

The Franklin new air-cooled engine will not overheat.

The Franklin new cooling system, the most notable success of the year in automobile construction, is a remarkable achievement. The cooling system is the engine itself. There is no auxiliary mechanism. This makes the Franklin the only automobile with an engine the operation of which does not depend upon something besides the engine.

The water-cooled engine will not operate unless every detail of the mechanism which makes up the cooling system is in working order. Therefore it is not fully reliable.

In the Franklin instead of adding mechanism as is done in the water-cooled engine we simply make use of the engine itself. The fly wheel, necessary on any engine, is a suction fan of new type. This suction-fan fly wheel envelops each cylinder in a volume of rapidly moving air, giving a cooling effect superior in every way to water cooling.

Since there is no mechanism to look after you really do not know you have a cooling system. It requires no attention, gives you no trouble. It is the limit of reliability. It will not overheat.

The 1910 Franklin with its new cooling system has been in the hands of owners since last June; the success of the cooling system is an established fact.

There is no tire trouble with the Franklin.

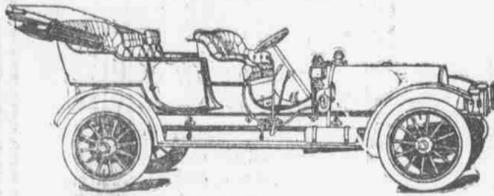

Light and flexible, the Franklin is easy on tires, and that is half the solution of the tire problem. The other half is that we use tires large enough and strong enough to do the work.

So reliable is the Franklin tire equipment that extra tires are not carried. The tires will not blow out. Their average mileage is four times that of the ordinary tire equipment.

Ask the tire manufacturer about this. Franklin tire equipment costs us more, but the purchaser's expense is cut down.

Even if you put extra large tires on other makes of automobiles you do not get the results you do with the Franklin. The reason is that the rigid construction of the former, as opposed to the Franklin wood-chassis-frame and full-elliptic-spring flexible construction, is hard on tires, no matter what their size.

Examine carefully the models displayed at our show room.

Model H, six-cylinder, 42-horse-power, \$3750. (Top extra)

CLOSE OF SEASON AT START

Standing of Western League Flashed on Fans by The Bee.

RECALLS FIERCE FIGHT AT END

Billy Fox, Duke Hollenbeck and War Sanders Arrive to Try Out Pa's Colts for the Big Start.

Club	W.	L.	Pct.
Des Moines	38	23	.621
Sioux City	34	29	.539
Omaha	34	29	.539
Topeka	24	39	.381
Wichita	20	43	.314
Lincoln	17	46	.266
Pueblo	12	51	.188

The above information was conveyed to spectators by The Bee's bulletin board. It caused many to stop and read. The fact was it was last year's bulletin board, brought from winter storage to receive a fresh coat of paint in preparation of the coming season. When the list will again give the correct and latest base ball scores. The above is the standing of the Western league at the close of the season, and recalled to many the strenuous fight made by Sioux City and Des Moines, with the latter winning out by the aid of Omaha. How will they line up this season?

Captain Billie Fox has arrived from Minneapolis, looking fit for a game at once. He immediately secured a suit from Brother Dave and hid himself to Vinton street park, where he took charge of the colts, who are daily arriving.

Warfield Sanders, the clever southpaw of the Bourkes, has also arrived and is in better condition than he has been in any spring for several years. He has been engaged in outdoor work and this has kept him in good shape. For several years Pa has not been in the game early in the spring because he did not round into condition until hot weather.

Duke Hollenbeck is here and tending for a chance to work his side arm delivery against some of the heavy hitters of the Western league. Holly is in fine condition and looks bigger than ever.

Pete Peterson, regular fan, has returned from Hot Springs, where he saw Welch, Schlipke and Goding in training. He says they expect to be in Omaha by Saturday. He says that Welch has cut his weight from 215 to 190 pounds and that all are getting tired under the heavy work and baths. Similar to the giant from St. Paul, is the wonder of the squad and because of his mammoth build the management is considering the proposition of entering him in the hammer throw at the indoor meet at the Auditorium April 1.

Morning and afternoon sessions are being held at Vinton park and Captain Fox will have the boys work fast as long as the present warm weather continues.

AMONG THE LOCAL BOWLERS

Willow Springs Succeed in Taking Two Games from St. James Team.

The Willow Springs took two games from the St. James last night on the Metropolitan alleys. Balzar took honors for the Willow Springs with 222 single game and 576 for total three games, while Hansen had high total for the St. James with 529, and Wilson had high single of 203 for the same team. Tonight the Brodegaard's Crown and Klauer's Gleason's.

FOX HAS THREE LUCKY ROCKS

Omaha Leader Brings Marbles His Boys Gave Him for Season.

If Captain Billy Fox doesn't have any luck this season it won't be for a lack of lucky stones, for he has three. Before leaving his Minneapolis home the Bourke leader was presented by a marble from each of his three boys.

