Little Action in Wheat After First Offering. OPENS WEAK, BUT MAKES RALLY

Dullness Prevails Till Government Report on Farm Reserves Comes Out. Then the Cloud is Dissolved.

OMAHA, March 8, 1910.

There was little action in the wheat market after the first offering had been absorbed. The market opened weak on lower cables, but rallied after an local covering of shorts.

Wheat opened weak on lower cables and further liquidation. With the government report the market opened steady, and all figures sent out being construed bullish.

The corn market weakened further in face of a better demand and some buying. Cash start was a ready sale with bids a trifle, but are expected to drop off in the next few days.

NEW YORK STOCKS AND BONDS

Dullness Overcomes the Market After Lively Hour at Opening. STEEL RISES LATE IN THE DAY

Its Advance in Face of Heavy Sales to Realize Has Encouraging Effect on Speculating Sentiment.

NEW YORK, March 8.—The dullness which overcame the stock market after the lively dealings of the morning was due to discouragement over the advance in efforts made to continue the advance in the most material.

The determination of the New York City financial committee to issue a \$40,000,000 issue of corporate stock at 4 1/2 per cent did not have a harmful effect, as the problem and an assurance of the success of the offering by agreement with the bank.

The action of the wheat market on the first news of the government estimates of farm reserves was not in the light of the highly speculative condition of the market.

The 123,456,789 bushels estimated in the hands on March 1, call for revision of the price relations in the trade.

An excellent effect was produced by the participation in the New York bond issue.

Participation in the New York bond issue, unfavorable to the price of the railroad bond issues abroad last week helps.

Bonds were irregular. Total sales, \$3,467,000. United States bonds were unchanged on call.

Number and principal quotations on stocks today were:
