was sentenced to two and three months each. While the evidence against most of the defendants was strong there was an apparent vein of sympathy among the jurors. The judge, in addressing the jurors, said:

"This is not an issue between the Rapid Transit company and its striking employes, but between law and lawlessness, and rioting must be sternly suppressed."

Telegrams were sent to President Taft, Senators Davenport, and the officials of the street carmen's union today saying: "Union men on strike here offer services for operation of mail and newspaper cars, as was done throughout last strike. Company refuses to allow union men to continue to operate mail cars and has today forced them off their mail cars by unnecessary discharge. Interference with mail operations therefore, comes from the company and not from the strikers."

Will Care for Loyal Men.

The company posted a notice in each of its sixteen barns today that all employes who have remained loyal to the company and who may become incapacitated by reason of injuries received in the strike disorders will be cared for during the remainder of their lives.

At the company's offices there was a long line of unemployed men seeking positions as conductors and motormen. The company is advertising for 2,000 men. It is offering 22 cents an hour, with a guarantee of an early increase. The company states that it prefers Philadelphians seeking permanent employment and does not desire to engage men who will work only during the life of the strike. Many in the long line of men were engaged.

Boy Rioters Locked Up.

Many boy rioters, arrested during the week, were taken into the juvenile court today. They were for the most part a penniless lot, and most of them had daily for the fun they thought they were having in attacking cars. All promised to be good, but the promises had no weight with the court, and fines varying from \$5 to \$20 were inflicted. Some of the boys will stay thirty days in the House of Detention and others until the strike is over.

There has been no interference with the transportation of the mails over the lines of the Transit company. So far as is concerned there has been only two instances of the blocking of cars which were carrying mails between substations in the city. J. Whitaker Thompson, district attorney, received instructions from Washington today to watch this phase of the strike closely.

WASHINGTON, Feb. 24.—Attorney General Wickham, acting on instructions from President Taft, has directed the United States attorney at Philadelphia to report at his earliest convenience whether there has been any interference with the United States mails during the strike of the street car employes.

The president also caused the United States attorney at Philadelphia to be directed to see that mail agencies are not interfered with, to cause the arrest and exert every effort to secure the conviction of anyone attempting to interfere with the mail in any way, and to see that the government's contract with the Philadelphia Rapid Transit company is carried out.

OTTUMWA GETS CONVENTION

Democratic State Committee of Iowa Passes Up Bluffs.

SESSION TO BE HELD IN JUNE

River City, When Delegates, Three Support to Neighbor, Bentling Des Moines—Hotel Men Meet.

(From a Staff Correspondent.)

DES MOINES, Feb. 24.—(Special Telegram.)—The Democratic state committee held a meeting today and determined upon holding the state convention in June, at Ottumwa. The committee got into an interesting deadlock, leaving all the afternoon, but finally came to a decision in its votes to Ottumwa and kept the convention away from Des Moines. There were also concessions made for the committee on behalf of Ottumwa.

Jerry Sullivan is to be temporary chairman and W. T. Oakes of Clinton, secretary. All members of the committee were represented.

The State Convention of Hotel Keepers today elected these officers: President, J. H. Heim, Davenport; vice president, S. C. Dille, Clinton; secretary, C. E. Griffith, Sioux City. Today was spent on a program of topics of general nature. The convention was addressed by Ralph Lawler of Chicago; I. A. Medler of Omaha, and others.

Want Trains to Move Faster.

A. Sykes, president of the Corn Belt Meat Producers' association, in a communication to the railroad commission asks that the new state law be invoked, under which the railroad commission has the right to direct the speed of stock trains traveling over lines in Iowa. He states that never before has there been such general complaint over poor service to stock shippers, as in the last few months. The commission is in doubt whether it can do anything with interstate trains.

Pleased with Law Building.

The Des Moines contingent that attended the dedication of the new law building, at the state university, returned immensely pleased with the exercises and the building. A splendid banquet was held and the attendance of former graduates of the law school was very large. The new building, so they say, is the finest building of any of the state institutions.

Express Hearing Put Off.

The railroad commission hearing on express rates in Iowa, which was scheduled for March 1, has been put off, at the request of commission organizations interested. The hearing will occur almost every phase of the express business, including a demand for a general reduction, especially in the rates on small packages for short distances.

Wants an Orphan Farm.

James McNeill of Osceola is engaged in interesting state officials and others in a plan for the purchase, by popular subscription, of a large farm to be used in connection with a proposed new orphanage in southern Iowa. He would have the farm made practically self-sustaining and thus relieve the state of some cost in maintaining its present large institution at Davenport.

State as a Butter Buyer.

