

SUFFERED MANY YEARS RELIEVED BY PE-RU-NA.

Mrs. George Parker.

Colds and Catarrh Mrs. George Parker, 419 Water St., Menasha, Wis., writes: "I have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon rids the system of any traces of a cold, and prevents serious consequences."

Head and Lungs Mr. John McLaughlin, 1419 School St., Chicago, Ill., and his wife express their appreciation of the merits of Peruna in the following words: "We are pleased to testify as to the merits of Peruna in cases of catarrh. We were both troubled with catarrh of the head and lungs for several years, and did not seem to find anything which would benefit us."

GIRLS ENGAGE IN STRIKE

Inmates of Industrial School Leave There in Body.

COMPLAIN OF SUPERINTENDENT

Declare Miss Garretson Has Been Cruel—Lead in Praise of Former Head of Institution.

(From a Staff Correspondent.) DES MOINES, March 12.—(Special Telegram.)—A general investigation of the condition of affairs at the state industrial school for girls will be directed at once, owing to a walkout of the girls last night. They broke away, fifty of them in all, and twenty-five came to Des Moines. Today they were all returned except three, and investigation was made by members of the Board of Control as to the cause. It was found that the girls complain bitterly of Miss Garretson, the superintendent, saying that she has abused them; that she struck and choked a girl Friday and the girl, stripped her of her clothes and sent her to the solitary.

The girls who came to Des Moines said they had come to see John Cowie and tell him of their troubles. The girls did not attempt to ask or to cause any trouble, but were noisy and stated that their desire was only pertaining to the affairs of the school, which is located only twelve miles from Des Moines. It is known that there has been much trouble at the school ever since a woman was installed as superintendent. The girls at the school, with the exception of a few, were much devoted to the former superintendent and they resented the clamor which went up when some one suggested another woman should be given charge of the institution. The superintendent denies all stories of cruelty. In district court today, F. M. Hubbell won a case which had been on trial three weeks, involving ownership of about a mile of the tracks of the Des Moines Union railway in the city claimed by the Milwaukee company. The track is supposed to be worth \$500,000. The controversy arose because of indefiniteness in a sale made years ago to the Milwaukee company.

Other Petitions Granted. Among important petitions granted at the hearings the last few days were: Power corn shellers, first-class to third; steel culverts, eighteen-gauge same as sixteen; wagon brake ratchets, third to fourth; stove castings, classification made clearer; coffin stock, included in built-up wood; refuse beet pulp, same as sugar beets; collars, made in same way as western classification; egg cases and fillers, minimum weight fixed at 34,000 pounds; Iowa classification follow western on household goods; small boxes candy go at western classification; nursery stock takes western classification as to released value; hawks, attached to the same western classification; whole wheat given rate same as other cereals; farm wagon boxes, minimum weight fixed at 30,000 pounds; lard in tubs, either with or without tin linings, same rate; sinks and washstands given carload rate when mixed.

Start Law Enforcement Club. State Superintendent Higgins on his return from Sioux City, will find himself treated as a hero. At the state house it is planned to elect him honorary president of the Law Enforcement club and go into opposition to the attorney general. Higgins was on a train the other day when a drunken man made himself a nuisance almost dangerous to everyone. Higgins knocked him down and led the movement of the passengers to eject him from the car, which was done.

Land Office Books Removed. The books of the last federal land office in Iowa were removed today to the state house and given into custody of the secretary of state. The books came from the Des Moines office, which has now been abandoned. All the government land in the state has been disposed of and the records will remain with the state.

German Alliance Gets Busy. To combat the big campaign for prohibition, the German-American Liberal alliance will commence active work ere long. Colonel Joseph Eilbeck is president for Iowa. H. La Dage is president of the local branch. The purpose of the alliance is to fight the move in Iowa for the re-submission of the prohibition amendment. The members are to be divided into districts, but believe the best way to control the liquor traffic is by municipal regulation.

Tax Ferrets Lose Case. The tax ferrets were worsted by the supreme court in the Polk county case, in which H. R. Heath of oatmeal fame was ordered to pay up \$50,000 of back taxes. This was assessed against him on the basis of a meal trust. Heath had formerly owned a mill at Fort Dodge and was also interested in Des Moines. The tax ferrets gave him notice of assessment upon \$20,000 worth of stock for each of five years. There was some irregularity in the proceeding, but the court says that it was all right save that no effort was made to show that any stocks had been omitted from taxation, and any-way stocks are not assessable as moneys and credits. The court does find that there was omitted from the assessment \$100 worth of bonds for a part of the time and \$2,000 for the rest of the time, but that is all.

