CRAIN AND PRODUCE MARKET

News Regarding Damage to Growing Crops Has Effect on Market.

WHEAT HIGHER AT THE OPENING

Corn Holds Stendy on the Strength of Wheat-Large Stocks Have Accumulated and Shipping Demand is Inactive.

OMAHA. Feb. 26, 1910.

Wheat was strong and higher again at the opening. News regarding damage to the growing crop is having considerable effect on the market. It is the chief feature in making prices and is the cause of the present advance. The new crop futures are stronger because of the large estimated stocks of 1909 wheat in farmers' hands yet.

hands yet.

The corn market is a weak proposition and is holding steady only on the strength of wheat. Large stocks have accumulated and shipping demand is inactive.

New grop features were strong and higher, due to heavy buying on crop news, which continues buillish. Receipts are only moderate and cash wheat brought 1/20 more vesterates.

moderate and cash wheat brought to over yesterday.

Corn hold steady, but unchanged, ruling very narrow throughout the session. Re-ceipts were lighter, but the demand was very light. General sentiment is bearish, but prices are held firm on the strength in wheat.

Primary wheat receipts were 709,000 bu. and shipments were 208,000 bu. against receipts last year of 506,000 bu. and shipments of 369,000 bu. Primary corn receipts were 655,000 bu. and shipments were 281,000 bu., against receipts last year of 855,000 bu. and shipments

of 400,000 bu.
Clearances were 272,000 bu of corn. 125 bu of oats and wheat and flour equal to 111,000 bu.
Liverpool closed 14874d higher on wheat and 44d lower on corn.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Feb. 26.—May wheat fell off from %9% today and the distant deliveries advanced in about the same degree. Corn and oats were easy and provisions advanced from 10030c, influenced by an improved demand and the prevailing high prices for live hogs. May pork made a record price of \$24.30.

Repetition of the recent crop damage reports was the principal bullish factor which was responsible for a slight advance in the price of the distant futures in the wheat pit. Much of the other news of the day was of a bearish quality, including a weak demand for cash wheat and large arrivals. Foreign markets falled to respond to a marked degree to the late advance in wheat prices here yesterday and were ignored in the pit. On the whole, the market was quiet, fluctuations varying from 1.2 inches.

Heaviness marked the course of the corn market throughout the session. May moved between 66%666%c and the other months showed less mobility. The close was steady, with May off 16%c, at 83%c. Trading in the oats pit was featureless. Frice variations were from 16%c, May selling at 47%646%c. The close was steady at from unchanged to 16c off. Final figures for May were 47647%c. %c lower than the last quotation yesterday.

Provisions easily outstripped the grains

the last quotation yesterday.

Provisions easily outstripped the grains in activity and ruled uniformly higher, May pork in particular making a sharp advance and touching \$24.80, the Dishest point since the leivil war. Lard and ribs also made good advances. Closing prices for the May products were: Pork, \$24.20, 22%c up; lard, \$13.07%, 10c up; ribs, \$12.75@12.77%, 12% @15c higher.

WEATHER IN THE GRAIN BELT For Sunday, Fair in Nebraska After a Colder Night.

OMAHA, Feb. 26, 1916.

The area of high pressure overlying the eastern portion of the country is moving alowly off the Atlantic coast. The depression noted in the preceding report as central over the Rocky mountain region on the country is moving in trough shape from Lake Superior southwest over the valleys to Texas. Light mows accompany the depression over the upper lake region and upper Mississippi valley, and rains are falling in the middle Mississippi valley. An area of high pressure, accompanied by decidedly coider weather, is moving in over the mountains from the Pacific coast, and this high will follow the low over the central valleys within the next twenty-four hours, and the weather will be colder in this vicinity tonight and will continue coid during Sunday, with partity cloudy tonight and Sunday. Threats of General Strike in Philadelphia and Reports of Damage to Wheat Unsettle Sentiment.

NEW TORK, Feb. 28.—The slock market remains largely in professional hands and the recession in prices today may be as-cribed to the disappointment of the pro-fessional element over the attempt to ad-

ressional element over the attempt to advance prices earlier in the week.

