EIGHTY MEN IN BALL CAGE

Good Turnout in Response to Coach Carroll's Call.

GYM TRACK IS FIRST COURSE

Manager Eager, While at Minnesota Will Try to Arrange Schedule for Game Next Fall.

LINCOLN. Feb. 18 .- (Special.) - Nearly eighty men reported to Coach Carroll at the gymnasium this afternoon for the first base ball practice of the season. "Cage" work was started at a few minutes after soon and continued until nearly 3 o'clock. Previous to the limbering up exercises Coach Carroll instructed the men in regard to their work for the spring.

The Cornhusker coach has ordered all men who have not taken part in basket ball or indoor track work to spend about half an hour each day for three weeks in running around the track in the gymnasium in order that they may strengthen their

For the practice today Coach Carroll had the players limber up their points by throwing the ball around the "cage." This kind of work will be continued for two weeks, and then the entire squad, which probably will have grown to number 150 men, will be allowed to take part in indoor BALTIMORE 2d-hand store pays best price for 2d-hand furniture, clothes, etc. D. 4265. games. > A smoker was given for the candidates at the Sigma Alpha house last night, and fully seventy-five men were present. Profs. Caldwell and Barber were on hand as representatives of the faculty and told the men that they would have the unanimous support of all the professors in their attempt to turn out a winning nine this season.

Manager Eager announced before he left Lincoln with the basket ball team yesterday for the annual jaunt to Minneapolis, that he would probably conclude arrangements with the Gopher athletic authorities for a foot ball game next fall. There has been some doubt in certain Cornhusker quarters as to whether the Nebraska eleven would be given a place on the Minnesota schedule next fall. Some of the Minneapolis professors have opposed the game, fearing that it would be too hard a proposition for Williams' bunch to tackle. Last fall Plan Under Way to Buy Courtland CONGER SAYS IT IS BLACKMAIL Nebraska proved a surprise to the northern team and almost held them to a tie. Unlike some of the local professors, however, Manager Eager does not think Minnesota will turn the Cornhuskers down this year, and he expects to sign a contract with Minnesota for a game on Northrup field next fall.

IOWA CITY, Ia., Feb. 18.—(Special.)—'No dancing or 'fussing' without special permission of the coach" is one of the training rules prescribed for his track men to live up to the remainder of the school year in the University of Iowa. As a result the co-eds will be minus several eligible young men in the varsity social circle.

Other training rules laid down by "Sphinx" Delaney follow: Men must be in bed at 10:30. All desserts must be cut out. Only plain food is to be eaten.

The home track meet will be held probably April 33. On April 39 the Minnesota dual meet will be held and on May 7 the Hawkeyes will meet the Northwestern track team. Following this event there will be a rest of three weeks and then the Missouri valley meet will be held in Des Moines.

The outdoor wooden track is nearing completion and the men will practice on it today.

It was reported that the Courtland beach property, which includes all the land within the inclosure to the middle of the lake with the cafe, skating rink, bath houses, bowling alley, artesian well, etc., could be \$4,000 which Conger says Burnett received secured for \$50,000. A plat was presented from Hiram G. Moe on April 23, 1901? and of the property which showed that 125 lots could be sold from the property for bungalows and still leave all the land deaired by the club, together with the property already owned. The Creighton estate offers to sell on a contract for \$5,000 down with a payment of \$5,000 a year for three years, when a warranty deed will be given and a mortgage taken for the balance.

The report of the secretary showed a membership of 740, which is a gain of 173 from this time last year. It was suggested that the membership would greatly increase if the Courtland beach property was secured.

An effort will be made to rent the large dredge from the city when it is not used by the park board this summer to dredge in front of the club houses and to throw up a slight dock.

A vote of thanks was extended to Fish Commissioner William J. O'Brien for the large number of splendid fish he has placed in the lake during the last few years and especially during the last year when he stocked the lake with some extra large fish. The report of the vice president showed that several tons of curp and buffalo were taken from the lake last fall and that more would be taken out as long as they lasted. The club has \$600 in its treasury.

MEN ROASTED AT SMELTE

Two Are Burned to Death by Molten Copper, Third Injured.

BIG CONVERTER IS BLOWN OUT

Wife of One Man is at a Wedding and is Summoned from There to Her Husband's Side by

a Messenger.

An explosion of the big 40-ton copper converter at the American Smelting and a Refining company plant last night at 7 o'clock resulted in the death of two men and the probably fatal injury of one.

The dead: J. KALIKE, skimmer, Twenty-eighth and R streets, South Omaha.
H. ANTON, pourer, 208 North Twenty-fourth street, South Omaha.

The injured: OSCAR MEYERS, night foreman of cop-per shop, 1429 North Seventeenth street, Omaha; terribly burned on face and limbs, has a chance for recovery.

As soon as the accident happened, ambulances were summoned and the injured men were hurrled to the Clarkson hospital, Twenty-first and Harney streets. Kalike and Anton died at 2 o'clock this morning. At the hospital it was ascertained the two laborers were so badly burned there was no hope for them. Meyers is in a serious condition, but there is some chance for him, as it is believed he is not burned in a vital part of the body. Meyers' wife was sent for as soon as possible. She was at a wedding at a neighbor's house when the news was received.

Meyers has been in the employ of the American Refining and Smelting company for four years and is one of the most reliable men in the employ of the corporation. He has been married for two years. Looking for the Cause.

General Superintendent Page is conducting an investigation into the cause of the accident. Until he has seen the men who worked on the night shift he says he will be unable to account for the explosion or the "blowing out at the bottom."

Mr. Page says he looked at the converter after the accident and was at that time unable to detect any defect. The converter is a comparatively new one and has a capacity of forty tons. When the molten mass escaped it caught

Kalike and Anton were married and leave wives and families. The report from the hospital Friday with regard to Meyers' condition is that he is as well as can be expected.

Mrs. Meyers at a Wedding. Mrs. Meyers was attending the marriage of Mrs. Ella P. Jackman to Thomas P. Jones at the home of the former, 423 North Fifteenth street, when the tragedy at the smelter occurred, and she was called away from the happy scene to the side of her husband, who then appeared to be fatally injured. A messenger came to the Jackman residence to summon her and in an instant her gladness turned to sorrow and cast a gloom over the festive party. "It was the first time that tragedy ever

CURES

There is nothing that causes more worry and discomfort than a chronic, festering ulcer. As it lingers, slowly eating into the tissues and surrounding flesh, and by its tendency to grow worse in every way, it suggests the possibility of being cancerous in its nature. Efforts to heal the ulcer by means of salves, washes, lotions, etc., always result in failure, because such treatment can have no possible effect on the blood where the impurities and morbid matters form, and are carried thorugh the circulation to the place, to keep it open, irritated and diseased. The impurities in the blood must be removed before the healing process can begin. S.S.S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood is carried to the diseased place the healing commences, the inflammation gradually leaves, the discharge ceases, new tissue and healthy fiesh are formed, and soon the sore is permanently cured because the source has been destroyed. S. S. S. does not make a surface cure, but by supplying the blood with healthful, tissue-building properties it begins at the bottom and causes the flesh at the diseased spot to firmly and permanently knit together, and the place is left sound and well.