S. W. Farmer, appellant, against H. N. Underwood, Polk county, affirmed. Albert Horn, against J. O. Stoner, appellant, Buchanan county, affirmed. C. H. Murray against H. R. Heath, appellant, Polk county, modified. Suffrage Debate Arranged. Senator Gilliland of Mills county, while attending the political and good roads meetings here during the week, completed arrangements for thirty-five debates before chauntiqua audiences on the woman suffrage question, in the coming year. Miss Gertrude von Petzold, now on her way back from England. These debates will be in Iowa, Nebraska, Kansas, Minnesota and Missouri. The two were drawn into a joint debate here last summer and it was so delightful that the chauntiqua managers have been after them ever since.

Candidate for Governor. Senator A. B. Funk for governor in opposition to the standard program of "cleaning up Iowa" is the latest move. His name was freely discussed by the hundreds of farmers who attended the conventions and conferences the last week. It is said that all the progressive republicans are ready to unite upon him if he will get into the game.

OMAHA GIRL WINS HIGHEST PRIZE AT COE COLLEGE Miss Helen Lawrence Best Student in Senior Class—Wins Many College Honors.

CECILIA RAPIDS, Ia., March 12.—(Special.)—Miss Helen Lawrence, an Omaha girl now a senior in Coe college, has just been awarded the Jessup prize of \$50 for the highest scholarship in the senior class during the last semester. That Miss Lawrence is one of the most popular young women in the college is shown by the fact that she has held several offices of honor. Last year she was the president of her class and a member of the Young Women's Christian association cabinet. Last semester she held the office of president in the

The Schmoller & Mueller Co. Mail Orders Given Immediate Attention.

Carleton Literary society and just recently has been elected to represent the senior girls in the college booster club. SPEAKER PREDICTS DROUTH FOR MISSOURI NEXT YEAR Prohibition Leaders Will Poll Every Voter in State on Liquor Question.

SEDALIA, Mo., March 12.—"There is not the slightest doubt in the world that Missouri will go dry," remarked one of the speakers at the Missouri constitutional amendment convention here today. "Look at Kentucky," added the speaker. "People are looking to that state, the home of whiskey and liquor, and are determined to do likewise in Missouri." Ex-Congressman U. S. Hall of Glasgow, Mo., who followed, declared: "I have never yet entered a campaign and been defeated and I don't intend to suffer defeat in this one." Loud and prolonged cheers greeted the speaker. A resolution adopted provided that the association organize at once in each township a campaign committee, headed by a chairman, whose duty it shall be to poll a list of every vote in the township, arranging the list in three columns, one for state-wide prohibition, another against and a third doubtful. After the list is polled it is to be submitted to the state executive committee.

NO CONCESSIONS TO MINERS Operators at Cincinnati, by Unanimous Vote, Reject All Demands by Men. CINCINNATI, March 12.—The special scale committee appointed by the joint conference of Ohio, Indiana and western Pennsylvania miners and operators to thresh out and report on the demands of the miners for a wage increase and other concessions, adjourned today with the opening of the conference Tuesday afternoon. The operators, if anything, were more determined than ever to make no concessions to the miners. All the demands made by the miners were voted on separately, and all were turned down by the operators without a dissenting voice. A subcommittee was appointed to take up the demands anew, the larger committee adjourning until the subcommittee is ready to report.

MORGAN LAUGHS AT REPORT New York Financier Asserts Rumor of His Death Was Started to Affect Market. ROME, March 12.—J. P. Morgan enjoyed a hearty laugh today when he learned for the first time of the rumor that he had been the victim of a sudden taking off. When he appeared for breakfast at the Grand hotel, where he has apartments, the American financier found awaiting him many telegrams congratulating him upon the falsity of yesterday's report. "I am accustomed to such tricks," said he. "They are planned simply to affect the

market momentarily. I have never before felt as well as I do now." Mr. Morgan lunched today with John W. Garrett, secretary of the American embassy at Rome. MILLIONS OF GERMS FOUND ON SINGLE DOLLAR BILL Smallpox, Scarlet Fever, Typhoid, Tuberculosis and Diphtheria Represented on Paper Money. WASHINGTON, March 12.—Germ—22,000,000 of them of manifold variety—were found on a one dollar bill microscopically examined at the request of Representative Wiley of New Jersey, according to his statement today before the house committee on banking and currency in support of his bill to provide clean currency by burning all paper money returned to the treasury. Among the many diseases found to be circulating about this money were smallpox, scarlet fever, typhoid, tuberculosis and diphtheria. No germs were found on metal money.

Finally Coffee does hurt most people. Why run the risk when POSTUM is harmless and wholesome? "There's a Reason"

Mr. Morgan accepted an invitation of the committee of the Italian organization arranging for the celebration in 1911 of the fiftieth anniversary of the proclamation making Rome the capital of United Italy to act as the honorary president of the foreign committee. Mr. Morgan today received an invitation from the Duchess Lante Della Rovere, who is Miss Anita Allen of New Orleans, to take lunch with her at her villa at Baginaja.