There were several items in the day's news that were regarded as prompting to caution in adopting assumptions as to the future. The threat of a general strike in Philadelphia in sympathy with the street car men's strike caused anxiety. The large number of reports of damage to the winter wheat crop in the southwest from the severe weather had a dampening influence on speculative temper and proved the growing influence of the crop situation on the securities market. Account was taken, also, of the reserve shown by the mercantile agencies in speaking of the commercial conditions generally.

Announcement was made of one or two important bond offerings and a canvass of the number of projected issues gave the

the number of projected issues gave the impression that new financing must be playing an important part in the money market for some time to come. The permarket for some time to come. The persistent strength in the foreign exchange market was an indication that further exports of gold might be a feature of next week's markets. The heavy volume of merchandise imports at the port of New York and the coming maturity of corporation note issues of which large portions are theid abroad explain this movement. The bank statement showed the cash decreased limited to about \$1,000,000 and the loan increases apparently due to taking over of loans from the trust companies. The feature of the statement was the heavy contraction of \$1,205,000 in the circulation item.

Bonds were irregular. Total sales, par-value, \$1,286,000. United States 2s and 2s advanced ½ and the 4s ½ percent in the bid price on call this week. Number of sales and principal quotations

Wethers have been in rather limited supply, the best kind here selling at \$7.50 in short, all kinds of sheep, common grades included, are easily a quarter higher than a week ago, with demand keeper than it has been in many months. with demand keener than it has been in many months.

Conditions in the lamb branch of the trade have been equally favorable to sele a. The Colorado run has started and prime stuff is moving readily at \$5,9029.10. The best kind of westerns here this week sold at \$2.25, which price is within a dime of hast May's record top, \$9.35. Mexican varieties were purchased as high as \$2.24. All in all, it has been a very healthy market and with present prices showing an advance of about he over last week's close. There has been very little actual husiness done in the feeder division owing to the small supplies, but such strings as were taken back into the country by shearers realized very satisfactory prices.

Bohemians for Recognition as Separate Race

Protest Against Being Listed in Coming Census Under Head of "Austrian."

CHICAGO, Feb. 26.—In the last for days Behemians in the United States by the statement of Mr. Hotchkiss, census manaccordance with the decision of congress to indicate political instead of racial divisions in the next federal census, they are to be designated as Austrians instead of Mr. A. J. Sabath, was almost buried under telegrams from all parts of the United States protesting against such a course. A great number of Bohemlans in the United States are naturalized citizens or citizens by birth, the rest having made at least their declarations of intention to be come citizens. Having thus renounced forever all allegiance and fidelity to the amperor of Austria, they cannot, of course, recognize the political adherence so reunced. They acknowledge only the racial division, because they keep in sacred remembrance their old country, with its great history and with its literature and art of high standing, is their pride, in the same manner as the Irish in the United States always remember their native land, Being exclusively Americans of Bohemlan origin, they never want to be called Aus-

The Austrian monarchy was born from

the ruins of the old German empire only 100 years ago. Originally in the middle ages there existed only little of the Margravate of Ost-Mark and a few Alpine dukedoms which were nearly lost sight of in the splendor of their neighbor, the kingdom of Bohemia. The introduction of the Hapsburg dynasty in 1982 united the Austrian territory, but still for a long time this Austria was without any great historical significance, because the kingdom of Bohemia, under Charles IV. the times of Hussite wars and under George of Podebrad, absorbed all the attention of the world. In 1526 Ferdinand J, archduka of Austria, as husband of Anna, sister of Louis, king of Bohemia, was elected king KANSAS CITY, Feb. 28.—CATTLE—Recelpts, 360 head; no southerns. Market

political independence, and their rights have been also several times recognized even by the present emperor. Thus an imperial message, addressed to the Diet of Prague on September 14, 1871, stated that sideration of the former constitutional position of Bohemia, and remembering the power and glory which its crown had, ferred on his ancestors gladly retaking the coronation oath.
