State Sets Out Freight Earnings of Omaha Boad in Proof of Assertions Made to Answer to Petition of Road.

(From a Staff Correspondent.) LINCOLN, March 12-(Special.)-In his answer to the complaint of the Chicago, Minreapolis, St. Paul & Omaha railroad which alleged in the federal court that the raiss provided in the legislation enacted in 1997 were conflicatory. Attorney General Jacob Kimmel of Kenrney, Eighty-Thompson shows in figures a comparison Eight Years Old, is of the earnings in 1907 and 1909 and also comparison of the rates now charged in Nebraska and in other states.

The guft has to do with the 2-cent fare law and the Aldrich freight rate law which decreased freight rates 15 per cent. Discussing freight rates, the answer says:

The rates provided for the transportation of lumber in carload lots in Nebraska of coffin maker. Since coming to this of corn grown and for the best ten ears is 11.5 cents per 100 pounds par 100 miles; in Iowa the rate is 6.3 per 100 pounds per 100 miles. The rate on wheat in Nebraska is 11.48 cents; in Iowa it is 8.1 cents. The rate on corn in Nebraska is 10.2 cents, while in Iowa it is 6.8 cents. On cattle in Nebraska the rate is 12.6 cents, while in Iowa it is 10 cents. The rate on hogs in Nebraska is 17 cents, while in Iowa the rate is Il cents. The rate on apples in Nebraska is 13.6 cents, while in Iowa the rate is 8.4 cents. The rate on potatoes in Nebraska is 11.9 cents, while in Iowa the rate is 7.2 cents. The rate on coal in Nebraska is \$1.02 per ton, while in Iowa the rate is 74 cents."

The answer sets out that while the revenue from intrastate freight shipments has been increased since the law went into effect, the expense of operation has not been increased. The revenue from intrastate shipments for the year ending June 20, 1908, was \$430,350.75 and for 1909 the revenue was \$657,610.01.

Freight Earnings The earnings of the freight department

for the year ending June 30, 1907, amounted to \$1,202,353.75, while for the year 1909 the revenue was \$1,245,149.23.

The freight earnings in Nebraska for the ending June 30, 1907, amounted to \$1.78 1-10 per train mile, while for the year 1909 the earnings per train mile amounted to \$1.827. The earnings per ton of freight handled in Nebraska in 1907 amounted to \$1.23; in 1909 the earnings pe rion of freight amounted to \$1.47. The freight earnings per ton mile in 1907 amounted to 16.5 mills, while in 1909 the earnings amounted to 17.63 mills. This amount, the answer says, the entire line, 9.03 mills,

The operating revenue of the railroad for Nebraska in 1907 was \$1,725,298.46, while for Nebraska in 1997 was \$1,292.50, white the operating revenue was \$1,597,738.42. Out of a deal in which two men, who were 1999 the expenses for 1997 were \$1,199,581.95 and in business, purchased five cases of liquor for 1999 the expenses were \$1,231,333.21. Verdict in OI dAssault Case. BROKEN BOW, Neb., March 12 .- (Special.)-The assault case of M. H. Glassey against Jackson Dye, after three years of fighting in the courts, was brought to a close yesterday afternoon. The court instructed the jury to find for plaintiff on the first cause of action. The verdict was for \$200. The trouble originated three years ago over some cattle, at which time Glassey, the plaintiff, suffered a fractured arm. The case was tried in the district court and decided in favor of Jackson Dye, the defendant. It was then appealed and the supreme court ordered a new trial. It is believed the jury would have brought in a evrdict for the defendant in this instance if it had not been for the preempptory instructions of the court. In case Judge Doan's motion for a new trial is overruled the case will probably again be appealed to the supreme court.
