"My little girl had eczema and was cured by Cuticura Soap and Cuticura Ciniment. It first started with sores and blisters and was all over her body. She was just red all over and would scratch until it would bleed. It itched so that she could not sleep. I used different medicines but without effect. I washed her with Cuticura Soap and then applied Cuticura Cintment, which resulted in a perfect cure. I used one then applied Cuticura Cintment, which resulted in a perfect cure. I used one cake of Cuticura Scap and half a box of Cintment. Also, as a toilet soap, there is nothing better for pimples. OBJECTIONS TO SUGGESTIONS ON SEED CORN TESTING.

Dear Sir: I have seen an article in your last issue by the Omaha Commercial club saying that the corn is unfit for seed or a whole lot of it at least in Nebraska and telling the farmers to test their seed corn or have a big loss to them.

Now I think that the club thinks that the farmers is nothing but a dumb brute and don't know anything but work, aleep and work again, but I believe if the club tend to their own business it would be better for them and all, for we have seen our corn before they knew what corn looks like, and if they think they know our business better for them and all, for we have seen our corn before they knew what corn looks like, and if they think they know our business better than we do they had better come and show us and not talk smart and don't know anything but smoke cigars.

Now, dear people, I am not an old farmer yet, but I have picked seed corn for twenty years and I never failed yet, but I might fail this time and wish the club would come and pick my seed corn this time for I think our corn is better for seed this year than it was two years ago, so it is easier to pick seed from it.

I wish you would publish this so they can read it, so they know that the farmers knows more than eat, work and sleep over and over. ONE OF YOUR READERS.

Representatives of the Brotherhood of Lonotive Firemen and Enginemen of the fifty-seven roads operating west of Chicago, will confer Monday in Chicago with a ommittee of railway managers over the

W. L. Park, general superintendent of the Julon Pacific, leaves for Chicago Saturday night to attend the conference. C. V. Mo-Laughlin, chairman of the grievence comnittee of the Union Pacific branch of the firemen, is already in Chicago in conference with other chairmen, Mr. McLaughlin took with him the ballots of the firemen on the trike question.

In the meantime the executive comnittees of the trainmen and conductors are holding joint sessions at the Millard notel. Members of the committees will go no further than to say that they are not concerned in the troubles of the firemen. However, it is believed action will be taken by them in case the firemen deide to strike.

"The firemen are ready to strike," destared a conductor. "There is no question about that. If the railroad managers do not come across with an increase in wages there is going to be trouble on the rail-

roads next week." The result of the secret vote of the fireen will not be announced to the public ntil the railroad managers and the men reach a decision of some kind. If the men are turned down on their demands, it is certain a strike order will be issued.

North Presbyterian church. Dr. Jenks, who preached the sermon, emphasized the part sacrifice played in the Christian religion and said that no life was really great until it learned to throw tself away. The highest and best expression of the Christian life was to be found n Jesus Christ, who took up the cross and despised the shame and was now sitting

upon the right hand of God. Rev. Julius Schwarz delivered the charge to the paster and dwelt upon the opporunities Omaha presented to any man who was in earnest in the work of the Lord. If they, he said, preached anything else than that Jesus Christ was divine, they were only wasting their time. Speaking of the care of the young people of the congregation, Mr. Schwarz said they would not need any wild fire revivals if the minister looked after the lambs of the flock. The pastor should be a fearless reacher of the word of God for that was, he affirmed, what the people came to the

church to hear.

with the benediction.

Rev. M. V. Highee in addressing the congregation, urged them to work in harmony with their pastor, to move him and show sympathetic interest in his work. The act of installation took place after the sermon and following the answering of the prescribed questions, Dr. Phelps of fered up the ordination prayer. The new pastor concluded the service
