starts the first part of February there will be a great exhibition of democratic insurgency.

Some of Them Are Dissatisfied with Way the Lincoln Meeting Was Handled.

(From a Staff Correspondent.) LINCOLN, Jan. 21.-(Special.)-As a resuit of the action of Mayor Love, chairman of the insurgent meeting last night, in announcing that he had been authorized to appoint a committee on organization, there is dissensition in the ranks of the "genuine progressive insurgents."

"I didn't like that statement from the mayor that he had been authorized to appoint a committee on organization," said ents, "That smacks too much of Cannon I don't knew who gave him that authority. I wanted to vote on that proposition." Mr. Adams gave vent to his feelings on the street car while going home from the meet-

The audience was ready for anything, and it had come keyed up to raise the roof for anyone who could start it. As Editor Taylor of the Central City Nonparell said this morning: "Had Senator Burkett been there and made a speech, he would have received an endorsement."

Lots of med are great walters. They like to think the future holds something better in store for them and that they'll profit by waiting. The "Minute Men of '78" didn't wait. They were on their feet and after them—that is why America is the land of the free and the home of the brave. The wise buyers of Omaha are the minute men of today. When we tell them to come they are on their feet and after the offerings we make. They don't wait in the vain hope that we're holding back something better. Conditions are different, but the Minute Men of '76 were no more alert than the Minute Men of today, and speaking of numbers, wouldn't the British have been astonished had they been confronted by as many as answered our summons on the initial day of our sale?
