

UP TO COUNCIL—CONNELL

Responsibility for Dairy Inspection Disclaimed by Health Officer.

PRESIDENT BURMESTER KIDDED

Head of Aldermanic Body Admits He Found Money in His Milk Bottle—Veterinarians' Bill Subjected to Scrutiny.

Echoes of the drawn battle between Health Commissioner Connell and City Veterinarian and Dairy Inspector Young were still sounding about the city hall Tuesday.

"The responsibility is now up to the city council," said Mr. Connell. "The council may have any credit for better work in the line of dairy inspection if such is the result of yesterday's hearing, and it must also shoulder whatever kicking and fault-finding eventuates from the present undesirable condition."

The councilmen talked the matter over among themselves in little groups, and drew various conclusions.

"One thing I have noticed," said President Burmester, "since this agitation for better milk, cleaner dairies, sealed bottles and all that, the price of milk has gone up with a rush. I doubt very much if we are getting any better or as good milk as we were getting before the raise in price, and the experience of my neighbors is in line with my own."

"Yes," said Councilman Kugel, "and I have been told that at the home of the president of the council three nickels were found in the bottom of a bottle of fresh milk. Who knows what they were put there for? And who knows why that particular bottle should be left at the home of the president of the council?"

"The nickels were found in the bottom of the bottle all right," admitted Burmester, "but they didn't make much of a hit at my house. They indicated to us that perhaps all the bottles are not washed as carefully as they should be, in spite of the loud boiler for cleaner methods."

Bills of the city veterinarian for medicine furnished horses owned by the city are also the subject of some talk, but examination shows they are all itemized in due and proper form. No. 3 engine house seems to have had the most sick horses, or animals needing attention; but this is explained by the statement that the companies at that house respond to most calls.

"Anyway, those bills that pull the fire apparatus ought to be kept in the very pink of condition," said Councilman Davis. "We can't cut off their drug store rations, no matter what they cost."

Dr. Young reported at the health office as usual Tuesday and took whatever assignments were waiting for him.

Fake Advertising to Be Advertised

Omaha Ad Club in Movement to Expose Mere Money-Making Schemes.

"Fakers" in the advertising line—men who make a business of hypothesizing stunts of money from merchants and professional men for advertising that is practically bogus—will find a hard row to hoe in Omaha in the future.

Members of the Omaha Ad club took a first step in ousting the promoter of "fake" advertising from the city at their noonday luncheon Tuesday at the Rome hotel. A resolution was considered and referred to the executive committee which provides for a committee of protection, to consist of three men from the ad club and three from the Commercial club, which will look into all advertising games that are played in the city.

The resolution aims to hit especially a class of advertising men who print souvenier programs for the city or in other cities, which are mere money makers for the promoters.

A committee on advertising was appointed by President Ralph Sunderland to boost the ad show, with E. W. Harwood at the head. March 9 and 10, a committee of six will visit St. Joseph and Kansas City to boost the ad show, and March 1 and 2, a similar committee of twenty members will attend the northwest division of the Associated Ad club's convention at Des Moines.

S. H. McKelvie, editor of the Nebraska Farmer, addressed the club on "Advertising for the Farmer."

BELLEVUE GIRLS ENTERTAIN AND THE BOYS DEBATE

Young Women Give Annual House-warming—Miss DeWolfe Developing Into Strong Speaker.

The annual house-warming given by the Bellevue college young women of Pontiac hall was a big success.

With the exception of the commencement events this is always the most important social occasion of the school year.

Miss Carter and the members of the house board were in the receiving line. The rooms of the hall, all of them tastefully decorated, were thrown open to inspection. The large dining room on the first floor had been cleared of its chairs and tables and a stage was erected at one end. Here, after the rooms had been duly admired, a pleasing program was given. Miss Ohman, who was in charge of the "stunt" committee, proved herself a very ready wit. Much fun was had at the expense of the various college organizations. Several of the young men, including Prof. Willis of the Latin department, came in for their share of the fun. After the program refreshments were served.

Many out-of-town friends of the students made it an occasion for a short visit. Among those present were: Misses Elizabeth Pfann, Amy Bauer, Eva McNamara, Rosa Pfann of Nebraska City, Misses Margaret Jack and Houston of Tekamah, Miss Esther Gilmore of North Bend, Misses

The debating fever seems to be in the very air. Both of the college teams are working hard for the intercollegiate debates to be held March 11. The debate is a triangular one, three colleges being represented—Doane, Colver and Bellevue. Each college puts out two teams, the affirmative debating at home and the visiting team taking the negative. The question under discussion is: "Resolved, That the Commission Plan of Government Be Adopted by American Cities." The Manderson prize debate brought out the fact that Bellevue had two teams of considerable merit and hopes are high for the winning of both decisions.

In addition the freshmen are studying for the preliminaries that are to be held March 7. The winners will make up the freshmen team which will debate the University of Omaha later in the season.

Another district court jury has shown cruel disregard for the feelings of the City National bank. Some time ago Mrs. Mary Carlson sued for damages and received a verdict of \$2,900. Mrs. Carlson was living in a house at 2507 South Seventeenth street and stepping on a walk covering an old, partly filled-in cistern, suffered injury.

Another suit was filed in which her husband, John Carlson, was plaintiff. He asked for damages on the ground that he had been deprived of his wife's services and society and the jury, sitting under Judge Kennedy, awarded him \$1,900.

In both trials X-ray pictures of Mrs. Carlson's astragulus were shown the jury. The astragulus was fractured. It is a bone, tendon, joint or something somewhere near the tibia.

Pneumonia follows cold, but never follows the use of Foley's Honey and Tar, which stops the cough, heals the lungs and expels the cold from the system. Sold by all druggists.

Stores Bottled Beer. Can be obtained by the case from Chas. Stora, next door north of Stora Brewery. Prompt delivery to private family trade. Same prices as formerly. Phones Webster 120, Ind. B-194.

Don't Forget Try Hayden's First

The New Improved 1910 Detroit Ideal Gas Stoves and Queen Steel Ranges are now in. More improved and better than ever. They have a national reputation. Read below how well people who are using them speak of them. We sell them on small monthly payments or a cut price for cash.

Mr. Lovajoy, 2302 North 21st, said to us a few days ago: "You have been in the stove business a long time and seem to have learned the business. That gas stove we bought of you shows that it is simply extraordinarily fine. It is not only a much finer baker and warmer than our old one was, but it takes a great deal less gas and we bought our old one for a first-class stove."

We have sold Queen Ranges in Omaha sixteen years. It has proven to be a lasting range and an extraordinarily fine worker. We have sold the Detroit Ideal Gas Stove only two years and it has a reputation already.

THE STOETZEL STOVE CO.
