ENGINEER DIES OF INJURY

William Gilmore, Who Ran First Engine After the Big Strike, Succumbs.

NEBRASKA CITY, Neb., March 8.—(Special.)—William H. Gilmore, the Burlington engineer who was badly injured in the wreck Sunday night east of here, died Monday. He was born in West Lebanon, N. H., October 31, 1862, and went to work for the railroads when he was 15 years of age, and at 18 was in charge of this engine as engineer. He came to this state in 1890 and went to work for the Burlington. He ran the first passenger train out of here during the strike of 1887 and was on that run until a year ago, when he was transferred to the run between this city and Nebraska City Junction. He was married to Miss Nellie Gordon of this city in 1888 and to that union was born ten children, eight of whom survive him. He was a member of the Ancient Order of United Workmen, Degree of Honor and Tribe of Ben Hur. His funeral will be held Wednesday and will be under the direction of the Ancient Order of United Workmen. Paul Ash, the fireman who was injured at the same time, is some little better and it is thought he will recover.

New Commissioners at Pierce.

PIERCE, Neb., March 8.—(Special.)—Burt Fuebler of Logan precinct was selected to fill the vacancy of county commissioner occasioned by the resignation of Albert Bloyh, who left last week for South Dakota. Fuebler purchased a farm near Cottonwood. The selection of Fuebler was a great surprise as everyone, as the democratic leaders of Pierce had sent out the word that George Fox of Logan precinct was to be the favored one and no other need apply.

Platte Rising at Kearney.

KEARNEY, Neb., March 8.—(Special.)—has not resulted in any damage to the Platte river bridge at this point. A big jam is reported west of the bridge a few miles from Kearney, and the bridge is free from ice and debris, and no trouble is looked for. The bridge at Gibben went out Sunday afternoon. The continued rise of the Platte river

Nebraska News Notes.

BEATRICE—The American Express company will establish an office in this city, April 1. ELSTIS—Miss Maud Reynolds has closed a successful term of school in the Easter-day district, northwest of town. BEATRICE—John Shaffer, a 15-year-old boy whose home is in Cortland, had his leg broken in a runaway at Cortland. KEARNEY—A marriage license was granted in Judge Hallowell's office to Leon F. Webber and Miss Anna E. Sayback, both of Shelton. BEATRICE—E. M. Mittan of Liberty was granted a decree of divorce from Christena Mittan on the grounds of cruelty and desertion. BEATRICE—George Campbell of Wynmore yesterday tendered his resignation as a member of the Board of Supervisors. He will go to work for the Standard Bridge company. KEARNEY—A new manager has taken charge of the Postal Telegraph companies office in this city. Harold Stein having resigned to leave shortly for Idaho. M. J. Armstrong has taken the place. KEARNEY—William Nutter appeared in county court Monday and pleaded guilty to the charge against him for keeping his 14-year-old daughter from school. The defendant was fined \$10 and costs and served with a notice to send the girl to school. KEARNEY—A robbery has been reported at Miller, this county. A burglar broke into a grocery store and a drug store and stole about \$2 worth of merchandise. Bloodhounds were brought from Lexington, but they were unable to follow the intruder. SUTTON—Rev. John Calvert of the Methodist Episcopal church united in marriage Annie E. Brown and Miss Edna Simmerman. Among the out-of-town guests were Mr. and Mrs. Clyde Simmerman of Colorado. The young people will make their home in Sutton. SUTTON—Mrs. Leontina Dahlgren died

Good Time Now

Nebraska MONEY PAID TO RAILROADS

Statistics Given Showing What the Various Cities Pay In.

HOW NEBRASKA TOWNS LINE UP

Schuyler of Smaller Cities Makes the Greatest Increase—Omaha and South Omaha Give Third.

(From a Staff Correspondent.)

LINCOLN, March 8.—(Special.)—Statistics showing the money received by the railroads from the sale of tickets, freight forwarded and freight received for the last year shows the ambitious smaller cities of the state line up in this position: Grand Island, first, \$2,245,837.97; Fremont, second, \$2,033,313.90; Beatrice, third, \$2,027,670.62; Hastings, fourth, \$1,095,400.39; Kearney, fifth, \$45,372.22; Nebraska City, sixth, \$45,335.12.

In the above group, Nebraska City shows a decrease of about \$10,000 compared with the year before, while Fremont shows a decrease of about \$10,000. The other towns mentioned all show an increase.

Compared with last year Omaha and Lincoln show increases, while South Omaha shows a decrease. For 1909 Omaha paid to the railroads \$10,106,917.25, compared with \$10,302,954.34 for the last year; Lincoln paid to the railroads in 1909 \$3,000,956.06, compared with \$2,675,971.18. In 1908 South Omaha contributed \$5,610,449.39, compared with \$5,875,971.18.