"Here, papa," said the eldest boy, "is a marble for your luck this season. 'Keep it in your pocket all the time, when you are playing and are not playing."

"That gave the marble to the other two and each one gave his father a marble."

So if Fox rattles marbles on the diamonds you'll know why.

Dinner for Iowa Captains.

IOWA CITY, Ia., March 22.—(Special.)—Invitations have been issued by Clyde Williams, present coach of the Ames Athletic team, for a dinner party in honor of all captains of the Iowa football team since the game was started in the state university. The function will take place at Ames next Thursday evening.

John Griffith, present coach of the University of Iowa foot ball and basket ball teams, was a former captain and is

TA T AGAIN LAUDS TARIFF

He Strongly Defends Payne-Aldrich Bill at Providence Banquet.

RHODE ISLAND SENATOR PRESENT

Aldrich Makes Short Address Pledging Loyalty to Nation's Chief—President Attends Yale Corporation Meeting.

PROVIDENCE, R. I., March 22.—With Senator Aldrich seated at his left hand, President Taft last night earnestly defended the Payne-Aldrich tariff bill in his address at the annual dinner of the New England Manufacturing Jewelers and Silversmiths' association. Mr. Taft received a most enthusiastic greeting.

The president also expressed the hope tonight that it would not be necessary to apply the maximum tariff rates against Canada, thus breaking out the reports of the Albany conference of yesterday that the negotiations with the Dominion government had taken a more favorable turn.

"I can't go on the floor of the house or senate," said the president, "so I have to accept opportunities like this to give vent to my views. At the recent extra session of congress we passed a new tariff bill which has been the subject of considerable discussion. But the proof of the pudding is in the eating. Seven months of the new tariff law have proved a number of things."

"First, it is the best revenue getter we ever had."

"Second, it has by return shown that it has the largest free list."

"Third, it has shown that the rates of the Dingley bill have been materially reduced."

"Fourth, by the creation of a customs court, it has provided means for the speedy and just administration of the custom law."

"Fifth, it has provided free trade with the Philippines—a measure of justice which should have been given as far back as 1900."

"Sixth, it has furnished the executive, by means of the maximum and minimum principle, a leverage to secure from all foreign countries fair treatment for American products without any undue discrimination, evidence of which has been cropping out in the tariff laws of the number of nations."

"Seventh, a new tariff law has provided a permanent board. It is my intention soon to ask of congress an appropriation of from \$200,000 to \$250,000 to enable this board to get at the truth concerning the protected industries of this country, so that when we again have occasion to revise the tariff we will have the board's record of facts to be referred to."

"To put the blame on the poor old tariff bill, is to use a moderate expression—unjust."

President Taft reviewed the proposed legislation and recommended to congress, running over the details of the various measures in practically the same language as his Rochester speech of last week. He declared he had attempted as much as he could to carry out the Roosevelt policies. He asserted also that he was attempting so far as he could to carry out the pledges of the party platform. He referred to the postal savings bank bill, the interstate commerce amendments, the statehood and anti-injunction bills.

When he had concluded his speech President Taft was presented with a magnificent gold casket as a souvenir of his visit. Following the ovation he had received at the depot when he arrived and from the cheering crowds on the street, this token of esteem seemed deeply to affect him.

Senator Aldrich followed the president. He spoke only a few minutes but his utterance was notable in that he pledged to loyal and earnest support to President Taft at all times. The president left late tonight for New York.

A Night Alarm.

Worse than an alarm of fire at night is the metallic cough of croup. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. It has saved many little lives. No opiates. Sold by all druggists.

Persistent Advertising is the road to Big Returns.

FAT FOLKS FAVOR

Home Mixture That Takes Off the Fat Rapidly—Gives No Wrinkles—No Stomach Discomfort—Keeps the System Healthy—No Starvation—No Diets—No Exercises.

Too much fat is both uncomfortable and dangerous, but usually fleshy people prefer to put up with it, rather than to undergo the hardships of the so-called "cures" and patent fat "reducers." This self-sacrifice of comfort and health to obtain a thin figure is entirely unnecessary, however, as Mrs. Luella Bigger tells us through a home receipt that is far superior in every way to anything money will buy for reducing superfluous flesh. It is said this simple mixture will take the fat off of man or woman at the rate of at least a couple of pounds a week without even causing wrinkles. Moreover it does not disturb the stomach, but is a good thing for the system, clearing away pimples, and best of all, it does not interfere with the diet. You can use it and at the same time eat whatever you like. This receipt is as follows:—1/2 ounce Mergol; 1/2 ounce Fluid Extract Cascara Promotica and 1/2 ounce of Peppermint Water. Get these ingredients at any drug store, mix them together at home and take one each meal, each meal and at bedtime.

Mrs. Bigger, as is well known, is a famous beauty expert, and whatever she recommends is reliable.—Adv.

A Small Affair

Nels Madsen Took Land and Fortified Ownership with Tax Deed—Now Sustained in Court.

