INSURANCE RATES DIFFER

Auditor Inquires Why Charges on Same Hazard Are Not Same.

HASTINGS HAS LOW CHARGE

War on There, While Other Nebranka Cittes Pay Much More-Still Want Crabtree to

(From a Staff Correspondent.) LINCOLN, March 5 .- (Special.) -- State Auditor Barton is making an effort to prevent discrimination in rates charged for fire insurance by companies in Nebraska. He has received evidence that many companies charge less for a policy in some ocalities than in others on the same class of risks and even in the same localities he has evidence that there is discrimina-

It has been reported to him that while there is a rate war on at Hastings insurance is being written for 10 cents a hundred, while in Lincoln the rate on the

same class is \$1.20 a hundred. Before making any order # taking any desired he has sent to the various compunies the following letter:

It has been repeatedly brought to our notice that there exists in this state conditions of flagrant discrimination in the matter of the rates being charged by fire

matter of the rates being charged by fire insurance companies.

It is well known that the prevailing rates I none community are extremely low, while in another community of the same class and having the same fire protection the rates are very much higher and probably much higher than necessary, owing to the inadequacy of the rates in the places first referred to.

We believe that the rates in one locality report it went through a big fight behind.

We believe that the rates in one locality report it went through a big fight behind should be exactly the same as in every other locality or town presenting the same fire physical hasard and having the same fire per treasurer only in name and therefore

ITCHING OF SCALP INTOLERABLE

Nearly Wild with Painful, Burning Eruption-Half Her Hair Fell Out and Combing It Was Torture— Feared She Would be Bald.

IN DESPAIR UNTIL CURED BY CUTICURA

"Just about two years ago, some form of humor appeared on my scalp. The beginning was a slight itching but it beginning was a slight itching but it grew stoadily worse until, when I combed my hair, the scalp became raw and the ends of the comb-testh would be wet with blood. Most of the time there was an intolerable itching, in a painful, burning way, very much as a bad, raw burn, if deep, will itch and smart when first beginning to heal. Combing my hair was positive terture. My hair was long and tangled terribly because of the blood and scats. This continued growing worse and over half my hair fell out. I was in despair, really afraid of becoming totally hald.

"Sometimes the pain was so great that, when partially swake, I would content the worst places so that my finger-tips would be bloody. I could not alcop well and, after being selsep a short time, that awful stinging pain would commence and then I would wake up

commence and then I would wake up nearly wild with the torture. A neighbor said it must be sait rheum. Having used Cuticura Scap merely as a tolled scap before, I now decided to order a set of the Cut 4 ran Remedies—Cuticura Scap, Ointme I and Fills. I used them scoording to directions for perhaps six weeks, then left off, as the disease seemed to be eradicated. But toward spring, eighteen months ago, there was a slight return of the scalp humor. I commenced the Cuticura treatment at once, so had very little trouble. On my scalp I used about one half a cake of Cuticura Scap and half a box of Cuticura Ointcommence and then I would wake up I used about one half a cake of Cuticura Scap and half a box of Cuticura Ointment in all. The first time I took six or seven bottles of Cuticura Pills and the last time three bottles—neither an expensive or tedious treatment. Since then I have had no scalp trouble of any kind. Standing up, with my hair unbound, it comes to my knees and had it not been for Cuticura I should doubtless be whelly bald.

"This is a voluntary, unsolicited testineonial and I take pleasure in writing it, hoping my experience may help someone else. Miss Lillian Brown, R. F. D. 1, Liberty Me. Oct. 29, 1909."

Cuttim Reposite are seld throughout the world.

Cit'rira Renedles are sold throughout the world. Port & Drug & Chem Corp., Bule Props., Boston, Man. and Mailed Free, Cuticura Book on the Shin.

Dry Cleaning Talk Number 8

It Does Not Injure Color or Fabric

T IS CLAIMED for Dry Cleaning that it will not injure color or fabric, which statement is trueyet there are many women who will say they have had silk waists or dresses come home from the cleaner full of holes and absolutely worthless. Of course the cleaning blamed for the holes, but close inspection of the garment will show that wherever there is a hole there had been an old perspiration stain, or some other stain, that had destroyed the strength of the fiber and the cleaning caused it to break No sound fabric is ever injured by Dry Cleaning.

