Store Talk

The secret of satisfying customers is the result, to a great extent of a salesman's experience. An inexperienced salesman may have ever so good intentions and yet misfit or misinform a customer. You take no such chances here—every clothing salesman in this store has had at least ten years experience. They understand what constitutes good clothes and what is meant by a correct fit.

Their experience and our great stock is a first aid to the seeker after clothes satisfaction. You don't find such conditions in many stores, and it certainly should appeal to men who care.
