## Bank Robbers Make Big Haul

Bind Watchman and Escape with Ten  
Thousand Dollars in Money at  
Chatsworth, Ill.

PEORIA, Ill., Feb. 15.—A special from Chatsworth says that four bandits blew the safe of the Citizens bank at that place and secured \$10,000 and escaped.

Night Marshal William Cahill was taken unawares at the city pumping station about 1 o'clock by two of the desperadoes and bound and gagged and taken to a garage directly opposite to the bank. With Cahill out of the way the bank door was forced and work on the safe commenced.

Mr. Kerber, a baker in a confectionery near to the bank, was called by one of the lookouts enroute to the safe shop and he in turn was caught, tied hand and foot and dragged into the bank, where he laid until 4 o'clock, when he was able to loosen himself and give the alarm.

In the meantime the safe door was soaped and blown, presumably with nitro glycerin. With the \$10,000 safely stowed away the robbers left the bank and secured a rig, in which they are supposed to have entered the town, and drove away.

## Gold Medal and Thanks for Peary

Representative Butler of Pennsylvania Has Bill to Reward  
Pole Discoverer.

WASHINGTON, Feb. 15.—A gold medal and the thanks of congress for Robert E. Peary is contemplated in a bill introduced today by Representative Butler of Pennsylvania, chairman of the subcommittee which a few days ago reported adversely on the proposition to make the explorer a rear admiral in the United States navy.

The naval committee had endorsed the action of the subcommittee in refusing Mr. Peary the contemplated promotion. The whole matter was referred back to the subcommittee, however.

## HEAVY FINE FOR J. KLING

Chairman Hartmann Says Catcher Can  
Get Back by Paying Thousand  
and Dollars.

NEW YORK, Feb. 15.—Garry Herrmann, chairman of the national commission stated this morning that Catcher Kling would be reinstated.

"He has applied for reinstatement," said Herrmann, "and the application will be granted. Kling will have to submit, though, to a heavy fine, I should think about \$1,000."

Manager McGraw of the New York club said Charles Murphy had offered him the first chance to obtain the services of Kling should the Chicago club deem it advisable to dispose of the catcher. McGraw intimated that he had offered a large sum for Kling's release.

KANSAS CITY, Feb. 15.—John Kling said today, when shown the statement of Garry Herrmann, that he would be reinstated and probably fined \$1,000.

"I would have to think about that a long time before coming to a decision. One thousand dollars is a big sum of money."

"Other players who have been guilty of much worse offenses than that with which I am charged have gotten off with a fine of \$50 or less."

Kling said he would be at the service of the National commission should he be reinstated without the heavy fine.

## DEATH RECORD.

Funeral of H. R. Waldron.  
WATERLOO, Neb., Feb. 15.—Special Telegram.—The funeral of the late Harvey R. Waldron, who died Saturday night, occurred this afternoon at 2 o'clock at the house, the service being conducted by Rev. F. A. Campbell of University Place. Interment was at Prospect Hill cemetery. All the immediate family of the deceased were present, besides a brother, J. A. Waldron of Atvo, Cass county. Mr. Wal-

## RECEIPT FOR WARDING OFF AGE

Fat is commonplace—middle aged. It stamps a woman as unquestionably past the period of youth. Hence it lessens her influence. She may charm still—by blindness of wit—but that indefinite fascination a fine figure yields has fled from her.

For ever? No! For it can be regained, and that easily. Youth as expressed in the straight front, the lissome hip the way outline, is not beyond recall. Let any woman who is too well filled out, take a Marmola Prescription Tablet after each meal and at bedtime. The springiness of youth will come back to her. Off will go the fat, uniformly and annoyingly, revealing the foundation of the lost youthful form beneath.

Try this method. No exercising or dieting is necessary to take off a pound a day. The Tablet will do it alone. No wrinkles or discolored lines will occur, unless the health, the brightness and the lissomeness will increase. The Marmola Prescription Tablet is absolutely non-injurious (being made of the famous fashionable formula of Dr. Merriam), is of Dr. E. C. Cascares' formula, is also inexpensive, a large case, enough to show results, costing, at any drug store, or direct from the Marmola Co., 227 Farnham Bldg., Detroit, Mich., only seventy-five cents.

## PROTECT STATE'S INTEREST

Governor Carroll Will See that Fees  
Are Conserved.

CLERKS CHANGE THEIR SYSTEM  
Ottumwa and Council Bluffs Both  
Will Try to Secure the State  
Democratic Convention  
in June.

