

GRAIN AND PRODUCE MARKET

Importance Attached to Reports of Rains in Kansas.

PRICES ARE SLIGHTLY LOWER

General Tone of the Market is Nervous—Corn Trade Lacks Snap and Cash Deals Are Slow.

OMAHA, March 16, 1910.

Considerable importance is given reports of light rains in Kansas. Prices ranged slightly lower early and the general tone on the market rather nervous. Contractions on the rain reports firmed the market later, but on the whole it was dull and featureless.

The corn market lacked snap, cash dealers complaining of slow demand and shipping orders. Market values show a tendency to decline, there being little or no support on the buying side.

There was no change in the wheat situation. Prices were narrow, but firm. The new crop futures showed a slight gain over yesterday. Traders were least interested in crop news and the market was a dull affair.

Corn futures steady to shade weaker on slow demand and weaker cash conditions. The market throughout the day was dull and showed very little activity. The shipping demand is keeping buyers out of the market.

Primary wheat receipts were 63,000 bu. and shipments were 22,000 bu., against receipts last year of 26,000 bu. and shipments of 27,000 bu.

Primary corn receipts were 60,000 bu. and shipments were 20,000 bu., against receipts last year of 50,000 bu. and shipments of 20,000 bu.

Clearances were 11,000 bu. of corn, 220 bu. of oats and wheat and flour equal to 11,000 bu.

Liverpool closed 1/4¢ higher on wheat and 1/2¢ higher on corn.
