NEW YORK, Feb. 2.—Tommy Murphy of Harlem won a fast go of ten rounds from Sammy Smith, another local boy, at the Sharkey Athletic club last night. The boys fought under police supervision. The first preliminary bout had gone one round when a detective jumped over the ropes and grabbed one of the fighters. The crowd interfered and threw out the detective.

The Murphy-Smith bout was put on immediately and proceeded fast and furious until the eighth round, when a stone crashed through one of the windows and caused a temporary pause. After a brief hait, the bout was finally finished.

Murphy had a shade the better of the contest throughout. Smith landed hard on Murphy's jaw is the seventh and scored the only knockdown. A police captain and thirty reserves waited outside until the go was over, having falled to gain entrance for a contemplated raid.

Battling Hurley was to have fought Murphy, but owing to an injury to his left arm, Smith was substituted.

PORTLAND, Ore., Feb. 3.-Prosecutor Francis J. Henry yesterday subjected forthis time of the season. The Metz team government out of public land, to a severe cross-examination.

This fact, Hermann declared, had bowled against new pins last night, mak- not excited his suspicion in the Blue mountain case, nor did the fact that huge frauds had been perpetrated in Michigan and Wisconsin under the stone and timber act cause more than a general suspicion that men who would cheat once would cheat again.

On one occasion Mr. Heney asked if the reason Hermann said he had not read an article in a Portland paper telling in detail how frauds in school lands were perpetrated was to keep from admitting that he did know there was such fraud, the defendant half rose from his seat, and, almost shouting, answered that there was not a word of truth in such a statement. "I don't like your instnuations, Mr. Heney," Hermann thundered. "You are trying to influence the jury."

Hermann admitted that he did not introduce a bill in congress to alter the timber and stone act, under which he had declared gigantic frauds were being committed. The witness declared, however, that he did try to get the lieu land law modified-a proposed bill for this purpose having died in committee. He attributed the death of the neasure to "Cannonism."

Mr. Heney read to the witness a letter from Secretary Hitchcock to Hermann, telling of repeated rumors of fraud. Mr. Hitchcock wanted to know why the discoveries of fraud were being made by outiders and not by officials whose duty it was to guard the public interest. Hermann said that the fault, in a great measure, lay 1.566 with the special agents.

horitative circles yesterday that the Amer ican Express company has purchased the Southern Pacific Rathroad company's holdngs of stock in Wells, Fargo & Company, which is taken to indicate that a merger of the express companies is under way Although the Southern Pacific holdings in the Wells Fargo-about 45,900 shares-do not represent stock control of that concern, the nainder of the shares, outside of those held by the Harriman estate, are so widely distributed that the block could easily swing the balance of power. The price paid is said to have been in the neighborhood of \$500 a share, a handsome profit for the railroad on the original investm This, it is said, prompted the sale of the stock, which was acquired by the railroad during the Harriman regime.