(From a Staff Correspondent.)  
DES MOINES, Feb. 15.—(Special)—It is expected that Governor Carroll will take steps to protect the interests of the state in the matter of the fees of the office of clerk of the supreme court and that it is possible he will act in this case as in the matter of the plumbers' commission and insist upon the return of the money wrongfully withheld from the state treasury.

A meeting of the state executive council was held today, but the matter not taken up. Clerk Bouquet and Deputy Clerk Grubb immediately made a change in the office and provided that all fees from today on should go to the treasury. Both are candidates for re-election.

Bids for Convention.  
Ottumwa and Council Bluffs will both bid for the democratic state convention that is to be held in June following the primary election. The commercial bodies in both cities have acted and are prepared to make a good offer to the committee. It is expected the committee will meet about March 1.

Inspection Work is Started.  
Adjutant General Logan of the Iowa National guard today started out on their tours the two regular army inspectors, who will look over the Iowa companies and decide whether they are up to government standard. The inspectors are Captain Harry F. Dalton of the Sixteenth infantry and Captain Francis J. McDonnell of the Eleventh infantry. The former will work in southern Iowa and the latter in the northern part of the state, devote one full month to inspections.

New Bank Organized.  
The articles of incorporation were filed today for the Farmers' Savings bank of Craig, Plymouth county, with \$100,000 capital. J. F. Renkin of Akron, cashier; J. W. Schmidt of LeMars, president. There was also filed the articles for the Brookside Telephone line in Buena Vista county; the Ralston Savings bank increased to \$15,000 and the Fairfield Gas company increased to \$50,000.

College Celebrates a Success.  
State Superintendent Riggs attended the banquet and celebration of the Charles City colleges, in honor of the success of the institution in securing an additional \$25,000 endowment with the aid of Carnegie. The event was a notable one among the Germans of northwestern Iowa. The college is a young and aggressive one and is gaining fast.

Auditor Barton Visits.  
State Auditor S. R. Barton of Nebraska stopped over in Des Moines and spent a day visiting State Auditor Bleaker. Both are in charge of the insurance interests of their states. Mr. Barton was on his way to Chicago on business.

J. R. Frailey of Lee county secured blanks today of the secretary of state with a view to entering the race for attorney general. F. E. Lark of Monona county has entered and state superintendent.

Freight Service Said to be Bad.  
The railroad commission today received from the merchants of Pella a general complaint as to the poor service rendered the merchants there by the Rock Island railroad, which is the only one in the town. A number of other complaints were received against different railroads on account of delay in handling cars.

Caring for State Herds.  
The state Board of Control has adopted the plan of having all the herds of cattle at all the state farms inspected by the veterinarians once each quarter year. Since this policy was inaugurated tuberculosis has been found at practically every one of the institutions, in some places more than elsewhere. The board is determined upon stamping out the trouble at all cost. Some of the finest animals owned by the state have been killed because of the evidence of tuberculosis.

Court Holding Consultations.  
The supreme court spent the day in consultation over cases. It is expected that one of the cases to be reported out this week will be that of Ledroy Ware, banker who objected to being sent back to prison on a second charge when he was out on parole. The Ware case was submitted some time ago and a decision has been delayed for some unknown reason.

## TWO CHILDREN DIE IN FIRE

Mother Leaves Them Alone in Home  
Near Centerville, Ia., with  
Fatal Results.

DES MOINES, Ia., Feb. 15.—Two little children of Mr. and Mrs. Clifford Preece, aged 4 and 1, were burned to death in a fire which destroyed the home near Centerville early today.

The father was working nearby, but did not see the flames which started after the mother had left the children alone in the house.

## Bandit Leads Officers to Loot

Man Who Confessed to Holding Up  
Train Uncerthly Many Registered Letters.

ST. LOUIS, Feb. 15.—George Ebling, self-confessed train robber, led postoffice inspectors to a cornfield in St. Louis county today, where part of the loot of the holdup of the Missouri Pacific train near Eureka was buried. The inspectors found some of the letters had been opened. W. Emerson, who was arrested with W. W. Love and James Lowe on a charge of robbing the mails, will be released; it was announced.

## Our Letter Box

Contributions on Timely Subjects,  
Not Exceeding Two Hundred Words,  
Are Invited From Our Readers.

Objects to the Odor.  
OMAHA, Feb. 15.—To the Editor of The Bee: If the Board of Health of the city of Omaha would "ring off"—if the expression is not too obsolete—on impure water, sanitary conditions, adulterated food, etc., and effectively go after the "colossal stink" that emanates from the village to the south and too frequently sweeps over the western portion of our city they would surely add to the pleasures of living.

