Hotel Men of Iowa Meet and Denounce Law Enacted at Instance of Traveling Men—New Hospital Likely.

(From a Staff Correspondent.) DES MOINES, Ia., Feb. 23.—(Special Telegram.)—The city council acting as a Board of Health, today condemned as unfit for public use 20,000 tons of ice which has been stored by three prominent ice firms of the city.

Hotel Men Denounce Law. The Iowa Hotel Keepers' association began a session today with leading hotel men of the state present. One of the first matters touched upon was the new Iowa law in regard to hotels which was enacted at the instance of the traveling men. It was roundly denounced by the hotel men and they resolved to continue the litigation and to prevent the enforcement of the law.

Lutheran Hospital. The Swedish Lutheran conference for Iowa in session here is planning the establishment of a very large hospital. Des Moines offered a \$5,000 bonus for the same and it is said that Sioux City and Fort Dodge both have offered to contribute.

Not Much Holiday. Though Washington's birthday is a legal holiday, like Lincoln's day there was very little recognition of the same and business was hardly suspended in Iowa. The Des Moines banks closed and the schools had appropriate exercises. The state houses were open and all county offices and practically all public business was transacted.

School Men Want Reform. State Superintendent Higgs is engaged in addressing teachers and rural school officers throughout the state, and urging reform legislation as to business methods, especially as to not keeping open the very small school and the abolition of school trustees.

Florists Make Complaint. The florists of the state are asking the railroad commission to make some regulations that will facilitate the sending of flowers by express. They complain that the charges for a transfer from Fort Des Moines and from Fort Snelling are too high.

Iowa Troops to Wisconsin. Adjutant General Logan received word from the War department today that the Iowa guardsmen would be expected to go into camp with the regulars at Sparta, Wis., next summer. The Iowa troops have hitherto gone to Fort Riley. It is planned to send all four of the Iowa guard regiments, as the distance is not great and the transportation facilities are excellent.

Change is Next Week. It is expected that S. D. Woods, the new secretary of the State parole board, will arrive here next week and relieve Secretary Garrett, who is very anxious to retire to devote himself to the campaign. The office of the parole board will then be in shape so that the change can be made easily.

Ware Released from Prison. Leroy Ware of Wayne county has returned home from Fort Madison, after the prison doors had been opened by decision of the supreme court. Ware had in fact not been given very hard treatment from the fact that he is in poor health. It is now believed that nothing further will be done toward sending him to prison on the old charge, though he may be prosecuted on some of the charges that were dropped. There is also talk that the case may be taken to the United States supreme court.

Neison Gets Big End of Receipts

Takes \$13,000 of the \$37,750 Taken In at the Gate—'Trained Too Long.'

(SAN FRANCISCO, Feb. 23.—) The light-weight battle at Richmond yesterday was the sole topic of conversation today among sporting men. The name of Neison on the tongues of fight devotees is that of Neison, who has just returned to the ring after a defeat was the feature of the match.

The attendance at the fight is estimated at between 11,000 and 12,000. The total receipts were \$37,750. Neison was guaranteed \$12,000, won, lose or draw, with \$1,000 expense. Almost all of the receipts were for Neison. The winning picture will prove valuable. Neison bought a 25 per cent interest in them for \$750.

Neison gives his conqueror due credit, but maintains that he trained too long, and that he was down to weight too soon. "I would not have made any definite plans, but indicated that he would take a long rest before he enters the ring again. He declared that he purposely played a waiting game, as he desired to beat Neison by adopting his adversary's favorite plan of slowly battering down his opponent."

THREE DEAD IN STRIKE RIOTS

operation tonight. This he said, depended on developments today. "Since last Saturday night no cars have been operated after 4 p. m.

In defining its position on the suggestion to settle the strike by mediation an official of the company said that under no consideration would the company entertain such a plan. "We have heard that Senator Penrose will be asked to lend his good offices to end the strike," said this official. "That fact would never lead us to consider any interference or mediation from outside parties in a dispute which is not at all an issue in which the public can be concerned. In the language of George H. Earle, a director of the company, it cannot be arbitrated."

The transit company gave official notice today that the city would be held responsible for all losses sustained by it through the wrecking of its cars. Mounted Police Follow Car. The Frankfort line traverses part of the Kensington district in the north and the first car was started out at 4:30 a. m. When it left the barn at Frankfort, Kansas, and Bridge street it carried four policemen, but no passengers.

When it turned from Frankfort avenue into Kensington avenue it was met by four appointed policemen, who rode behind it along the highway, which had been the scene of much disorder. At every twenty feet along that avenue stood a policeman with a heavy riot club a yard long. Both sides of the street were well filled with people, but the show of police force had a quieting effect.

At Forty-fourth and Lancaster avenue, in West Philadelphia, about 9 o'clock two cars, coupled together and carrying twelve passengers and a driver, were fired upon by an unidentified man standing at the side of the highway. The driver and four of whom were women, threw themselves upon the floor of the conveyance. The policemen gave chase, but the man got away.