Of the smaller cities Schuyler made the greatest increase of any town in the state, its increase being \$124,000. In the amount of the increase Schuyler ranks next to Omaha, which increased its expenditures with the railroads some \$254,000.

The total revenue for the entire state received by all the railroads for 1909 was \$4,612,129.12, the total revenue amounted to \$29,546,111.07, and South Omaha contributed almost one-third of the revenue.

Alfalfa Rate Stays Down.

The Burlington railroad has been refused permission to increase the rate on alfalfa hay from Scott's Bluff to Omaha from 20 to 25 cents. The offer of this permission was refused by the Interstate Commerce Commission this morning, after having received protests from the Omaha Commercial club and the Omaha Alfalfa Meal company.

It was set out by the company that when the Peters company's plant at Omaha burned some time ago the rate on alfalfa hay was reduced from 25 to 20 cents per 100 for the benefit of that company. Now that the company has got on its feet again the railroad desires to restore the old rate, and with its application was filed a statement from the Peters company waiving objection to the increase.

Those who protested, however, set out that the Peters company had established mills out in the state and was now shipping to Omaha the finished product and no longer was it interested in the rate on alfalfa hay.

In addition the protestants set out that only recently the Burlington received permission to reduce the rate on the finished product from 24 cents to 21.4 cents per 100. It was also set out that the Burlington was hauling hay to Kansas City from Scott's Bluff for 25 cents, when the distance was much greater than to Omaha. For the reasons set out the commission refused to permit the company to restore its old rates.

Missouri Pacific to Fight.

The Missouri Pacific railroad will fight the Barios act, which provides that railroads shall maintain at depots a telephone for the convenience of the public. That is if the railway commission insists upon the installation of a telephone at Burr. The company this morning agreed to put in telephones at Murray, Elmwood, Eagle, Weeping Water, Nebraska, Louisiana, Cook, Panama, but it refused to install one at Burr.

Beman After Kinkaid.

Frank Beman of Kearney, candidate for the republican nomination for congress in the Sixth district, was in the office of the secretary of state this morning checking over the vote cast at the last election in that district. It was reported Mr. Beman was getting little more than a weak piece of his opponent, Congressman Kinkaid.

Express Rates on Poles.

It is just as cheap now to ship an undersized pony by express as it is to express an oversized colt. The railway commission issued an order that hereafter the express companies should charge 45 for shipping a 700-pound pony or a colt not crated, and where crated and the weight is 900 pounds the charge shall be the same. If the express companies handle the shipment each shall receive \$2.50. If the animal weighs more than 700 pounds it is to be expressed as a horse.

Shirt Box Next.

The school board has instructed its secretary to purchase a small strong box in which to keep the "frat" pins of the boys who were suspended and then reinstated. No order has yet been issued to Principal Mays to purchase a shirt box for the safe keeping of the bargain sale brown shirtwaists of the girls about which the inquiry. This may come up at the special meeting Friday night.

Telephone Complaint Filed.

Attorney General Thompson has drawn a complaint against the Nebraska Telephone company for furnishing free telephones to the county officers at Beatrice and a complaint against the Home Telephone company of that city for furnishing telephones to city officers for a less rate than charged other subscribers. The complaint will be sent to the county attorney of Gage county to file. The proceedings were taken at the request of the State Railway commission.

Officers Pass Examinations.

The following officers have passed a satisfactory examination as required by general orders No. 22, adjutant general's office, series 1909, have been commissioned by Adjutant General Hartigan: Colonel George A. Eberly, First Infantry; Colonel Fred J. Mack, Second Infantry; Lieutenant Colonel H. Elton Clapp, Second Infantry; Major George A. Heath, medical department; Major A. J. Hollingworth, First Infantry; Captain G. K. Peterson, Second Infantry; Captain Charles G. Adams, assistant quartermaster; Captain C. L. Brewster, First Infantry; Captain Herbert T. Weston, first machine gun company; First Lieutenant E. J. Shinn, first machine gun company; First Lieutenant R. Beers, First Infantry; First Lieutenant E. L. Hovelone, First Infantry; First Lieutenant J. E. Taylor, medical department; First Lieutenant A. W. Loeber, First Infantry; First Lieutenant E. D. Walden, First Infantry; Second Lieutenant M. D. Baumer, First Infantry. The following was the attendance at the government inspection of the National Guard: First brigade—Officers, 44; enlisted men, 418; absent officers, 5; enlisted men, 84; per cent absent, 17.8. Second Infantry—Present, officers, 23; enlisted men, 375; absent officers, 6; enlisted men, 78; per cent absent, 17.5. Signal corps and first machine gun company, all present; hospital corps, 33 per cent absent.