I have never heard that an analysis has been made of this stench and cannot say whether it may be to health, but a smell that so nearly approaches the perfume from carnion must surely be impregnated with the worst sort of disease germs.

This (Sunday) night is a fair example. We fresh air cranks must sleep with our windows closed on account of it. Very respectfully, B.

Peru and Palaver.  
WINNER, Neb., Feb. 15.—To the Editor of The Bee: We notice that your old friend, the supporter of nonpartisan state institutions, just about election time, the World-Herald, and its Right Bower, the Lincoln Star, are throwing cast fits over the Peru situation. They are also being backed up by a few school nips. Why? Suppose we go back a few years. Where do we find Prof. Crabtree. In the legislature lobbying. For what? A bill to create an inspector of high schools. The bill is passed and the said Prof. Crabtree is appointed. He is next heard from at Peru. A good man was he—headed to give him the presidency. Then what? It is said that he made the school—made it a great institution, doubled the attendance. Are these facts to the outsider, yes—to others, no. Why did Fremont and Wayne colleges double in the same time under old arrangements? Why did our infant at Kearney grow like a mushroom—400, 600, 700 by leaps and bounds? There must have been some cause and effect in these things. There were these schools or else they (the presidents) are equally great with Prof. Crabtree.

In our opinion there was a cause, and that cause was some new school legislation, raising the standard of teachers. Teachers that had been teaching for years had to go to school in order to meet the new conditions.

The graduate of a high school cannot secure a position as teacher in a high school as soon as graduated as of yore, but must have work in a higher institution, therefore, you see the law has been instrumental in building up our normals.

Nonpartisan! Oh, what a nice word. How rolls around in our mouth and then slips off our tongue. Did our demo friends think of nonpartisanism when they tried to kill off the old normal board with the aid of Tom Majors, who sold his vote for an appointment, and create a new one? Did our friends Crabtree think of President Thomas of Kearney when he was lobbying for this bill? Did he mention nonpartisanism when they ousted the head of the blind school at Nebraska City and installed their defeated candidate for state superintendent, Ned Abbott, or when they beheld Prof. Sherman head of the Industrial school at Kearney and put in a faithful pop editor, or when they ousted the head of every other place with pet demoes? Bah! Guess Shallenberger has a few guesses coming before he sheds any tears over the Peru affair and as to Prof. Crabtree he played a cold blooded game of politics and lost. Our advice to him is take your medicine and be quiet.

READER.  
Between these dates fall the centennaries of a score of men and two splendid women, whose mere names, briefly listed, are themselves suggestive:

January 15.—Ferdinand David, the German composer.  
February 4.—Michael Costa, Italian opera and oratorio writer.  
February 5.—Ole Bull, Norway's "magic violinist."  
February 8.—Norbert Burgmüller, the Prussian pianist.  
February 8.—Friderick Chopin, the Polish musician and composer.  
March 2.—Pope Leo XIII, giant among churchmen and statesmen.  
March 20.—John McCloskey, the first American cardinal.  
April 4.—James Freeman Clarke, historian, clergyman, publicist.  
April 15.—Giacini David, the French composer.  
April 23.—Margaret Ossoli, American author and philanthropist.  
May 23.—Horatio Seymour, democratic governor and party leader.  
June 8.—Ludwig Schumann, the eminent German composer.  
July 5.—Martin T. Barnum, greatest of all showmen.  
July 17.—Martha F. Tupper, English poet and author.  
August 24.—Theodore Parker, Unitarian preacher and abolitionist.  
September 16.—Joseph Pollock, who suggested "In God We Trust," as motto.  
September 23.—Elizabeth C. Gaskell, the English authoress.  
October 15.—Giuseppe Mario, the Italian opera tenor.  
October 15.—Cassius M. Clay, American diplomat and publicist.  
November 1.—Fritz Reuter, German novelist.  
November 11.—Alfred de Musset, French poet and tale teller.  
November 15.—Asa Gray, the American naturalist—Cincinnati Enquirer.

## PRESS FOE TO IGNORANCE

(Continued from First Page.)  
vantage point won by the last skirmish in the coming of the newspaper.

Mr. Roosevelt traced the development of paper, type, press and stereotyping from the earliest date of which any knowledge is obtainable to our own day, to the point where the linotype machine and the perfecting press became the usual thing in the ordinary newspaper office.

"The production of the modern newspaper is also largely dependent on, and therefore concurrent with, the perfection of our means of rapid communication and transportation. The gathering of the news to-day takes all known devices of communication and the distribution of the printed newspaper—express into requisition, and the available facilities for transportation. The growth of the newspaper from a local chronicle of petty happenings and neighborhood gossip into the contemporaneous mirror of world events could proceed no faster than the evolution of these auxiliary agencies.

## EVERY PERSON A BOOSTER

How New Zealanders Impress Wanderers of the Country on Strangers.

To the New Zealanders the object of interest in the country. He will not gratuitously talk politics, but, heavens, how he will talk New Zealand. From dawn to dark and back to dawn again he'll talk New Zealand. And though New Zealand is small—not much over 100,000 square miles and though it hasn't quite 1,000,000 inhabitants—counting the Maori, of all the people of the earth who by right can boast of their country—not barrag American—those with the best right that that same nine hundred and odd thousand New Zealanders.

Remember that it wasn't till 1860 that New Zealand was really thought of, and that it was 1870 before the white man had his feet fairly set upon the shores and had fought the final battle of the Maori war; then let him go ahead and talk. What he says is inspiring even to an American. It is all about his "Aotearoa," his "Long-bright-world." Long it surely is—something like 1,500 miles from tip to tip—but it is so fertile that one could hardly establish oneself almost anywhere from the ocean, or from mountains, either, for that matter; and bright—so bright that between the showers the sun seems shining and the breezes blowing pretty much all the time. It makes a climate that is perfection—never either hot or cold—and a soil producing in abundance almost anything that flourishes under the blue heaven; while beneath are gold and silver, coal, iron, tin, antimony and what not. There are vast forests, with deer-stalking and all that kind of thing, and snow-topped mountains the whole length of New Zealand, covering the country with streams—from the ocean, or from there are vast tracts which have not yet been touched, as bits of future possibilities and there's near 4,500 miles of sea coast, where pretty much all the fish that flourish are found swimming.

"Brighter Britain" they call it. "Wine without a headache" they have christened

## Snow Storm Raging in South Dakota

All Trains in Eastern Part of the  
State Are Delayed—Severest  
of Winter.

HURON, S. D., Feb. 15.—The severest snow and storm of the winter, covering the entire Jim river valley and the central and eastern part of South Dakota, is raging today. All trains are greatly delayed.

SPOKANE, Wash., Feb. 15.—Snow, which has fallen steadily in Coueur d'Alene and the Moscow is stopping railway traffic. More than four feet have fallen in the last thirty-six hours. Several small slides have been encountered and cleared. Four men were caught by a slide in the mountains east of Wallace, Idaho. Two striated themselves. A force of army men is working to uncover an assay in two matting men, who have been buried ten hours under thirty feet of snow.

## CENTENARIES FOR THIS YEAR

Some World Builders Who Were  
Born One Hundred Years  
Ago.

To the man who knows, whose chapters of history, stirring chronicles of adventure or high achievement, are written in a single date, the mention of one name may, to the discriminating, sum up an essay in literature, art or science. In which view one cannot but approve of the present-day world's custom of making much of the anniversaries of the achievements of its past as their birthdays come around with the "coursing months." Nineteen nine stood forth marvelously rich in such great men and deeds that recalled from Poe in January to Gladstone in December, with Lincoln and Darwin, Holmes and Tenyson, Dr. Johnson and stout old John Calvin, between—and 1910 will fall not far below the high standard of its predecessor in Father Time's big family. If, with the two complete lists in hand, one holds that of the current twelfth month second in weight and value, yet must it be granted a worthy second, rich in suggestions of wide interest.

## HOGS HIGHER AT ST. JOSEPH

Price There and at Kansas City  
Reaches \$8.95, Breaking  
All Records.

ST. JOSEPH, Mo., Feb. 15.—All hog prices records of St. Joseph St. Joseph live stock market were shattered today when the top price was \$8.95, with enough hogs selling at \$8.90 to top the bulk.

KANSAS CITY, Mo., Feb. 15.—Heavy hogs brought \$8.95 per 100 pounds at the stock yards here today. This price was never before reached at this market.

## LITTLE HOPE FOR TUG NINA

Gloom Pervades Department at Absence of News From Missing Ship.

WASHINGTON, Feb. 15.—An atmosphere of gloom still pervaded the Navy department today when the messages received over night failed to disclose any word regarding the whereabouts of the missing navy tug Nina with its crew of thirty-two. The officials appear to have completely lost heart at the prospect of any of the men being alive.
