### Dry Shampoo Better Than Soap and Water

(From The New York Graphic.) Once in two or three months is as often as it is advisable to wash the hair with soap and water," says Claribel Montague, the beauty expert. "The rubbing drying and rinsing, together with the action of the alkali in the soap-especially the alkali-tend to make the hair coarse hard and brittle. Too much moisture causes the hair to become thin and lose its color.

"A simple and satisfactory dry shamped is made by mixing four ounces of pewdered orris root with four ounces of therox. Sprinkle a tablespoonful of this mixture on the head and brush thoroughly through the hair once or twice s That is all there is to it This treatment not only keeps the hair light, fluffey and lustrous, but therox produces the growth of new hair,-(Adv.)