A tax title deed bought by Nels Madsen of Dexter L. Thomas for five acres near Stetting under Judge Sears in district court. Madsen squatted on the property for years and when dispossessed threatened he bought the title from Thomas and bid defiance to the former owner, J. M. Risher of Ohio.

Madsen swarmed on the land in 1893, and for a long time his way was undisturbed. No taxes had been paid and suit was brought against the property for taxes. The title was bought in by Mr. Thomas. Then Risher at length moved and Madsen getting uneasy, made his purchase of the tax title. Risher filed a suit in ejectment and the jury has now held against him.

No Substitute.

Accept no substitute for Foley's Honey and Tar. It is the best and safest remedy for coughs, colds, throat and lung troubles. Contains no opiates and no harmful drugs. Remember the name, Foley's Honey and Tar, and accept no substitutes. Sold by all druggists.

Wheat Needs Rain, Frost Works Loss Throughout State

I. W. Haws, Vice President of State Board of Agriculture, in City Boosting Fair.

"At the present time we have possibly damage of 15 to 25 per cent in the winter wheat crop, but if a good warm rain the loss will be cut down to a minimum."

This is the opinion of I. W. Haws of Minden, vice president of the State Board of Agriculture, who, with Joseph Roberts of Fremont, superintendent of machinery department of the state fair, is on a visit to Omaha to support the fair, which will be held at Lincoln September 5 to 9.

Vice President Haws said the continuance of the dry weather would be most injurious to the crop. "Some localities," he remarked, "report damage as high as 50 per cent, others 30 per cent and others not at all, but taking the wheat growing centers of the state generally, if we have a good fall of rain, the damage will not be appreciable all over."

In the early part of the winter, he said, the conditions were most favorable for a good yield. The heavy snow protected the plants, but when the thaw came in February, followed as it was by a keen frost, the situation was altogether changed.

Speaking on the particular object of his visit Vice President Haws, who is at the Paxton, said that Mr. Roberts and he would spend the next day or five days in the city and Council Bluffs interviewing the manufacturers of agricultural implements in both places.

"We have found," he added, "that the implement section is one of the best educational features of the state fair, and the Omaha men here are doing a great service in this field of industry, we think it only right that they should have an opportunity of exhibiting at it. We are thankful to them for what they have done by coming to the help of the agricultural community in this way and the more scientific the farmer becomes, the more he will improve his soil, but in adopting the latest devices to plant and harvest his crops, the better it will be for the country generally."

Mr. Haws explained that implements would be made a big feature of the show this year and they looked forward to it making the fair record one.

Speaking of the \$35,000 that was annually utilized by the state university for the purpose of agricultural education, Mr. Haws said that the 1909-10 short course series was better attended than ever before and indicated that the farmers of Nebraska were realizing the importance of improved methods in agriculture as well as in the breeding and rearing of stock.

Creighton Man Thrown from Car and May Not Live

Dr. C. C. Johnson Seriously Hurt When New Machine Runs Over Obstruction Left on Street.

Fitted out of the automobile he had just bought, Dr. C. C. Johnson of Creighton, Neb., lies in the Wise Memorial hospital dangerously, and possibly fatally injured.

Dr. A. P. Condon, who is the surgeon in attendance said last night he feared there was a fracture of the base of the skull. The patient was then resting comfortably.

The accident happened on a trial run of his new car. The doctor was intending to go to Fremont, but before making the trip wanted to be satisfied of its hill climbing capacity. To test it he and W. L. Huffman went for a spin along Thirty-eighth street with Mr. Huffman at the wheel. The auto had successfully negotiated the hill between Dodge street and Capitol avenue and was headed toward Farnam, both congratulating themselves on how satisfactorily the machine had behaved, according to Mr. Huffman in describing the occurrence, when just as they passed over Dodge street there was a bump and the doctor was thrown out, his head heavily striking the ground. The spill occurred almost opposite the residence of Dr. R. W. Connel, 115 South Thirty-eighth street, and the sufferer was carried into the house.

He remained conscious and registered that he might be attended by Dr. Condon. After being seen by the doctor and Assistant Police Surgeon Loveland, he was taken in the police wagon to the hospital.

Mr. Huffman said that just before the accident he had to take to the side of the street to avoid another automobile and his strong head light prevented him from seeing a mound of hardened mortar in the street before the premises at 102 South Thirty-eighth street over which the machine passed at good speed.

SQUATTER'S CLAIM IS GOOD

Nels Madsen Took Land and Fortified Ownership with Tax Deed—Now Sustained in Court.

A tax title deed bought by Nels Madsen of Dexter L. Thomas for five acres near Stetting under Judge Sears in district court. Madsen squatted on the property for years and when dispossessed threatened he bought the title from Thomas and bid defiance to the former owner, J. M. Risher of Ohio.

Madsen swarmed on the land in 1893, and for a long time his way was undisturbed. No taxes had been paid and suit was brought against the property for taxes. The title was bought in by Mr. Thomas.