In our plant, goods are carefully nspected before cleaning and if we

should be exactly the same as to the larger property owner on the same class of risk. The laws of our country in the recent past have frowned on a quasal-public business that had in its makeup discrimination between patrons.

The insurance department of this state desires that discrimination in this line of business ceams.

usiness cease. We firmly believe that were we to make We firmly believe that were we to make the ruling that a company making such discriminations would have its license re-voked, we would be sustained, but we trust that rather than invite drastic measures by the department, the companies will ad-just their business in a manner as not to occasion this action.

Omaha Man Calls for Blanks. W. F. Chambers, 1811 Spencer street Omaha, has written-the secretary of state asking for blanks upon which to file as candidate for the congressional nomination in the Second district. Mr. Chambers asked that he be informed of the amount of the filing fee and given other information regarding the way to file. He did not

Poulson Whips 'Em. The board of trustees of the Anti-Saloor league, which met this afternoon, was thoroughly spanked by the Rev. Poulson, who was in turn voted an increase in salary from his \$1,800 a year.

intimate who is to be the candidate.

There was big talk this morning and there has been big talk for several days that Thomas Wimberly, the Rev. Battan and the Roy. Fellman of Omaha were drastic means to bring abow, the reform going to put the rollers under the imported boss of the league, but when the time for action came there was nothing doing. Mr. Poulson held the whip hand and everything was a peaceful as it could be so far as the outside public knows. Mr. Poulson, Lysle Abbott and Chancellor Davidson of

been treasurer only in name and therefore no report to make, as Mr. Poulson had handled the money. In this Mr. Guile found he was mistaken, for he had to read the report made by the imported

Rev. Mr. Feliman took exception to the eport because it did not contain provision for the payment of some \$900 he said the league had promised to assume of the obligations of the Omaha anti-saon league when the state leagues allowed

President Warrick very hotly retorted that he himself had sent \$100 to the Omaha bunch, which was the last that had been promised at the time of the consolidation This aroused W. R. Patrick, who, though not a trustee, managed to get into the meeting. He told of the contract and it is said he really produced it, showing that the state league promised to assume that \$900 obligation. Then Mr. Feliman got mad because he did not want it even intimated that he stretched the truth, and he talked about that for quite a while, but there was no demonstration.

Finally someone suggested that a committee had been appointed to look into that Omaha claim, so the matter was declared closed until that committee reports.

About this juncture Mr. Poulson con cluded it was time to get in his licks for a raise in wages, and so it was proposed to pay him \$2,500 a year. This was objected to, and finally he agreed to accept \$2,000. Lysle Abbott objected to the increase because he thought the league was far nough behind now financially.

Then was appointed the committee with nstructions to give out a statement that there had been no trouble of any kind and everything was harmonious. The committes also included in its reports that all political parties must endorse county option

Bitter Against Crabtree. the decision of the board, and it is very Lincoln Friday, Mr. Crabtree will be summarily dismissed. tI is known that at least three members of the board will be Treasurer Brian believes the board owes

Increase Telephone Rates. The Albien Telephone company has rethink a garment will break out in ceived permission from the State Railway cleaning we call the customer up commission to charge the following rates: and tell her of our fears and if Individual business telephone, \$2.25 per she doesn't care to take the month; two-party line business telephone, responsibility we return the gar- \$2; individual residence telephone, \$1.50; ment without attempting to clean two-party line residence telephone, \$1.35; it. It is our aim to turn out the four-party line, \$1 per month; farm lines, very best quality of work possible \$1.25 per month. Town people who pay in and at reasonable prices. Try us, advance by the 19th of each month are entitled to a 10 per cent reduction, while the farmers may secure a 10 per cent reduction if they pay six months in advance. The company made application to charge \$2.50 a month for individual telephones, but

the commisson thought it more equitable and fair to charge the rates as given Amenda Cross-Petition. The application of the citizens of Have-

lock for a 5-cent rate from Havelock to Lincoln via the traction line was discussed before the Railway commission this morning, with Mayor Love of Lincoln present. The traction company was given ten days in which to amend its cross petition to include University Place and College View in the 5-cent rate. The rate now charged to those places as well as in Lincoln is six tickets for E cents. The company insists that if Havelock gets a reduced rate it will be necessary to increase rates in Lincoln or to cut out the 5 per cent occupation tax

touted by the alty.

