It transpires that Mr. Singer was not in the city, that he has had no negotiations with Messrs. The only truth in the statement made by Mr. Harris is that he is agent for the Singer attractions.

6 BRANCH PIANO STORES

Located at CCLUMBUS, NEB.; PLATISMOUTH, NEB.; DANBURY, NEB.; DAVENPORT, NEB.; ROCE RAPIDS, IOWA, and HAWARDEN, IOWA.

These branch stores were closed because of the increasing demand of retail plano dealers in Nebraska and lowa for the agencies for our artistic Hand Made Schmoller & Mueller and our other lines of planos.

We closed these branch stores in the above cities only, and moved all the highest grade planos here to our Omaha warerooms, 1311-1313 Farnam street, then turned the required territory over to our wholesale department.

HERE IS OUR PREDICAMENT—Before making the above decision we had augmented our requirer stock with heavy purchases from the great eastern factories, and not having enough room to store these planos, we will be compelled to either rent additional floor space or sacrifice a large portion of these plano stocks.

We prefer the later, giving to the people of Omaha and the middle west the benefit of this unprecedented plano purchasing opportunity, as we know that it will make thousands of friends for the hours of Schmoller & Mueller, although it means a direct loss of thousands of dollars to us.

When you hart yourself you rub the spot. When your head aches you rub your temples. Why? Because vibration is Nature's own remedy, and rubbing is Nature's crude way of creating vibration and starting the ood to going. Disease is only another name for constion. Where there is disease or pain there you will find the blood congested and stagnant. There can be no pain or disease where the red blood flows in a rich and steady stream. Good circulation means good health. Congested circulation means dis-ease and pain.