Wait Gets Endorsed.

Addition was made to the endorsement of state last night by Union veterans' Republican club of Lincoln. Cap-

Nebraska

tain Baird introduced the resolution, which provided that the soldiers were getting of dand it would not be long before they would be unable to ask for any office, therefore they requested that the republican party endorse their candidate, Mr. Wair.

DEED REVEALS MARRIAGE

Young Man Admits Secret Wedding When He Transfers Land.

NEBRASKA CITY, March 8.—(Special.)—Through the filing of a deed in the county recorder's office yesterday it was learned for the first time of the marriage of Harry Hawke. He kept the matter very quiet, and when he became 21 years of age yesterday was to receive a share of his father's estate. He had to make known the fact he was married, because of the transfer of some real estate. He is the oldest son of the late William Hawke, and through him came into considerable property on reaching his majority. The marriage was a surprise to many friends as well as his relatives.

Hamilton County Pioneers Gone.

HAMPTON, Neb., March 8.—(Special.)—F. M. Timblin, a Hamilton county pioneer, passed away at 4:30 p. m. Sunday. He first settled on a farm near Weeping Water in 1853, coming to Hamilton county in 1874. He lived on a farm northwest of Hampton until 1883, when he moved into town, where he served several terms as justice of the peace, and always took a leading part in everything good and the better interests of the town and county as well as state and the United States. He removed to Weeping Water in 1896 to make that place his home, and came here about six weeks ago to visit his daughter and was taken with pneumonia a few days after he came. He became very deaf and was almost blind, and since he could not see to read, said he had no desire to recover. He leaves a wife and six children. Alva Timblin lives in Omaha, Levi, Wisner; Elv, Fairbank, Okla., Mrs. Vernie Weeks, Scott; Miss Margaret Welch, Hampton, and Miss Myrtle Timblin, Omaha. The funeral was held from the residence of his daughter, Mrs. Welch, at 2 p. m. Monday.

Donne Debater is Dead.

CRETE, Neb., March 8.—(Special.)—A severe affliction has come to Donne college in the death of J. Arthur Werts of Trenton, a bright and popular student. He was operated upon for appendicitis last Friday and died Monday morning a little before 7 o'clock. Mr. Werts was to have been one of the debaters to go to Bellevue next Friday night. He played left field on the baseball team last season. He was a fine tennis player and during the last two years took leading parts in operas presented by the musical department of the college. College exercises were given up this morning from 10:30 to 12:30 and all the students and the faculty escorted the body to the train.

Efficacy of Chamberlain's Liniment in the relief of rheumatism is being demonstrated daily.

Nebraska

FRATS FAVOR HONOR SYSTEM

Lincoln Greek Letter Societies Move Against Cheating.

CHANCELLOR IS ENTHUSIASTIC

"Means New Life for State University," Says Dr. Avery—Princeton and University of Virginia Have Similar Code.

(From a Special Correspondent.)

LINCOLN, March 8.—(Special.)—The fraternities of the University of Nebraska at a meeting tonight of thirty delegates from the various Greek letter societies of the school, adopted the honor system for university work in an effort to do away with the cheating and cribbing evil that has for many years existed at the state university. The honor code as adopted tonight pledges every fraternity man of the university to lend his aid in checking the unsavory methods employed by many students in examinations to secure passing grades.

By Chancellor Avery and several members of the university senate, the movement inaugurated by the Greeks tonight is regarded as one of the most important events in the history of the institution.

"The work of the fraternities of Nebraska tonight," said Chancellor Avery, "means the beginning of new life for this state university. It means that Nebraska's standard of scholarship and its ideals are to be regarded with pride by every Nebraska alumnus in the country. Nebraska's example will soon be followed by other great universities. The 'cribber' and the 'cheat' at Nebraska has heard his death knell sounded by the fraternities of this school."

Working Rules Adopted.

The code of honor as drawn up by the Greek letter societies declares the sentiment of the new system in the following words: It is an action incompatible with honor to cheat or assist in cheating at any test or examination. Any trick, fraud or false report which completes credit is dishonorable. It is not a mean or unworthy action for one privately to apprise a fellow student of a violation of the provisions of this code or to report to the Board of Honor, as hereinafter provided; any student who continues his infringement of the code after having been privately apprised of the violation.

To enforce the punishment of the offenders against the moral regulations the fraternities have provided for a board of honor, which shall be composed of one active senior member from each fraternity and an instructor from the university senate. All cases against students are to be reported to this board, which shall make recommendations to the chancellor concerning expulsion from the university.