The state of Iowa bought last year upwards of 141 tons of butter, all genuine butter, at an average price of about 27 cents a pound. This butter is used at the state institutions, and no one is permitted to buy any butter without the state's approval.

New Railroad Proposed.

The articles of incorporation for the Charles City-Western railroad were filed today with the secretary of state. It is organized with a capital of \$200,000 to build trolley lines in northeastern Iowa. C. W. Hart is president and C. H. Parr secretary. The plan is to build west from Charles City and possibly also to the south.

Local Anti-Trust Move.

B. F. Loos, a local lawyer, has just been appointed Iowa director of what is called the National Anti-Trust Food league, an organization with headquarters at Washington. The plan is to organize something of the sort in Iowa. Loos is also running for alderman in the city.

Tuberculosis Extension Work.

Dr. A. E. Koppford, state lecturer on tuberculosis, has just prepared a high school lecture on tuberculosis with accompanying lantern slides, the same to form a new feature of the work now being carried on by the state. The lantern slides and lecture will be loaned to schools to be used and then go on to other schools, and thus the lecture work will be carried to the thousands of pupils in Iowa schools.

New Western Iowa Interurban.

The articles of incorporation were filed here with the county auditor for the Omaha, Council Bluffs & Sioux City railroad, and Sheriff Bennett as president and a number of local promoters as directors. The company has planned to build west to Council Bluffs and possibly to Sioux City.

Woman Declares Her Insanity.

Mrs. Nellie Taylor, a young woman on trial in the district court for the murder of her infant, declared on the stand today that her mind was a complete blank at the time of the commission of the deed. Her sole plea is that of insanity. She had been betrayed and abandoned and she killed her child and tried to hide the body some months ago.

Fight for Hospital.

The fight for the location of the new hospital of the Swedish Lutheran church has narrowed down to Sioux City, Fort Dodge and Des Moines, with Sioux City and Des Moines apparently in the lead. The report will be made tomorrow. The report showed the indifference cleared and an increase in the treasury of \$100,000. Appropriations were granted as follows: St. Louis, \$200; Summitville, Ia., \$50; Carterville, \$300; Council Bluffs, \$300; Shenandoah, \$300; Cedar Rapids, \$400; Marshalltown, \$250; Sioux City, \$400; Cherokee, \$150.

ROCK ISLAND SHORTENS LINE

Appropriates \$4,000,000 to Reconstruct Road from St. Louis to Kansas City.

ST. LOUIS, Feb. 24.—An appropriation of approximately \$4,000,000 for the reconstruction and shortening of the Rock Island railroad between St. Louis and Kansas City is announced here today. The road will be the shortest between these two cities. Through trains from St. Louis to Texas and California will be put in service.

MOVEMENTS OF OGDEN STRANDBERG.

Port of Arrival: Chicago, Ill. Departure: New York, N.Y. Date: Feb. 24. Agent: J. W. Der Grandt, 107 N. 10th St., Omaha.

WILLIAM DOLL, PIONEER, DEAD

Otagovarian, Who Spent Forty-Five Years in Omaha, Dies at Pierce Street Home.

William Doll, 83 years old, died yesterday afternoon at his residence, 807 Pierce street. He will be buried at Prospect Hill cemetery Sunday afternoon. The funeral services were held at 8 o'clock yesterday at 2:30 under the auspices of the Old Fellows, of which order Mr. Doll was one of the oldest members in Omaha.

Mr. Doll came to Omaha from Syracuse, N. Y., forty-five years ago with his bride. He was born in Baden, Germany, and when he came to America he went to Syracuse, where he married a short time and married.

Mrs. Doll died four years ago last November. They had no children. Mr. Doll has a brother, August Doll, residing on his farm on West Center street road, and two sisters, Mrs. Lizzie Uhlman and Mrs. Lena Rock, residing in St. Joseph, Mo. Mrs. Uhlman is in the city, but Mrs. Rock will be unable to come. These and the members of the brother's family will constitute the relatives at the funeral.

Mr. Doll was a carpenter by trade and lived a very active, industrious life and enjoyed good health up to one year ago. He was always a firm believer in the stability of Omaha, which he has seen grow from a mere village to a large city.

FILES CURED IN 5 TO 14 DAYS.

MRS. GUTHRIE COULD NOT HAVE SHOT SELF, SAYS DOCTOR

Trial of George L. Eddy for Ten-Year-Old Crime at Bell Plaine Begins.

VINTON, Ia., Feb. 24.—(Special.)—The trial of George L. Eddy, who, with Francisco Guthrie, is held for the murder of Guthrie's wife in Belle Plaine ten years ago, was begun in earnest today when a jury was secured.

