"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept

getting worse un-til we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did no good. At the time I was induced to

try Cuticura he was so bad that I had to cut his hair off and put the Cuticura Cintment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heartbreaking. I began to think that he would never get well, but after the second application of Cuticura Cintment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day, twelve years or more since the cure was effected.