If, on trial of the student, it is ascertained that he has violated one of the provisions of the foregoing part of this article he shall be recommended to the chancellor for immediate expulsion. If the offender shall have broken rule

HALF-MINUTE STORE-TALK

"I never had so many coats to fit me as I've found here," said a man of irregular build the other day. He was surprised—and agreeably so. It must be a surprise to any man of unusual proportions, after traveling around from store to store where suitable garments are found in such limited assortment—to walk in here and find a variety like ours to choose from. Then too, it must be a great surprise to find out that here they are perfectly fitted in a manner entirely unknown in the ordinary clothing store.

King-Swanson Co. 10 S. HOWARD ST. "The Home of Quality Clothes"

How about a Top or Raincoat?

We haven't had weather to suggest rain-proof coats as yet—but it is just as certain to come as that this store is the best place to get them. Any way, if any such unheard of thing should happen as that this would be a rainless season—you will surely need a top coat—even now it is too warm for a winter coat and too cool to be coatless. Those new Slip-on coats will be in sprightly demand when rainy days arrive. Better have a little chat with us on the Spring over-garment question.

Rain and Top Coats \$10 and up Slip-on Coats \$5.00

2 of the code, he shall be recommended to the chancellor for the loss of all his credit for the current semester and shall be permitted to remain in the university on probation. For a second violation of rule 2 of the code, the offender shall be recommended for expulsion.

In order to bring the cases of cheating students before the honor board the fraternities have provided for the following plan of reporting: Whenever, in the opinion of any fraternity man, the actions of another fraternity man are such as to constitute an infringement of sections 1 and 2 of the code of honor, and whenever he shall have privately apprised the offender that the offense has been detected and such offending student continues in his infringement of the code he may then promptly report the name of the offender to the president of the board.

Provide Opportunity for Defense. In no case will the name of the offending student be made public until he has had a fair trial and has been proved guilty of the charges brought against him. In all cases the accused shall have an opportunity to appear before the board and make a defense.

The present honor system does not become binding upon any student excepting those who are members of fraternities. Non-fraternity men will still be without

a check upon their "cribbers." As soon as the fraternity plan is well under way, thought, it is thought that the movement will spread over the entire school and include all students of both sexes.

The only two prominent schools of the United States that now have the honor system in force are Princeton and the University of Virginia. At both of those institutions it has proved a success.

The Nebraska honor system goes into effect at once, and will find the fraternity men taking tests "on their honor" at the midsemester examinations next week.

Dangerous Surgery. In the abdominal region is prevented by the use of Dr. King's New Life Pills, the painless purifiers. 25c. For sale by Beaton Drug Co.

Religious Education Convention. NASHVILLE, Tenn., March 8.—The seventh general convention of the Religious Education association convened here today with a large number of delegates from every state in the union in attendance. George A. Cos of New York, president of the association, arrived this morning. The "Education of Church Workers" was the topic of discussion at the opening session.

The heart of the home

The heart of a house is its warming outfit. A house warmed by old-fashioned heating is a half-hearted, cold-hearted place. What the heart is to the body, Hot-Water or Low-Pressure Steam is to the home.

AMERICAN & IDEAL RADIATORS & BOILERS

will do for every room in the house what the heart does for every part of the human system. IDEAL Boilers and AMERICAN Radiators do not heat a building in spots, but radiate clean even heat ALL over the building.

Wherever used, the IDEAL Boiler becomes the strong, steady, silent, unbreakable heart of the heating outfit, which does more for the comfort of the home and brings about greater savings than any other material feature entering into the building.

ADVANTAGE 17: In each size of IDEAL Sectional Boilers there is equal water circulation coming in at the foot of both legs of the section, pressing upward at the side of and over the hottest fire. The largest amount of heating surface takes the direct action of the fire. Boiler success does not depend on the amount of surface in both the fire-chamber and the flues, but on the area of correctly posed direct fire-to-water heating surface against which the fuel lies, or the fire shines. In IDEAL Boilers every ounce of fuel is made to yield its full value of heat. Ask for book (free) telling all the ADVANTAGES of "Ideal Heating."

These outfits can be put in without tearing up, annoyance to occupants, or disturbing the old heating methods until ready to start fire in the new. Tell us the kind of building you wish to heat. Prices now most favorable, and you get the services of the most skillful fitters. Ask for our free book, "Heating Investments Successful."

A No. 24 IDEAL Boiler and 275 ft. of AMERICAN Radiators, costing the owner \$190, were used to heat this cottage, at which price the goods can be bought of any reputable, competent fitter. This did not include cost of labor, pipe, valves, freight, etc., which installation is extra and varies according to climatic and other conditions.

IDEAL Boilers have large fuel-pots in which the air and coal-gases thoroughly mix, as in a modern gas or oil burner, thus extracting every bit of the heat from the fuel. None of the heat is wasted up the chimney.