WEATHER KILLED GERM

Below Zero Too Much for Grain that Had Become Saturated with Moisture from Previous Snow.

WATERLOO, Neb., March 2 .- (Special.)eorn is well founded a the opinion of J. C. Robinson of the Robinson Seed company. Mr. Robinson is also president of the Amerperations in the seed line makes a state-

ent from him authoritative. "The condition of seed corn," he declares, 'has not been overrated. In fact, no such crisis for the farmers has existed before in the twenty-two years I have been in erested in seed corn. When our rains ommenced on November 12 last corn was rather above an average condition, both as regards moisture and vitality. About three weeks later, when the first snow came it had taken up or absorbed much moisture. but vitality still remained good. The first snow was followed by more until the first week in January, when the thermometer dropped to about 20 degrees below zero and this practically destroyed the germ in all corn containing over 16% per cent of house, mositure, although a few cribs containing I per cent more have shown good vitality, but these were cribs that had come protection from the extreme weather.

"We have found that an average of 25 per cent of the corn in eastern Nebraska still retains a vitality of 90 per cent or better. These crops that remain good are mostly the thin grained, earler varieties, with small cobs; the thick, heavy grained, tected from the weather by husks are low their last respects to their comrad. vitally, thus showing that corn above the Mr. Steele came to Fairbury in 1871 and protected.

We have made thus far this season planting their own corn, with perfect assurance that it is good and can hardly believe it will not grow even when confronted with actual results. An average of 85 per cent vitality is good for the year, but many fields will doubtless be planted with untested corn even after all the agitation on the subject."

rier, A. E. Pyle substitute. Leah P. White has been appointed post Senator Burkett's bill authorizing the master at St. Charles, Gregory county, S. D., vice L. K. McFadden, resigned.

A Single Cup Correctly Brewed

Proves the merit and satisfaction there is in Postum. But it is often only half brewed and the result is often unjust condemnation.

There are no "grade" of Postum. Every package is the same. It is the steady boiling, for at least fifteen minutes after boiling begins, that gives a cup of Postum its fine, snappy flavor.

If your first cup

POSTUM

Was not satisfactory, the fault was in the brewing -it must be boiled until it is dark and rich-don't attempt to make it as you would make coffee, but remember-

The longer Postum is boiled the better it is!

Well-made Postum served with good cream, has a flavor distinctly its own, and not unlike that of mild, high-grade Java coffee.

The best proof of the value of Postum is found in the clear brain and steady nerves which follow its use as the regular daily beverage in place of coffee or tea.

Postum-made of clean hard wheat (including the bran-coat with its "vital phosphates," grown in the grain)-quickly assists in rebuilding the wornout body cells, because it contains these valuable elements in liquid form; in fact, it is a very palatable liquid food.

After all arguments, 10 days' trial proves.

"There's a Reason" for Postum

Postum Cereal Co., Ltd., Battle Creek, Mich.

HAVE IT RIGHT Have Your Beverages Made Good Enough to Win You.

The rule about not boiling coffee leads many persons to prepare Postum in the same way.

This is a mistake and, of course, is unfair to Postum. Have it just right and it has much the same flavor as the mild and high-priced Java doffee, but never causes the troubles that coffee does, An Illinois man found out how to make Postum so it tasted as good to him as his

old-time coffee. He writes: "For years I could not breakfast without my cup of coffee. "During this time I was troubled with palpitation of the heart, with smothering

and nervous spells. The doctor told me to quit coffee, but I did not. "Finally, one time, while visiting, I was given Postum for breakfast. I can't say I enjoyed it at first-they only guesses how to make it. But when we followed the directions on the package, we all agreed that 'Postum was fine.'

"Then I began to enjoy my meals. Could take plenty of substantial food besides the Postum and felt good afterwards. My headaches were gone, and gradually I forgot I ever had heart trou-

I have told persons we used Postum at our house and they remarked they did not know how we could 'use the stuff.' They did not get at its goodness because

it was not made right. "A lady tried to give Postum to a lot of hired men but they would not take it. I tosted it as she made it and didn't wonder-it didn't taste like ours. Asked about It she said she never had paid much attention to directions on the pack-

"The next time I saw her she had learned now to make Postum right and said the men folks asked for the second Follow directions and you'll have good Postum." Have it right!