ROME, March 12.—There was hardly a minute of rest Friday for J. Pierpont Morgan. Viewing works of art, attending to correspondence and receiving visitors were embraced in the program of the morning and afternoon, and this evening he dined with the Princess Teano, who held a reception in his honor. Mr. Morgan is in perfect health. Having expressed a desire to visit the Borgia apartment in the Vatican at a time when tourists were not admitted, Mr. Missirotti, prefect of the apostolic palaces, today sent Mr. Morgan a special card of admission. Later in the day Mr. Morgan, accompanied by Mr. and Mrs. Morton S. Patton of New York, viewed the art masterpieces there, especially those of Pinturicchio. Mr. Morgan said that he would not mind being left a life prisoner in the Vatican if he were permitted at all times to look upon such artistic perfection. The American financier spent the entire afternoon in his apartment dictating letters, examining objects of art submitted for his judgment and receiving visitors.

SENATOR AND THE ATTORNEY CLASH (Continued from First Page.) slowly, but the witness insisted that there were two different instances. Mr. Verross also read in the records letters exchanged between Secretary Ballinger and President Taft. The letters showed that the secretary had written to the president in regard to continuing reclamation work, but that the president had advised him to hold down on reclamation work in the interest of economy and that when congress met he would take the matter up. When Mr. Davis was excused the committee adjourned until next Friday.

Losses Hand in Bone Machine. SIOUX FALLS, S. D., March 12.—(Special.)—Anton Everson, aged about 21, employed in the local meat market of Carl Look, was the victim of a distressing accident. While engaged in feeding a bone machine, his right became caught in the machine, and before he could release it, the hand was cut off at the wrist. Everson had been in Sioux Falls only about a year, coming from Brookings, where his parents reside.

"Fifteen Years in Business." "Fifteen Years in Business" is the title of a book issued by Kops Bros., New York, makers of Nemo corsets, in commemoration of their fifteenth business anniversary. It comprises a history of their business, showing how, from a humble beginning, they have in fifteen years built up by far the most important and probably the largest corset industry in the world. It reveals the fact that the great Nemo business has been built up practically on newspaper advertising, and the further interesting fact that Kops Bros. were the first corset manufacturers to use newspaper space to introduce their product to the general public.

Morgan Spends Busy Day in Rome Financier Visits Vatican Art Gallery, Attends Reception and Writes Letters.

DUMP BRYAN? GUESS AGAIN (Continued on Second Page.) is now wavering, having gone so far as to be quoted as saying he would do whatever the party want, and there are some who say he will bow the neck to the Bryan will before the campaign is fairly on. From out in the state comes the report that W. H. Thompson, candidate for the senate, is willing to abide by the Bryan platform, even to county option, though Mr. Thompson has not yet verified the report. So as it stands, the only democratic candidate in the state, who is flat-footed against the Bryan program is Mayor Dahlman of Omaha, who has done more for the advancement of Mr. Bryan politically, probably, than both of those mentioned above.

When you say what you want when you want it, say so through The Bee Want Ad columns.

Fortunes in Fruit You Can Make \$3,000 to \$5,000 A year from ten acres of our frostless, fertile, fruit and truck land, growing oranges, grapefruit, pineapples, winter vegetables, lemons, limes, bananas, berries, grapes, figs, tobacco, coffee, cocoa, coconuts, pecans, almonds, etc. The Isle of Pines is 90 miles south of Havana, Cuba—only four days from New York by fast steamer. It is an island of eternal June, swept by ocean breezes and protected by the warm waters of the Gulf Stream from the blighting frosts which devastate Florida's groves. There are no frosts, floods, droughts, cyclones or earthquakes. Irrigation for fruit trees is unnecessary. Our climate is the finest in the world. Winter or summer. No coughs, colds, rheumatism or fevers—no sunstrokes or heat prostrations. Flowers, Fruits and Sunshine all year round in the Isle of Pines. Every month is harvest time. You can grow three crops a year. No cold barren winter to endure; while the ground lies idle, bringing in no income. The Isle of Pines is in every sense an American Colony. You will feel at home there. Over 6,000 Americans (some English and Canadian) are interested there and over 106 of the land is owned by them. American settlers are there in goodly numbers to bid you welcome. Book Sent FREE Let us send you free our large, beautifully illustrated, 98 page book, "MCKINLEY, ISLE OF PINES," containing colored plates and over 100 views of the big 500-acre orange and grapefruit groves, entirely planted to 4,000 trees, hundreds of acres of private groves, pineapple fields, tobacco plantations, vegetable gardens, tropical homes of American settlers, good roads and bridges, hotels, town hall, schools, general stores, etc., all accomplished in four short years by the untiring efforts of the company and the co-operation of enterprising American settlers. A few hundred dollars invested now will make you independent in the next few years. The price of our land is advancing rapidly because of extensive improvements we are making. You can save money by buying now. Fill out the coupon and send it today for our free book, containing full information about our proposition. MAIL COUPON TODAY Name..... No. and St..... City..... State..... Omaha Bee, 3-13-10.
