CLAMOR CUTS BUTTER PRICES

Public Agitation, Dealers Admit, Forces Market Down.
BUTTERINE HAS SOME INFLUENCE
Omaha Creameries Are Caught with Hand When Price is Cut 8 Cents a Pound.
When the announcement came from Elgin Monday afternoon that the price of butter had gone down 8 cents on the Elgin market it caught the big creameries in Omaha with 38,000 pounds of butter on hand. The Elgin market controls the price in Omaha and the entire country, in fact. It has become a custom for the price set on the Elgin market Monday to be the price for the following week. The best creamery butter ought to retail now at 24 or 25 cents.

Woman's Work

Activities of the Organized Societies Along the Lines of Undertaking of Concern to Women.
The institution of a brief, simple course in household arts in the rural schools of the state is the newest educational effort of the club women and one that promises to be popular. The Home Economics association is directly behind the movement and the clubs stand ready to help directly or indirectly as their assistance may be needed. These courses have been incorporated in the curriculum of rural schools in many of the middle west states and are being used in some of the school districts of Nebraska. It is at the request of the farmers' wives that effort is being made to extend the study in Nebraska. While no definite course has been decided upon a course modeled after that used in Christian county, Illinois, is being widely adopted. This course includes twenty-five simple lessons beginning with discussion of methods of cooking and progressing through measuring, abbreviations and equivalents; simple hygiene, such as ventilation; something about water, the care of milk and the care of the kitchen range and a few other essentials; the cleaning of foods, cooking of cereals, starchy foods, cold and salt-supplying foods, beverages, sugars, eggs, soups, meats, poultry, batters, salads, desserts and invalid cookery. These subjects are arranged that they may be presented by any teacher without previous preparation and are thoroughly practical. That instruction in these branches is as essential as mathematics, reading, writing and many other subjects commonly taught in school is only just beginning to be realized by the majority of parents and the acceptance of these courses as regular instruction has only come with the realization of mothers that their daughters and sons must be taught in the management and conduct of a home. The advent of prepared, partially prepared and preserved foods has introduced a fresh problem into the art of home making and the average modern housewife finds herself unprepared to meet it unless she has had instruction other than the home trained cook can give.

Charity Workers in Conference

Meeting Addressed by Mrs. S. T. George of Denver—Effective Aid for Ex-Convicts Urged.
The world has been remade in the last fifty years, according to Dr. Charles Elliot, said Mrs. S. T. George of Denver, addressing a gathering of charity workers and Sunday school teachers at the Young Men's Christian association last night. "The social workers have before them the task of remaking it over again in the next fifty years. It is needless to tell you people here of the fields of endeavor that are open to the world needs you badly."

Mrs. C. C. George, Mrs. T. C. Brunner and Mrs. D. W. Morrow Named at Meeting.

The newly elected members of the board are: Mrs. C. C. George, Mrs. T. C. Brunner and Mrs. D. W. Morrow. They will succeed Mrs. Robert Cowell, Mrs. J. W. Hansel and Mrs. P. M. Garrett, who resigned. All other members of the board were re-elected.

The Sale of Men's Trousers Continues This Week

Its impossible for any one or two days' sales to make much of an impression on the varied assortment with which we commenced this sale.
Consequently your visit today or tomorrow will be in plenty of time to see many patterns and fabrics in your size.
Of course, we've a reason—and a mighty good one too—for making this big reduction from our regular low prices; it's done because we've not a complete range of sizes in these patterns, and because these small lots—comprising several hundred pairs in all—occupy space that is much needed for the new spring lines.
The assortment includes our regular \$4 and \$5 trousers, also trousers from our \$12, \$15 and \$18 suits; every pair correctly shaped and splendidly tailored by the most skillful workmen.

Not a cent put into useless idle capacity—complete as only Shaw-Walker devices are complete with standard size drawers, interior compartments, and but only half as many of them—only half the cost.

WOMAN HUNTS FOR FATHER
Louise Wilson, who gives her home as Red Oak, Ia., applied at the police station for information of the death of her mother, Mrs. John Wilson, but could get no news. She says she received a letter Sunday in Omaha saying her mother had died and she at once came here, but no one of this name has died in Omaha recently. Her parents three months ago, she says, came to Omaha from Des Moines.

THE CONFLICT OF LOVE AND FAT
The average man will "fatty" with the stout girl; but he steals glances over his shoulder at that Miss Slender. He would sooner hold the hands of the latter in a fatuous silence than really enjoy himself with the other. Such is the conflict of love, just a line—from chin to toe, or from heel—that's all. But it rings the merry marriage bell.
Fat women should not repine—but refine—their own lines by means of that phenomenal dieting is necessary. Simply taking one tablet after each meal and at bedtime and in a little while the surplus of fat—the coarseness of aspect—will disappear. The figure will become slight enough to permit of a manly consort; a pure outline, being fashioned with dress and gown. Their victory—if not revenge.
