CRABTREE MAY LOSE PLACE

Case of Principal of Peru Normal to Come Before Board.

Employment of Convicts Brings Revenue to State-New Law Cuts Price of Gasoline, Mullen Says.

(From a Staff Correspondent.) LINCOLN, Jan. 29 .- (Special.)-When the State Normal board meets on February 5 the indications are the meeting will be of nuch interest, for at that time the board will take up the matter of the dismissal

of Principal Crabtree. For some time the board has been seriously considering securing someone for this place, for the reason there has arisen in which the board believes will result in seriously handleapping the work at that institution unless a change is made.

It was thought for a time that the faculty

at Peru would resolve an endorsement of Mr. Crabtree and present the resolution to the board, but this has not been done and it is said now that the older instructors there are anxious to keep their hands out. Some time ago Governor Shallenberger was very much exercised over the stories that Mr. Crabtree was to be let out and he looked up the law very carefully to see if there were not some way he could remove the board members and appoint a nw board which would favor the head of the Peru school. What his conclusions were he has not announced, but school men say the governor has all he can take care of looking after his own candidacy, without inviting a fight with the normal board. In fact, nothing further has come from the office of the governor looking to the investigation of Luther P. Ludden, who is being paid to act as secretary of the Dr.. Ludden and other members of the board courted an investigation and a back fire was at once started, which evidently had the effect of preventing any further talk of the proposed investigation. In view of the lack of harmony existing between the members of the board and Mr. Crabtree there seems littl doubt that the head of the institution will eb changed and whether to make the change now or at the beginning of the school year in September seems to be a question the board

Speaker Calls on Executive.

Speaker Pool called at the executive office this morning to pay his respects to the governor. The speaker was an ardent champion of an extra session, but he announced this morning that he had never requested the governor to issue his call for that same. The speaker said he really believed that Daniel Stephens intended to run

Bryan Will Not Allow Metcalfe Get in the Race

Hewer of Wood and Drawer of Water Should Know His Place and Stay Fixed.

(From a Staff Correspondent.) LINCOLN, Jan. 29 .- (Special.)-"Metcalfe will not be a candidate for the democratic nomination for United States senator because the Bryans will not let him

This was the statement of a prominent democrat in Lincoln this morning, who has the idea that he knows who the Bryans want for their candidate. And by the Bryans he meant in addition to W. J. and C. W. Bryan and Tom Allen, others who are direct lieutenants of the presidential candidate.

"Mark what I say," the man continued. When the proper time comes Metcalfe will give out a statement that he is not a candidate and that statement will be given because Mr. Bryan will not stand for him. Tom Allen is doing all he can to create a boom for W. H. Thompson for senator and he would not be doing that unless he were acting under the direction of the big chief himself or at least he knows that Bryan wants Thompson for the candidate."

As a matter of fact all of the so-called or self-styled leaders of democracy express corn. He says "the cheapest way to make little fear of Metcalfe causing any serious pork is to raise rutabaga turnips and feed disturbance by standing as a tentative candidate for the senate. Metcalfe, his corn to hogs. Three bushels of corn with friends say, has always drawn the water this feed will take the hog through the and carried the wood for the others and winter all right. NEBRASKA CITY—At a meeting of the directors of the Nebraska City Commercial club held last evening the following officers were elected: President, W. P. Sargeant, vice president, O. C. Norton; secretary, L. F. Jackson; treasurer, F. J. Homeyer. The report of the officers for the last year showed receipts to be \$8,032.44 and expenditures \$7,895.95. The corn show recently held showed that the expenses were \$531.13 and receipts \$269.25, which left quite a deficit. The stock show was not a success, as the expense were \$1.314.84 and the receipts \$395.48. which left a deficit of \$18.38. All of this shortage is to be made good by the Commercial club.

NEBRASKA CITY—The articles of incorporation of the R. A. Duff Engineering company have been filled with the county clerk. The incorporators are R. A. Duff, Harry Rofe and Clarence Armstrong and the cash capital is to be \$25,000. The company will manufacture a new carburetor, which has been recently patented by Mr. Duff, and to do this will erect a factory in the eastern part of the city. At the same time they will make the factory sufficiently large to enable them to manufacture other parts of automobiles, which Mr. Duff has also patented, and they expect to begin the making of their own autos next year at this factory.

EROKEN HOW-Acting under Sheriff Kennedy's direction, Marshal Penny of Callaway succeeded in making a capture yesterday that will probably turn out to be of some importance. A stranger in Callaway had disposed of a superior make of shotgun worth at least \$40 for \$8, and later in the day sold a fine horse and saddle for \$35. A 'phone message from Sheriff Militenberger of North Platte warned him to be on the lookout for one Henry Gibson, whom, it is alleged, disappeared from there with a fine horse and saddle, shotgun and other things. The description of Gibson and the stolen property tailled exactly with Marshal Penny's capture and the North Platte official was informed by Sheriff Kennedy that he though this man was in safe hands. Sheriff Miltenberger will go after his prisoner today.

BROKEN BOW-The school of agriculture and domestic science that has been in session during the week, met with success, the attendance being large and the courses particularly instructive. The domestic particularly instructive. The domestic science department seems to attract more than usual attention, there being about 160 women enrolled as members, beside seventy-five high school girls and over 160 girls from the sixth, seventh and eighth grades. The girls are only present in the afternoons, but their interest is even greater than that of the older members. This department was under the able direction of Miss Rowen, Mrs. Blair and Miss Sabin. Thursday night the members of the Girls' club cooked a supper and had as special guests the members of the Boys' Farm club. The young men did full justice to the excellence of the meal and declared the girls were right there with the goods. The Farmers' institute was held yesterday and a large number of people attended.

Anti-Lewis Faction Tries to Howl "had a private understanding" with Presi-Down President During Consideration of Report.

INDIANAPOLIS, Ind., Jan. 29 .- "In order to facilitate work of this convention I have decided to recognize the men from the picks and not the district officers,' said President Thomas L. Lewis of the United Mine Workers of America at the

picks and demanded a reconsideration of the vote by which President Lewis' report was declared adopted.

Whereupon the uproar in which the convention adjourned yesterday broke out anew. From the rear of the hall were cries of "gag rule," when Lewis asked if the convention wanted a roll call. "I am informed that there is an organized effort to break up this convention," de-

clared Thomas L. Lewis, president of the

United Mine Workers of America, at yes-

terday's session. The convention ad-

journed in a tumult of shouts after a day spent in a violent controversy over the adoption of the president's report. The project against the adoption of

Lewis' report was led by Francis Feehan, president of the Pittsburg district of the dent Taylor of the Pittsburg Coal company and that, "protecting the interests of the coal company," he had called off a strike against the company, with the result that 10,000 miners had suffered a 10 per cent decrease in wages,

Lewis defied Feehan to prove his allegation and read a statement from President Taylor denying that he had any sort of understanding with Lewis.

"I cannot help but feel sorry that the men at home have to read of the scenes in this convention," said John H. Walker, president-elect of the Illinois district. Duncan McDonald, now president of the Illinois miners, in an attack on National President Lewis, said that Lewis had used the national organizers at his command in the recent campaign for re-election for his own personal ends.
