FAMOUS SEA CAPTAIN'S GRAVE

Resting Place of Noah Discovered Far from the Turbulent Waters.

A tremendous weight of sorrow will be lifted from the hearts of a long-suffering people, we fancy, when it becomes generally known that the grave of Noah has been definitely located by a certain scientific expedition.

Noah was a most picturesque individual. He was an extremely wise man in his generation, for he had some foresight in regard to the rain when, according to the record, getting in out of the rain was all but universally considered extremely foolish and ill-advised.