In his opening statement the county attorney made it plain that the state would have to depend largely on circumstantial evidence. The first witness examined was Dr. D. W. Morris of Belle Plaine, who was the first doctor called after Mrs. Guthrie was found dead, and who later held a post-mortem examination over the body. He was convinced, he said, from the position of the body when he found it and the nature of the wound, which severed the spinal column, that it would have been impossible for Mrs. Guthrie to have shot herself and then be in the position he found her.

The trial is attracting wide interest here, in Toledo, Tama and Wells Plains, where all the principals are well known.

WYOMING'S RIGHT TO LANDS

Senator Clark Reports Favorably on Transfer Bill.

NORRIS ON POSTAL BANKS

Nebraska Congressman Would Have Deposits Distributed Among State, Private and National Banks—New Appointees.

(From a Staff Correspondent.)

WASHINGTON, Feb. 24.—(Special Telegram.)—Senator Clark of the committee on public lands reported favorably today a bill providing the state of Wyoming may relinquish to the United States certain lands heretofore selected and may select other lands from the public domain in lieu thereof. The bill authorizes the state of Wyoming to convey to the United States 2,000 acres of lands described as school sections 16 and 25, granted to the state by the act of July 10, 1890, and some 5,500 acres certified to the state in part satisfaction of a grant in quantity made in the act of 1890 for establishing educational, penal and reformatory institutions, and to select land equal in acreage to that conveyed. The lands proposed to be conveyed are to be restored and become part of the public domain and subject to disposal in the same manner in which other lands of like character are disposed of.

Supreme Tribunal Announces New Rules and Decides Important Cases.

(From a Staff Correspondent.)

WASHINGTON, Feb. 24.—(Special.)—The supreme court today adopted new rules of procedure, the principal one having for its purpose the expediting of cases in the court. The new rules go into effect March 7, and will be in force for the next term of the court, beginning in April. The principal of the new rules requires the appellant's brief and abstract to be filed with the court within thirty days from the time of the taking of the appeal. This rule applies, except in cases where bills of exception have not been settled before the appeal has been taken.

The court, in an opinion on election procedure, in state ex rel. Walkin against William Shanks et al., holds, in effect, that a change in the location of the polling place does not vitiate the election, unless it can be shown that substantial damage has been done by such change.

In a case from Meade county, the lower court is reversed in its sustaining the Board of County Commissioners in its refusal to divide a school township, after the people had by a vote declared for the division.

A. B. Wheaton, acting as state pure food commissioner, was sustained in a suit brought by the American Lined Oil company, which sought to market in this state an oil sixty per cent linseed and forty per cent "filler." This the court holds they cannot do, under the provisions of Sections 237 and 238 Political Code.

UNION PACIFIC CONTRACT LET

(Continued from First Page.)

so put in my evening taking a night course at the Armour institute. It was many months before I was made a superintendent for the Fuller company.

"After I had handled a couple of jobs, I went to the Starrett-Thompson Construction company of New York, and as assistant general superintendent I put up the new Sears-Roebuck building in Chicago—a \$7,000,000 job. Next I put up the Fort Dearborn building."

During the rehabilitation of San Francisco, after the earthquake and fire, the Starrett-Thompson company had contracts for twenty-three buildings, ranging in value from \$100,000 to \$1,000,000. The building now being put up in Seattle under Mr. Hickey's supervision will cost \$450,000.

TEST CORN IN INCUBATORS

pocketbook in the state. This warning cannot be too well impressed on the farmers of our country. It is of the most vital importance.

"The warning is not made to start up a scare, nor to boost seed corn prices, nor to influence markets. It is sounded now that farmers may be brought to realize their dangerous position. If they do not test their seed corn now, they are doomed to a failure of the corn crop next fall. The matter how great the trouble they may be put to the wise farmer will test his seed corn thoroughly without further delay, and be absolutely certain that he has the seed which will give him a crop this fall."

TYPHOID

HOUSEHOLDERS CAUTIONED.

How to Avoid Infection.

Typhoid fever is prevalent. Thoroughly boil all water and milk used for drinking; all water used for cleaning uncooked eatables and all used in brushing the teeth. Purify the water pipes; sink, cisterns and cisterns with Platt's Chloride. Places where disease germs may develop, nooks behind plumbing and all spots that can't be reached by the scrubbing brush should be freely sprinkled with a mixture of one (1) part Platt's Chloride and ten (10) parts of water. Do not neglect a liberal sprinkling of the cellar. To remove objectionable odors where sprinkling is undesirable, keep a cloth or sponge moistened with the solution mentioned. A little extra care just now may prevent much sickness and expense. Platt's Chloride is an odorless, colorless liquid disinfectant which instantly destroys foul odors and disease-breeding matter, and is sold by all druggists.

Mr. Weeks said that if the postal service were a private business those responsi-
