**OCEAN STEAMSHIPS CRUISES DE LUXE** to the WEST INDIES By New "AVON" 11.500 Tens

As ardent an advocate of wise conservaion as the most radical, was the way the secretary expressed his policy in regard to the public land question. "But," he added, "it must be wise conservation to appeal to me." Secretary Ballinger declared himself out of

generations. "Our country," he said. "Is the richest

of all in natural resources. Its soil, its sources." minerals, its coal, its iron, its granite, its limestone, its water power and its

climate possess immeasurable wealth, and, if properly utilized, contain sufficient reyears to come." He said that while "the doctrainaires

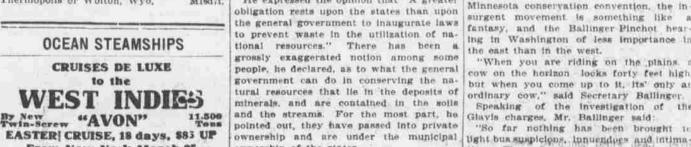

States and Alaska will be exhausted in a period of about 100 years, the fact is that, according to the production of coal in the United States at the close of 1908, only four-tenths of 1 per cent of the original supply of coal had been exhausted, leaving as the apparent supply still available 29.6 per cent of the original supply, or coal enough to last, as some claim, for a

"After long indifference on the part of the people as to the public domain," he declared, "a deep concern has suddenly Ballinger on arison, respecting the mommant of the national state, with a wholly exaggerated notion of what should be done with it

by the government. There is much talk and, about the conservation of our national resources, and nebulous theories that sound good to the ear, but are immpossible of practical application to existing conditions

are advanced. Between the hysteria that exists on the one side and the tendency to despoil the public domain on the other

> we will, it is hoped, be able to find the true policy of the government." **Obligation** of the States. He expressed the opinion that "A greater

At All Druggists

"enter the state and dictute the means or methods of the development of its stream and rivers, except insofar as their navigation is concerned." Wise conservation, in

development of our natural resources as is "But we must not forget." he asserted. "that we are not through with the policy of development, of building up new communities and settlements, even in far-off

mote regions of the west.

What Public Demands.

"What the public domain needs today is a speedy survey of all available areas for settlement; and adequate and scientific classification of the remainder of the public lands, and such legislation as will ensympathy with those radicals, who fear able a determination of all private entries that all natural resources are being used and rights in the interest of the bona up without any consideration for future fide claimant without unreasonable delay. and, above all, protection against the monopolization or waste of our natural re-

Mr. Ballinger declared that the presen laws and methods of disposals of deposits of coal, phosphates, oil and natural gas are utterly impractical, either from the source to care for all probable increase standpoint of the locater or that of the gavin the population of our country in the ernment, "and no adequate method exists, he added, "for controlling or supervisig hydro-electric power produced from power figure that the coal deposits of the United plants installed on government water power sites. No. man or set of men cau comply with the present law and finance a coal mine on the public domain on 640 acres of land except under extremely favorably conditions. The absurdity of the law in itself invited fraud and indirect methods of evading its provisions. It is hoped congress will furnish the Interior department with the necessary machiners to guard safely and properly the public in-

terests in their ultimate disposition."

Glavis Charges

Secretary Says Nothing Has Been Brought to Light but Suspicions and Intimations.

ST. PAUL, March 16 .- According to Richard A. Ballinger, secretary of the interior. who is in St. Paul today to address the Minnesota conservation convention, the inthe general government to inaugurate laws fantasy, and the Ballinger Pinchot hearsurgent movement is something like a ing in Washington of less importance in "When you are riding on the plains, a people, he declared, as to what the general cow on the horizon locks forty feet high, government can do in conserving the na- but when you come up to H, its' only au tural resources that lie in the deposits of minerals, and are contained in the soils Speaking of the investigation of th Speaking of the investigation of the