Major Thurston J. Brauer, commander of the first fire, shot the passenger with which a big holiday crowd had sport in Kensington late yesterday afternoon, made the following statement: "If any one of our men had fired into the crowd yesterday, he would have been shot. The first shot the passenger were stationed ten feet apart. What would they hope to do against a disorderly crowd of 10,000?"

Governor Stuart, who spent Washington's birthday in this city, left for Harrisburg, Pa., at 10 o'clock yesterday. He had not received a call from the mayor for state troops. Boys Organize Attacks. That the attacks on the trolley cars in the northeastern section were in a number of cases planned by gangs of boys is shown by the after-morning statements made last night by one of the youths who participated. Most of the boys are participating in the trouble through pure mischievousness. They are having the time of their lives and Superintendent of Police John B. Taylor has issued an official warning to parents.

REBELS DEFEATED AT TISMA. Government Troops Said to Have Won Decided Victory Over Insurgents. NEW YORK, Feb. 23.—The Herald today publishes a dispatch from San Juan Del Sur, Nicaragua, saying that it reported from Managua that the insurgents under General Chamorro suffered a severe defeat yesterday afternoon at the hands of the government forces at Tisma, near Tiptapa. The casualties on both sides are placed at 500. No confirmation of this reported engagement has been received in New York. The land telegraph lines connecting San Juan Del Sur with Managua were severed for several hours yesterday, but the restoration of communication was announced late last night.

JURY TAKES PHILIPS CASE

Twelve Men Debate Over Verdict in Murder Trial.

'HUNG JURY' IS NOT IMPOSSIBLE

Reported One or More of Body Grandstanding Out for Acquittal on Ground Phillips Was Insane When He Shot Hamilton.

The Phillips murder case is in the hands of the jury, which received it at 2 o'clock yesterday afternoon and debated without respite until dinner time. Following the evening meal the jury resumed discussion. It is asserted that there is some prospect of a "hung jury" because one or more of the twelve men are insisting on acquittal on the ground that Phillips was insane. It was announced that if no verdict was returned by 10 p. m. the jury would be locked up for the night.

Closing arguments were made in the morning by H. B. Fiehrty for Phillips and by County Attorney English for the state. The closing address in behalf of the prisoner was made by Mr. Fiehrty along the line which the defense has been conducting throughout—a straightforward plea of insanity with hardly a hint at "the unwritten law."

Mr. Fiehrty waxed eloquent occasionally in telling of the curious manifestations of the emotion of love which in Phillips' case, the defense argues, became perverted to an insane jealousy. "Why," thundered counsel for the defense, "the state not dare to put an expert on the stand to testify as to Phillips' sanity? Why did the state content itself with the testimony of men who saw him only occasionally and who really knew the man not well nor intimately?"

State Suggests No Question. In reply, County Attorney English made the explanation he has given in other trials where insanity has been a defense—that "the state did not care to suggest that there was really a serious question as to the mental condition of the defendant. The attorneys joined issue on the fact that Phillips fled from arrest after the shooting."

"Did not this show Phillips knew well enough what he was doing?" asked the state. "By that argument you could depopulate every asylum," retorted the defense. "Would not hundreds and hundreds of insane men, inmates of asylums, run away if they could?"

Popular interest in the trial was increased, if anything, the last day, as judged by the attendance. There is little speculation as to the outcome. The state urged the death penalty in both its speeches. The general impression is that life imprisonment is a good deal more likely than a verdict of hanging. TALK UNFAIR RATES TO CLARK (Continued from First Page.)

with the prevailing rates and had no complaints to make. Would Raise Lincoln Rate. The last witness of the afternoon was R. G. Brown of Kansas City, general freight agent of the Chicago, Rock Island and Pacific. He told of the differentials existing between Omaha and Lincoln, in favor of Lincoln, but stated that they had been made by his predecessor. At the same time he admitted he thought they were rather high. He thought that the Lincoln differential should be made larger rather than that the Omaha rate should be made lower, but that by so doing the rate would be properly equalized.

His testimony developed the fact that but two cars of lumber had been shipped from Omaha over the Rock Island to the Belleville Junction, during 1909, and none at all from Lincoln. This concluded the lumber case, and Mr. McVann was given until March 15 to file his brief, the defendants until March 22 to reply, and Mr. McVann until April 12 to file an additional reply. After this the case will be argued orally before the commission at Washington.

DEATH RECORD. Mrs. J. B. Donovan. MADISON, Neb., Feb. 23.—(Special.)—Mrs. Kate Donovan, wife of J. B. Donovan, editor of the Star-Mall, died last night at 9 o'clock after an illness of a year. Her death was not wholly unexpected, as her life has hung by a slender thread for many months.

She leaves, besides her husband and aged parents, a son, Archie K. Donovan, now associated with his father in the management of the Star-Mall, and a daughter, Lydia W. Donovan, 7 years old; a sister, Mrs. Cora Nichols, wife of County Attorney James Nichols of this city, and a brother, Charles Wagner of Los Gatos, Cal.
