

GRAIN AND PRODUCE MARKET

Lack of Rain in the West and South Start Wheat Up.

REPORTS OF DAMAGE CONTINUE

Farmers Stop Deliveries of Old Wheat on This News and Cash Wheat Goes Up as Result.

OMAHA, March 21, 1910. Lack of rain in the west and south started wheat higher today. Reports of damage continue to be general, and if rain is not had, threats of total crop loss are made.

Wheat opened sharply higher, values advancing on reports of the damage to the market. Cash demand is putting the market on a steady basis.

NEW YORK STOCKS AND BONDS

Waiting Attitude of Large Operators Causes Dullness in Market.

LABOR DISPUTES WATCHED

Settlement of Philadelphia Strike Western Firemen's Case Complicates Matters.

NEW YORK, March 21.—The executive dullness into which the dealings in stocks today was described as a waiting attitude on the part of large operative forces.

Various factors were assigned as the ground for this attitude, but it was noticeable that clearing up of some of them in the course of the day had little or no effect in enlivening the market.

The adjustment of the supreme court over the spring holiday disposed of one of the factors. Last week predictions were offered that the supreme court decision in the American Tobacco case would be in favor of the company.

The failure of verification of this rumor today seemed to throw the market into a state almost of suspended animation.

The postponement of the Philadelphia strike settlement, which was hoped for the reported promise of an adjustment of the strike, also had a depressing effect.

The western firemen's case, which is less a question of an agreement in the western railroad firemen dispute made the impression from the fact that the firemen's union has been growing up.

That the money market may be subjected to a squeeze in connection with the April settlements. Requirements at that time are normally large and there are special demands to be met at the closing.

The London stock market settlement happens to fall on the same date and the furious speculation in the rubber and tin markets into a state almost of suspended animation.

The rising rates for money were accompanied today by a sharp advance in foreign exchange rates.

The London market. Bankers still discuss the likelihood of an overvalued market from New York.

The subscriptions to the New York city bond issue of \$20,000,000, for which we waited for with absorbing interest throughout the financial district.

For some time past, full cream, full milk, special, 17c; full cream, 17c; full cream, 17c; full cream, 17c.

For Nebraska, Fair Tuesday and Cooler East and North Portions.

OMAHA, March 21, 1910. Light showers in the lower Mississippi and Ohio valleys, the lower lake region and western states, and light rain scattered throughout the southwest and north central states.
